

Reporting Clarification: Edit Reports

- If a student record has both errors and warnings, the errors will now appear in a separate report from the warnings.
- Name and Student ID (**Data Element #95**) were added to the edit report to more easily identify students when the institution is trying to locate students within the FAD file.

Data Element #43: Gender

- Added option U = Unknown
 (This will help distinguish when a gender cannot be reported.)

Data Element #97: Selective Service

- Added option 3 = Exempt
 (This will help distinguish those that are truly exempt versus not applicable or not registered.)
- Added edit since there are tuition exemptions/waivers that must be registered for selective service:
 - Error if = 0 or 2 and Tuition Exemption/Waiver Award > 0 and Tuition Exemption/Waiver Code (#11, #14, #17, #20) = 16, 50, 61 or 68
- Updated edits for state aid to error if reporting not registered or not applicable:

error if = 0 or 2 and needs analysis (# 23) = 1 and TEG (#54) > 0

error if = 0 or 2 and needs analysis (# 23) = 1 and TEXAS Grant (#68) > 0

error if = 0 or 2 and needs analysis (# 23) = 1 and TEOG (#69) > 0

error if = 0 or 2 and needs analysis (# 23) = 1 and CAL (#83) > 0

error if = 0 or 2 and needs analysis (# 23) = 1 and TOP 10% (#8) > 0

error if = 0 or 2 and needs analysis (# 23) = 1 and BOT (#89) > 0

error if = 0 or 2 and needs analysis (# 23) = 1 and TASSP (#79) > 0

error if = 0 or 2 and needs analysis (# 23) = 1 and TCWS (#74) > 0

error if = 0 or 2 and needs analysis (# 23) = 1 and TCWS Mentorship (#78) > 0

Data Element #9: Unmatched Reason

- Renamed data element as "Exceptions" (previously Unmatched Reason)
 - Institutions will now use the available codes as reasons for an override instead of sending a manual override request.
- Increased range up to 15
- Added options below are used to explain the recipient's eligibility for reporting purposes:
 - 12 = Student completed FAFSA but did not attend any terms (no hours and tuition/fees reported)
 - 13 = Student enrolled and received 100% tuition and fees refunded
 - 14 = Student enrolled and was not charged tuition/fees by your institution
 - 15 = Program Level (#22) changed during the academic year

Data Elements #99-101: Attempted hours for Fall, Spring and Summer:

- Increased maximum to 800

Data Element #7: Parent AGI

- Allow data to be reported for Independent students (data element#34 =2), remove edit below:
 - Parent AGI > 0 and dependency status (#34) = 2
