

# Timely Data Reporting Update

David W. Gardner, Ph.D.  
Deputy Commissioner  
Academic Planning and Policy  
Chief Academic Officer  
March 20, 2019

## Improving the timeliness of data reporting is a top operational priority for the Strategic Planning and Funding division

- **Challenge:** When even a single institution reports data late, THECB staff cannot conduct the statewide analyses needed
  - Accountability system
  - Almanac
  - Formula funding and performance funding runs
- Goal:

100% of fall Coordinating Board Management data reports are certified by the institutions within **FOUR** working weeks of the due date and ready for THECB use within **SIX** working weeks (Dec 1).

## An internal working group identified several challenges and strategies for improvement

- Strategies
  - Include and emphasize certification dates in the manual and in communication to institutions
  - Update the process for institutional notifications
    - Reporting official
    - Chief reporting official
    - THECB liaison
    - President
  - More regular updates on reporting to the board
  - Simplify tracking dashboard available for institutions

## Timeliness was significantly improved and helped accelerate analysis for the Accountability System

- By Dec 1, the percent of fall data certified increased
  - Fall 2017: **84%**
  - Fall 2018: **94%**
- The accountability system update was published almost a month earlier
  - 2017 data update published **February 9, 2018**
  - 2018 data update published **January 11, 2019**
