## Mission of the Coordinating Board

The Texas Higher Education Coordinating Board's mission is to work with the Legislature, Governor, governing boards, higher education institutions, and other entities to help Texas meet the goals of the state's higher education plan, *Closing the Gaps by 2015*, and thereby provide the people of Texas the widest access to higher education of the highest quality in the most efficient manner.

## Philosophy of the Coordinating Board

The Texas Higher Education Coordinating Board will promote access to quality higher education across the state with the conviction that access without quality is mediocrity and that quality without access is unacceptable. The Board will be open, ethical, responsive, and committed to public service. The Board will approach its work with a sense of purpose and responsibility to the people of Texas, and it is committed to the best use of public monies. The Board will engage in actions that add value to Texas and to higher education. The agency will avoid efforts that do not add value or that are duplicated by other entities.

*The Texas Higher Education Coordinating Board does not discriminate on the basis of race, color, national origin, gender, religion, age, or disability in employment or the provision of services.*

## Acknowledgments

A publication of this nature requires multiple contributors to complete. The Texas Higher Education Coordinating Board (THECB) and College for All Texans Foundation thank Lumina Foundation for Education and Houston Endowment for the financial support to produce this almanac and for their commitment to help ensure that policy discussions and decisions in Texas are data-driven. We are grateful to Educate Texas for helping promote the use of this almanac to that end by stakeholders across Texas. With the financial support of the Bill & Melinda Gates Foundation and the technical expertise of our partner College Measures, this year, for the first time, these data will also be shared in an interactive online format at [www.CompareCollegeTX.com](http://www.CompareCollegeTX.com). Thanks are due also to the institutions that certified their accountability data in a timely fashion and to the THECB's Planning and Accountability staff who provided the raw data and fact-checking services once it was put into print format. And last but not least, appreciation goes to the many individuals who provided feedback on last year's almanac with recommendations for improvements in this year's edition.

TEXAS HIGHER EDUCATION  
COORDINATING BOARD

## Letter from the Commissioner

In 2000, the Texas Higher Education Coordinating Board launched the *Closing the Gaps by 2015* initiative intended to bring Texas to parity in higher education achievement with other large states by the year 2015. The initiative set goals in four areas: participation (or enrollment); student success as measured by the completion of certificates, associate degrees, and baccalaureates; institutional excellence; and growth in federal research dollars coming to Texas institutions.

Two years before the endpoint for *Closing the Gaps*, Texas is on track to reach its four major goals. As of 2012, enrollment in Texas higher education had grown by 540,506 since 2000, and undergraduate credential completion had increased to 196,561 credentials awarded compared to 116,235 in 2000. In terms of institutional excellence, Texas universities have moved up steadily in rankings of academic programs and institutional quality. Our two-year institutions regularly receive recognition for innovative student success initiatives and workforce development programs. In research, Texas institutions have already surpassed the *Closing the Gaps* goal for federal research dollars with \$3.7 billion in federal support as of 2012.

Beneath the success on these overarching goals, results are mixed. Texas is well behind in meeting its 2000 goals in producing Science, Technology, Engineering, and Mathematics (STEM) graduates and high school mathematics and science teachers. Texas has had extraordinary success in increasing African American enrollment and success in higher education: from 2000 to 2012, we have seen a 96 percent growth in enrollment and a 92 percent increase in completions. For Hispanic students, the gains are even more impressive during the same period: 110 percent growth in enrollment and 149 percent increase in completions. But disaggregated by gender, these data show disturbingly low participation and completion rates for both African American and, especially, Hispanic males.

Probably the most straightforward conclusion to draw from the data collected on the following pages is that Texas higher education is improving, but not nearly fast enough. Perhaps the clearest evidence of this comes from national studies that project that by 2020, nearly 60 percent of high-demand, well-paying jobs in Texas will require postsecondary credentials. As of 2011, less than 35 percent of Texas adults had reached that level of educational attainment. And, even with the improvements noted above, according to national data, Texas stands 33rd among states in six-year college graduation rates at four-year institutions.

A second conclusion to be drawn from the data presented here is that the key to accelerating improvement in educational attainment in Texas is closer and sustained collaboration between the higher education and P-12 sectors. Texas is 47th among states in SAT scores in reading and writing and 43rd in mathematics. On the ACT exam, Texas ranks 32nd, with only 24 percent of high school graduates scoring at the college-readiness level across the board. Not surprisingly, nearly 45 percent of students entering Texas higher education require developmental or remedial education. Clearly, Texas cannot reach its higher educational goals without dramatic improvement in college readiness among high school seniors. And that will not happen unless our colleges and universities assign a greater priority to attracting high-achieving students into the teaching profession, strengthen teacher-training programs, and collaborate with local school districts to provide high-quality professional development for teachers and administrators, particularly those at the high school level.

This year, the Texas Higher Education Coordinating Board will turn much of its attention to developing the next strategic plan for higher education in Texas. It is important to remember, as noted above, that the goal of *Closing the Gaps* has been relatively modest: to reach parity in higher education attainment with other large states. Into the future, our goal must surely be to strive not for parity but national and international leadership. The data in this volume tell much of the story of higher education in Texas today and should prove indispensable in charting a course to 2020 and beyond.

## Introduction

In October 2000, the Texas Higher Education Coordinating Board (THECB) adopted *Closing the Gaps by 2015: The Texas Higher Education Plan*. The plan aims to close educational gaps within Texas and bring Texas to parity with other leading states. It focuses on key goals and outcome measures including, but not limited to, student participation (as measured by enrollment) and success (as measured by certificate and degree completion) in postsecondary education.

In 2004, the THECB established a higher education accountability system that is recognized nationally for its “best practice” reporting of student outcomes and institutional practices. This almanac allows readers to easily make institutional-level comparisons on many performance measures and characteristics that contribute to helping the state meet the goals of *Closing the Gaps*.

This year, the THECB is providing an online companion to the *Texas Public Higher Education Almanac*, “Compare College TX” ([www.CompareCollegeTX.com](http://www.CompareCollegeTX.com)). Funded by a grant from the Bill & Melinda Gates Foundation, the interactive tool allows users to compare Texas public higher education institutions side by side on a wide variety of facts and performance measures reported in the almanac. Produced in collaboration with College Measures, the tool also provides first-year earnings data for graduates by degree level and major for every Texas public institution of higher education. Texas is the first state to compile such an extensive set of data and turn it into an interactive and engaging resource for families and education advisors as well as legislators and policymakers. Most importantly, this comprehensive, mobile-friendly tool allows users to have easy access to the information from their smart phones and other mobile devices.

Additional information about the THECB, all annual progress reports on *Closing the Gaps*, and access to the Texas Higher Education Accountability System are also available at [www.thecb.state.tx.us](http://www.thecb.state.tx.us).

## Definitions, Data Years, and Data Sources

The following definitions, data years, and data sources will help you navigate the data provided in this year's almanac. They are particularly helpful in reading the institutional profiles. For a more comprehensive list of data source references, see p. 90.

**Accountability groups:** Texas public higher education institutions are grouped according to their general mission.

Universities are grouped based on key academic indicators such as size, number of doctoral-research/scholarship programs, and research expenditures. Community colleges are grouped based on size. See [www.txhighereddata.org/Interactive/Accountability/PeerGroup.cfm](http://www.txhighereddata.org/Interactive/Accountability/PeerGroup.cfm) for more information on groupings.

**At risk:** Includes students who received a Pell Grant, graduated with a GED, were 20 years or older when they first entered college, started as a part-time student taking fewer than 12 hours, or had an SAT/ACT score less than the national average.

**Average tuition and fees:** The cost of tuition and mandatory fees charged to a student taking 30 semester credit hours (SCH) (15 SCH fall and 15 SCH spring). For four-year public institutions and the Lamar and Technical Colleges, tuition includes mandatory tuition (state-required tuition) and designated tuition (set by institutional governing boards). **FY 2013 rates**

**Degrees awarded/degrees and certificates awarded:** For universities, the number of degrees awarded by race/ethnicity and level; certificates are not included. For two-year institutions, the number of degrees and certificates awarded by race/ethnicity. **FY 2012**

### Developmental education:

**College-level course completion:** Percentage of total students below state readiness standards (called Texas Success Initiative [TSI]) in math, reading, and/or writing who successfully completed a college-level course in the related area (math, reading-intensive, and/or writing-intensive, as applicable) with a grade of A, B, or C within three years of college enrollment. **Fall 2008 cohort**

**Total students below state standard:** Students in college for the first time (both full- and part-time) who did not meet the state readiness standards in math, reading, and/or writing at the time of enrollment. **Fall 2008 cohort**

**State readiness standard met:** Percentage of total students below state readiness standards in math, reading, and/or writing

who satisfied state standards within two years of college enrollment. **Fall 2008 cohort**

### Dual credit:

**Dual credit students:** High school students who attempt one or more college courses for high school and college credit.

**Dual credit as percentage of total enrollment:** Dual credit enrollment as a percentage of the total enrollment. **Fall 2012**

**Dual credit outcomes:** College persistence and graduation rates for an institution's dual credit students who subsequently enrolled in the same or a different Texas college or university. The percentage who earned a baccalaureate and/or associate degree is unduplicated. **Fall 2007 first time in college (FTIC) cohort**

### Enrollment:

**Fall headcount:** The institutional fall headcount enrollment by race and ethnicity, including all full- and part-time students. **Fall 2012**

**Full-time student equivalent (FTSE) undergraduate enrollment:** The sum of all fall undergraduate semester credit hours (SCH) attempted divided by 15. **Fall 2012**

**Full-time student equivalent (FTSE) total enrollment:** The sum of all fall semester credit hours (SCH) attempted divided by 15 for undergraduate SCH, 12 for master's and doctor's-professional practice SCH, 9 for doctor's research/scholarship SCH, and 17 for optometry SCH. **Fall 2012**

### Faculty:

**Total university faculty:** All full-time equivalent (FTE) faculty members with teaching responsibilities, excluding teaching assistants. **Fall 2011**

**University tenured/tenure track faculty:** All full-time equivalent (FTE) faculty members with teaching responsibilities who have received or are on a track to receive tenure. **Fall 2011**

**Two-year college faculty:** Number of total faculty members and number and percentage of full-time (teaching 80 percent or more) faculty members. This includes faculty teaching flex courses. **Fall 2011**

**First-time students accepted:** Percentage of first-time summer/fall applicants accepted by the institution. **Fall 2012**

### First-time undergraduates in Texas

**top 10%:** The percentage of first-time undergraduates entering in the summer or fall class who ranked in the top 10 percent of their Texas public high school graduating class. **Fall 2012**

**Fiscal year (FY):** The state's fiscal year is similar to the academic year of institutions. The fiscal year runs from September 1 through August 31; for example, FY 2012 is September 1, 2011, to August 31, 2012.

### Graduates' Status/Success:

**Baccalaureate graduates' employment/enrollment status:** The percentage of graduates employed or placed in military service in the fourth quarter of the calendar year after graduation and/or enrolled in a graduate program at a Texas institution in the following fall after graduation. **FY 2011**

**Two-year college graduates' employment/enrollment status:** The percentage of academic or technical graduates employed or placed in military service in the fourth quarter of the calendar year after graduation and/or enrolled in a Texas two- or four-year institution in the following fall after graduation, as specified. **FY 2011**

### Graduation rates:

**Public university four-, six-, and 10-year rates:** The percentage of first-time entering, degree-seeking students who graduated with a bachelor's degree or higher from the same institution or another Texas public or independent institution after four, six, and 10 academic years for two groups: those students who enrolled in their first fall as full-time students (taking 12 or more semester credit hours [SCH]) and those who enrolled part-time (taking fewer than 12 SCH). **Rates through FY 2012 (for fall 2008, 2006, and 2002 cohorts, respectively)**

**Public two-year college three-, four-, and six-year rates:** The percentage of first-time, credential-seeking undergraduates who graduate within three, four, or six academic years for two groups: those students who enrolled in their first fall as full-time students (taking 12 or more SCH) and those who enrolled part-time (taking fewer than 12 SCH). Both degrees and certificates are included. **Rates through FY 2012 (for fall 2009, 2008, and 2006 cohorts, respectively)**

**Developmental education/non-developmental education rates:** The percentage of first-time, full-time, credential-seeking undergraduates who graduate after three academic years by whether they met or did not meet state readiness standards (those who took and failed any part of the initial Texas Success Initiative [TSI] test — math, reading, writing — and who were not TSI exempted).

**Hispanic Serving Institutions (HSI):** Colleges, universities, or systems/districts in which full-time student equivalent (FTSE) Hispanic enrollment constitutes a minimum of 25 percent of the total enrollment (*Primary source: Hispanic Association of Colleges and Universities; list based on federal definition*).

**Historically Black College or University (HBCU):** Any historically black college or university established prior to 1964 whose principal mission was, and is, the education of black Americans.

**Lower-division:** Course offerings at a level of comprehension usually associated with freshman and sophomore students.

**N/A:** Data are not applicable, not available, or masked.

**Percentage of graduates completing 30 SCH at a two-year college:** The percentage of university graduates who took 30 or more semester credit hours (SCH) at two-year public institutions. **FY 2012**

**Percentage of students receiving Pell Grants:** The percentage of undergraduate students who receive a Pell Grant of any amount. **Fall 2010**

**Percentile:** The score below which a certain percentage of observations fall. For example, the 25th percentile score is the score below which 25 percent of the scores may be found, and the 75th percentile score is the score below which 75 percent of the scores may be found.

**Race/ethnicity:**

**African American:** The race of a person having origins in any of the black racial groups of Africa. (Multiracial, one of which is African American, is included in this category beginning in 2013.)

**Hispanic:** The ethnic origin of a person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.

**International student:** A person who is not a citizen or permanent resident of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely. It may also refer to a nonresident alien.

**Other:** All other races not individually listed, including Native Hawaiian, other Pacific Islander, American Indian, Native Alaskan, Asian, multiracial not including African American, or unknown origin.

**White:** The race of a person having origins in any of the original peoples of Europe, the Middle East, or North Africa.

**Ratio of undergraduate FTSE to undergraduate degrees:** Undergraduate full-time student equivalents (FTSE) in **fall 2011** divided by undergraduate degrees awarded in **FY 2012**.

**Research expenditures:** Total expenditures from federal, state, private, and institutional sources combined as reported in the annual research expenditures report. **FY 2012**

**Research expenditures per T/TT faculty FTE:** Total research expenditures per tenured/tenure-track (T/TT) full-time faculty member equivalent (includes only faculty members with teaching responsibility). **FY 2012** (*research expenditures*), **Fall 2011** (*T/TT faculty FTE*)

**Revenue per state-funded FTSE:** Revenue, excluding auxiliary funds, divided by the number of full-time student equivalents (FTSE), by categories, including total revenue, tuition and fees, state appropriation, federal funds, and institutional funds. Tuition and fees is net of scholarship discounts and allowances. **FY 2012**

**SAT/ACT test scores:** Test score ranges are shown for Math and Critical Reading on the SAT test and for Math and English on the ACT test. Fifty percent of enrolled full-time students have test scores within the ranges listed, 25 percent have scores above, and 25 percent have scores below. (*Source: USDOE IPEDS data for fall 2011*)

**Student/faculty ratio:** Full-time student equivalents (FTSE) divided by full-time equivalent (FTE) teaching faculty. **Fall 2011**

**Time and SCH to degree:** The average length of time in years and number of attempted semester credit hours (SCH) to complete an associate degree (for two-year institutions) or a bachelor's degree (for four-year institutions) for students who graduated in FY 2012. Students are tracked 10 years back for accumulation of credit hours and total years and months that have elapsed from the first date of entry. Dual credit and developmental education hours are excluded. (*Note: In prior versions of the almanac, dual credit hours are included for these measures.*)

**Transfers to a senior institution:**

**Cohort:** Number of students entering higher education for the first time at a two-year public institution who were not concurrently enrolled at a four-year institution.

**2006 cohort**

**Transfer rate:** The percentage of students in the cohort who transfer to a senior institution within six years. **Fall 2006 cohort through FY 2012**

**Two-year college students at universities:**

**Baccalaureate graduates who completed SCHs at two-year public colleges:**

Percentage of baccalaureate graduates who completed 30 or more semester credit hours (SCH) at two-year public colleges. **FY 2012**

**Graduation of two-year college students:**

Percentage of undergraduates who were first-time transfer students from Texas two-year public colleges with 30 or more semester credit hours (SCH) in the six years prior to transferring and who graduated from the same Texas public university within four years. **FY 2012**

**UG:** Abbreviation for undergraduate.

**Upper-division:** Course offerings at a level of comprehension usually associated with junior and senior students.

**Uses of funds per state-funded FTSE:**

Operating expenses divided by the number of full-time student equivalents (FTSE). Operating expenses are broken out by total, instruction, research, academic support, student services, institutional support, operations and maintenance of plant, scholarships and fellowships, and capital outlay from current fund sources. **FY 2012**

## STATEWIDE CONTEXT

### Graduation Rate of 8th Grade Cohort (2001–12)

The data on this page highlight differences in high school graduation and college enrollment and completion rates by gender and economic status for students enrolled in grade 8 in the 2001–02 academic year. Male students graduated from high school and completed college at lower rates than did females. Similarly, students identified as economically disadvantaged in grade 8 graduated from high school and completed college at lower rates than did their non-economically disadvantaged peers.

STATEWIDE CONTEXT

Graduation Success

The most important measure of postsecondary success is degree completion. The tables below show enrollment and graduation success for first-time college students entering Texas public universities and two-year colleges in fall 2006. As the tables indicate, student enrollment in higher education does not ensure graduation. The tables also show that part-time students are less likely to complete a degree than are full-time students. Additionally, Texas students attending public institutions of higher education enroll in more credit hours, on average, than is required to earn a degree, and they take longer to graduate.

## STATEWIDE CONTEXT

### Graduation Success, 10-Year Comparison

Texas' robust postsecondary data system makes it possible to provide 10-year graduation rates. A longer-term comparison is especially important when examining graduation rates for public two-year colleges since students who graduate in seven to 10 years constitute one-third of the 10-year graduation rate for these colleges. Statewide, success numbers increase somewhat when comparing six-year and 10-year graduation rates for public universities, with both six- and 10-year graduation rates increasing over time.

STATEWIDE CONTEXT

Transfer Success

Transfer rates are becoming a more important indicator of postsecondary success since almost two-thirds of all Texas students enter higher education through a public two-year college. Students who transfer with 30 or more semester credit hours (SCH) are more likely to graduate within four years of transfer than are students who transfer with fewer than 30 SCH. Differences in transfer rates by ethnicity are also notable.

## STATEWIDE CONTEXT

### Developmental Education Profile

Although Texas continues to improve the college readiness of its high school students, those who are not college ready continue to face serious barriers on their pathway to certificates and degrees. While students entering higher education directly from high school are more likely to be college ready than are students who do not, more than half of students entering a Texas public two-year college do not meet state college-readiness standards. This lack of readiness has a negative impact on postsecondary success. Of every 100 two-year college students who are below the state readiness standard when they enter college, only 38 have graduated or are still enrolled in higher education after three years, compared to 57 out of every 100 students who enter college ready.

STATEWIDE CONTEXT

Financial Profile

Although the state's total investment in higher education continues to increase, its per-student investment has fluctuated since 2003, even though enrollment has grown steadily. Students and families have paid a greater portion of the total cost through increased tuition and fees. In fiscal year 2012, a third of public university and a quarter of public two-year college operating income came from the state. Two-year colleges received 32 percent of their income from local taxes.

## Closing the Gaps

### CLOSING THE GAPS

#### Closing the Gaps in Participation

Below is an overview of how well Texas is reaching its goal of closing the gaps in participation rates at higher education institutions. The data include enrollment statewide; by race/ethnicity; by gender; and for two-year and four-year public, independent, and career institutions.

#### Statewide Participation

**GOAL:** By 2015, close the gaps in participation rates across Texas to add 630,000 more students over year 2000 baseline levels.

##### Increase in Enrollment Statewide

##### Increase in Enrollment by Race/Ethnicity

#### Statewide Enrollment by Gender

Fall enrollment in public, independent, and career institutions as a percentage of the population from 2000 to 2012.

CLOSING THE GAPS

## Closing the Gaps in Student Success

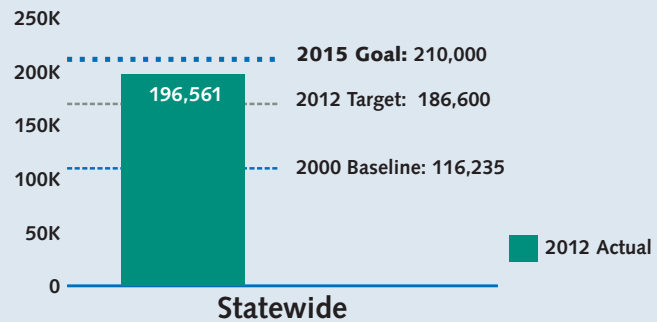

Below is an overview of how well Texas is reaching its goal of closing the gaps in student success, as measured by total undergraduate degrees/certificates awarded; Science, Technology, Engineering, and Mathematics (STEM) degrees awarded; and teacher certificates awarded.

### Statewide Student Success

**GOAL:** By 2015, annually award 210,000 undergraduate degrees, certificates, and other identifiable student successes from high-quality programs.

#### Total Undergraduate Degrees/Certificates Awarded Annually at Public and Independent Institutions

#### Total Undergraduate Degrees/Certificates Awarded Annually by Race/Ethnicity

### Statewide STEM Undergraduate Degrees/Certificates

**TARGET:** By 2015, annually award 29,000 STEM degrees at Texas public institutions of higher education.

#### Total STEM Undergraduate Degrees/Certificates Awarded Annually at Public Institutions

### Statewide Teacher Certifications

**TARGET:** By 2015, raise the total number of teachers initially certified to 44,700.

**TARGET:** By 2015, raise total initial math and science teacher certificates to 6,500.

## CLOSING THE GAPS

### Closing the Gaps in Research Funding

Below is an overview of how well Texas is reaching its goal of obtaining federal research funds. Federal R&D funding comes from the discretionary one-third of the federal budget; therefore the amounts allocated to the various agencies and programs engaged in R&D fluctuate annually. The total federal R&D budget for FY 2013 is expected to be approximately \$142 billion, \$1.2 billion or 0.8 percent above FY 2012 levels.

## Federal Research Obligations

**GOAL:** By 2015, increase the level of federal science and engineering research and development obligations to Texas institutions to 6.5 percent of total obligations to higher education institutions across the nation.

# Research and Emerging Research Institutions

Texas currently has two public research universities. Eight other institutions have been identified as emerging research universities. After meeting eligibility criteria, emerging research universities are eligible to receive funding from the National Research University Fund (NRUF). The NRUF provides a dedicated source of funding to enable emerging research universities to achieve national prominence. Eligibility to receive NRUF funding is based on an institution meeting statutory and the THECB criteria, including amount of annual restricted research expenditures, total endowment, and others. In 2012, Texas Tech University and University of Houston met the criteria and began receiving distributions from the fund.
