Community and Technical College Leadership Council

Charges:

- Build collaborative relationships that will allow the state to leverage and scale
 the positive results of improvement initiatives and partnerships at public
 community, technical and state colleges.
- In collaboration with the Board's Undergraduate Education Advisory Committee
 and presidents and trustees of public junior, technical or state colleges, identify
 areas to reinforce the distinctive mission of community, technical and state
 colleges and develop policy recommendations to ensure seamless student
 progress through the educational pipeline linking with the K-12 system, adult
 education and four-year institutions.
- Beginning in 2016, provide guidance for how community college districts develop targets to meet statewide goals set by the next higher education plan post-Closing the Gaps by 2015;
- Review the legislative agenda of the Texas Association of Community Colleges and the Community College Association of Texas Trustees and provide legislative recommendations to the Board.
