*Commissioner of Higher
Education*

Mission of the Coordinating Board

The Texas Higher Education Coordinating Board's mission is to work with the Legislature, Governor, governing boards, higher education institutions, and other entities to help Texas meet the goals of the state's higher education plan, *Closing the Gaps by 2015*, and thereby provide the people of Texas the widest access to higher education of the highest quality in the most efficient manner.

Philosophy of the Coordinating Board

The Texas Higher Education Coordinating Board will promote access to quality higher education across the state with the conviction that access without quality is mediocrity and that quality without access is unacceptable. The Board will be open, ethical, responsive, and committed to public service. The Board will approach its work with a sense of purpose and responsibility to the people of Texas, and it is committed to the best use of public monies. The Board will engage in actions that add value to Texas and to higher education. The agency will avoid efforts that do not add value or that are duplicated by other entities.

The Texas Higher Education Coordinating Board does not discriminate on the basis of race, color, national origin, gender, religion, age, or disability in employment or the provision of services.

Acknowledgments

A publication of this nature requires multiple contributors to complete. The Texas Higher Education Coordinating Board (THECB) and College for All Texans Foundation would like to thank Houston Endowment for the financial support to produce this almanac and for their commitment to help ensure that policy discussions and decisions in Texas are data-driven. Thanks are due also to the institutions who certified their accountability data in a timely fashion and to THECB's Planning and Accountability staff who provided the raw data and fact-checking services once it was put into print format. And last but not least, appreciation goes to the many individuals who provided feedback on last year's almanac with recommendations for improvements in this year's edition.

TEXAS HIGHER EDUCATION
COORDINATING BOARD

Letter from the Commissioner

In 2012, the Houston Endowment, with data from the Texas Higher Education Coordinating Board, began to promote “The Number,” a simple calculation that nonetheless summarizes nicely how Texas is doing educationally. “The Number” represents the percentage of Texas eighth-graders who achieve a postsecondary certificate or degree in-state within 11 years. A few pages later in this document, you will see that “The Number” for the eighth-graders of 2002 is 20. If we break down “The Number” a bit, we find that only 10 percent of economically-disadvantaged students have received a postsecondary credential compared to 29 percent of their more affluent peers. Males achieve at levels significantly lower than females, 16 percent to 23 percent, and African American males fare least well of all subgroups. A Houston Endowment study notes that a national sample of eighth-graders shows that they “substantially outperform” their Texas counterparts, with 29.3 percent achieving a postsecondary credential within 11 years. Considering that some well-regarded studies predict that over 55 percent of Texas jobs will require some type of postsecondary credential by 2020, these figures do not represent a pathway for increasing economic prosperity and quality of life.

In last year’s letter fronting the *Texas Public Higher Education Almanac*, I made the point that Texas higher education—and K12 education, for that matter—is performing better but not getting better fast enough. It’s a point worth making again. College preparation in our high schools is improving and college-going rates are rising. Our colleges and universities are focusing on student success and our completion rates are improving as a result. But these gains have been incremental and we still lag well behind high-achieving states such as California, New York, and Illinois.

In order to rank among the leading states in educational attainment, Texas must become a center of educational cooperation and innovation. I am pleased to note some promising developments in these areas. Collaboration between K12 and higher education is growing steadily, to a large extent as a result of the passage of House Bill 5, which mandates that the two sectors work cooperatively to develop new college-ready courses as well as those with a career and technical focus. House Bill 5 also demands much higher levels of academic advising for high school students; through such efforts as Advise TX, colleges and universities are seeking to supplement the efforts of high school advisors who typically carry extraordinary workloads. The Texas Workforce Commission is now working closely with both K12 and higher education to assure that students are well informed about the labor market in Texas and that students make the transition to the workforce with marketable skills.

In terms of academic innovation in higher education, a number of initiatives are notable. For example, South Texas College and Texas A&M University–Commerce have launched the Affordable Baccalaureate Program which combines such elements as online coursework and competency-based advancement to lower the cost of a baccalaureate degree and thus make higher education accessible to larger numbers of Texans. A new college-readiness instrument, developed as part of the Texas Success Initiative, has a strong diagnostic component which will allow colleges and universities to more precisely target specific academic deficiencies, which should lead to higher student success rates and less time in developmental education. Speaking of developmental education, another noteworthy innovation is the growing effort statewide to integrate developmental reading and writing with the goal of improving student success and reducing the amount of time students spend in non-credit remediation courses.

In order to improve “The Number,” Texas must become a national center of innovation in higher education, with the primary goals of improving student success and employability and holding down costs to both students and the state. We must expand both online and blended instruction and we must expand competency-based programs that advance students toward credentials based on mastery of subject matter, not time in class. Colleges and universities should work more closely with the business sector to increase the availability of paid internships that not only provide relevant workforce experience but carry academic credit. And we should launch a statewide “Marketable Skills Across the Curriculum Initiative” that ensures that all college and university graduates will have skills that employers seek, whether they major in business or philosophy. Finally, we must encourage college and university faculty to lead the way toward innovation by rewarding them through the tenure and promotion system for distinguished—and measurable—achievement not only in research but in teaching and service.

Such bold innovations are needed to raise Texas to a position of national leadership in higher education, particularly in terms of student success, the employability of our graduates, and the excellence of their education. Our overall educational goal should be to reach a point, in a decade or so, when Texas education, business, and community leaders can proudly recite “The Number” from memory.

Raymund A. Paredes, Ph.D.
Commissioner of Higher Education

Introduction

In October 2000, the Texas Higher Education Coordinating Board (THECB) adopted *Closing the Gaps by 2015: The Texas Higher Education Plan*. The plan aims to close educational gaps within Texas and bring Texas to parity with other leading states. It focuses on key goals and outcome measures including, but not limited to, student participation (as measured by enrollment) and success (as measured by certificate and degree completion) in postsecondary education.

In 2004, the THECB established a higher education accountability system that is recognized nationally for its “best practice” reporting of student outcomes and institutional practices. This almanac allows readers to easily make institutional-level comparisons on many performance measures and characteristics that contribute to helping the state meet the goals of *Closing the Gaps*. Additional information about the THECB, all annual progress reports on *Closing the Gaps*, and access to the Texas Higher Education Accountability System are available at www.thecb.state.tx.us.

New for this edition of the almanac is the inclusion of first-year and long-term earnings of Texas graduates by both degree level and field. Also, for the second year, the THECB is providing an online companion to the almanac, CompareCollegeTX.com. Funded by a grant from the Bill & Melinda Gates Foundation, this interactive, mobile-friendly tool allows users to compare Texas public higher education institutions side by side on a wide variety of facts and performance measures reported in the almanac. In collaboration with College Measures, the site also links to wage data for graduates by degree level and major for every Texas public institution of higher education.

Definitions, Data Years, and Data Sources

The following definitions, data years, and data sources will help you navigate the data provided in this year's almanac. They are particularly helpful in reading the institutional profiles. For a more comprehensive list of data source references, see p. 90.

Accountability (Peer) groups: Texas public universities are grouped based on key indicators such as mission, number of doctoral-research/scholarship programs, and research expenditures. Public two-year colleges are grouped based on size and/or type. University peer group criteria were revised in July 2013. See www.txhighereddata.org/Interactive/Accountability/PeerGroup.cfm for more information on groupings.

Age: Age is calculated by subtracting the individual's date of birth from the *begin date* of the reporting period. For fall, the begin date is September 1; for spring, January 1; and for summer, June 1.

At risk: Includes students who received a Pell Grant, graduated with a GED, were 20 years or older when they first entered college, started as a part-time student taking fewer than 12 hours, or had an SAT/ACT score less than the national average.

Average tuition and fees: The cost of tuition and mandatory fees charged to a student taking 30 semester credit hours (SCH) (15 SCH in the fall and 15 SCH in the spring). For four-year public institutions and the Lamar and Technical Colleges, tuition includes mandatory tuition (state-required tuition) and designated tuition (set by institutional governing boards). Submitted to the THECB on the College Student Budget Report. **FY 2014 rates**

Degrees awarded/degrees and certificates awarded: For universities, the number of degrees awarded by race/ethnicity and level; certificates are not included. For two-year institutions, the number of degrees and certificates awarded by race/ethnicity. **FY 2013**

Developmental education:

College-level course completion: Percentage of total students below state readiness standards (called Texas Success Initiative [TSI]) in math, reading, and/or writing who successfully completed a college-level course in the related area (math, reading-intensive, and/or writing-intensive, as applicable) with a grade of A, B, or C within three years of college enrollment. **Fall 2009 cohort**

Total students below state standard: Students in college for the first time (both full- and part-time) who did not meet the state readiness standards in math, reading, and/or writing at the time of enrollment. **Fall 2009 cohort**

State readiness standard met: Percentage of total students below state readiness standards in math, reading, and/or writing who satisfied state standards within two years of college enrollment. **Fall 2009 cohort**

Dual credit:

Dual credit students: High school students who attempt one or more college courses for high school and college credit.

Dual credit as percentage of total enrollment: Dual credit enrollment as a percentage of the total enrollment. **Fall 2013**

Dual credit outcomes: College persistence and graduation rates for an institution's dual credit students who subsequently enrolled in the same or a different Texas college or university. The percentage who earned a baccalaureate and/or associate degree is unduplicated. **Fall 2008 first time in college (FTIC) cohort**

Earnings of graduates: Annual wages of graduates during the first, third, fifth, eighth, and tenth year after graduation. Wage computations include students who worked in Texas at least three quarters of the year and did not earn a higher degree during the tracking period. No inflation factor was applied. For 2002 graduates, the wages are for 2003 (first year), 2005 (third year), 2007 (fifth year), 2010 (eighth year), 2012 (tenth year). For 2011 graduates, the first-year wages were calculated for 2012.

Enrollment:

Fall headcount: The institutional fall headcount enrollment by race and ethnicity, including all full- and part-time students. **Fall 2013**

Full-time student equivalent (FTSE) undergraduate enrollment: The sum of all fall undergraduate semester credit hours (SCH) attempted divided by 15. **Fall 2013**

Full-time student equivalent (FTSE) total enrollment: The sum of all fall semester credit hours (SCH) attempted divided by 15 for undergraduate SCH, 12 for master's and doctor's professional practice SCH, 9 for doctor's research/scholarship SCH, and 17 for optometry SCH. **Fall 2013**

Faculty:

Total university faculty: All full-time equivalent (FTE) faculty members with teaching responsibilities, excluding teaching assistants. **Fall 2012**

University tenured/tenure track faculty: All full-time equivalent (FTE) faculty members with teaching responsibilities who have received, or are on a track to receive, tenure. **Fall 2012**

Two-year college faculty: Total number of faculty members and number and percentage of full-time (teaching 80% or more) faculty members. This includes faculty teaching flex courses. **Fall 2012**

First-time students accepted: Percentage of first-time summer/fall applicants accepted by the institution. **Fall 2013**

First-time undergraduates in Texas top 10%: The percentage of first-time undergraduates entering in the summer or fall class who ranked in the top 10% of their Texas public high school graduating class. **Fall 2013**

Fiscal year (FY): The state's fiscal year is similar to the academic year of institutions. The fiscal year runs from September 1 through August 31; for example, FY 2012 is September 1, 2011, to August 31, 2012.

Graduates' status/success:

Baccalaureate graduates' employment/enrollment status: The percentage of graduates employed or placed in military service in the fourth quarter of the calendar year after graduation and/or enrolled in a graduate program at a Texas institution in the following fall after graduation. **FY 2012**

Two-year college graduates' employment/enrollment status: The percentage of academic or technical graduates employed or placed in military service in the fourth quarter of the calendar year after graduation and/or enrolled in a Texas two- or four-year institution in the following fall after graduation, as specified. **FY 2012**

Graduation rates:

Public university 4-, 6-, and 10-year rates: The percentage of first-time entering, degree-seeking students who graduated with a bachelor's degree or higher from the same institution or another Texas public or independent institution after 4, 6, and 10 academic years for two groups: those students who enrolled in their first fall as full-time students (taking 12 or more semester credit hours [SCH]) and those who enrolled part-time (taking fewer than 12 SCH). **Rates through FY 2013 (for fall 2009, 2007, and 2003 cohorts, respectively)**

Except as noted in the almanac, the source of data is Texas Higher Education Coordinating Board institutionally certified CBM data; most measures are available in the Texas Higher Education Accountability System. See www.txhighereddata.org/Interactive/Accountability/ for more information.

Public two-year college three-, four-, and six-year rates: The percentage of first-time, credential-seeking undergraduates who graduate within three, four, or six academic years for two groups: those students who enrolled in their first fall as full-time students (taking 12 or more semester credit hours [SCH]) and those who enrolled part-time (taking fewer than 12 SCH). Both degrees and certificates are included. **Rates through FY 2013** (for fall 2010, 2009, and 2007 cohorts, respectively)

Developmental education/non-developmental education rates: The percentage of first-time, full-time, credential-seeking undergraduates who graduated after three academic years by whether they met or did not meet state readiness standards (those who took and failed any part of the initial Texas Success Initiative [TSI] test—math, reading, or writing—and who were not exempted from the TSI).

Hispanic Serving Institutions (HSI): Colleges, universities, or systems/districts in which full-time student equivalent (FTSE) Hispanic enrollment constitutes a minimum of 25% of the total enrollment. (Principal source: *Hispanic Association of Colleges and Universities*; list based on federal definition.)

Historically Black College or University (HBCU): Any historically black college or university established prior to 1964 whose principal mission was, and is, the education of black Americans.

Lower-division: Course offerings at a level of comprehension usually associated with freshman and sophomore college students.

Percentage of graduates completing 30 SCH at a two-year college: The percentage of university graduates who took 30 or more semester credit hours (SCH) at two-year public institutions. **FY 2013**

Percentage of students receiving Pell Grants: The percentage of undergraduate students who receive a Pell Grant of any amount. **Fall 2011**

Percentile: The score below which a certain percentage of observations fall. For example, the 25th percentile score is the score below which 25% of the scores may be found, and the 75th percentile score is the score below which 75% of the scores may be found.

Race/ethnicity:

African American: The race of a person having origins in any of the black racial groups of Africa. (Multiracial, one of which is African American, is included in this category beginning in 2013.)

Hispanic: The ethnic origin of a person of Cuban, Mexican, Puerto Rican, South or

Central American, or other Spanish culture or origin, regardless of race.

International student: A person who is not a citizen or permanent resident of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely. It may also refer to a non-resident alien.

Other: All other races not individually listed, including Native Hawaiian, other Pacific Islander, American Indian, Native Alaskan, Asian, multiracial not including African American, or unknown origin.

White: The race of a person having origins in any of the original peoples of Europe, the Middle East, or North Africa.

Ratio of undergraduate FTSE to undergraduate degrees: Undergraduate full-time student equivalents (FTSE) in **fall 2012** divided by undergraduate degrees awarded in **FY 2013**.

Research expenditures: Total expenditures from federal, state, private, and institutional sources combined, as reported in the annual research expenditures report. **FY 2013**

Restricted research expenditures: Expenditures contracted, gifted, or granted by an external entity (such as government agencies, philanthropic organizations, or individuals) where the primary use must be research or development. The Coordinating Board collects restricted research expenditures for formula distribution of Research Development Funds (RDF) and as a criterion for the National Research Universities Fund (NRUF). However, restricted research expenditures are more narrowly defined here than in the Annual Financial Reports (AFR), and thus not comparable. Estimates for restricted research expenditures for institutions not participating in RDF or NRUF are research expenditures minus state appropriated funds, institutional funds, and indirect cost. **FY 2013**

Research expenditures per T/TT faculty FTE: Total research expenditures per tenured/tenure-track (T/TT) full-time faculty member equivalent (includes only faculty members with teaching responsibility). **FY 2013** (research expenditures), **fall 2012** (T/TT faculty FTE)

Revenue per FTSE: Revenue, excluding auxiliary funds, divided by the number of full-time student equivalents (FTSE) by categories, including total revenue, tuition and fees, state appropriation, federal funds, and institutional funds. Tuition and fees is the net of scholarship discounts and allowances. **FY 2013**

SAT/ACT test scores: Test score ranges are shown for Math and Critical Reading on the

SAT test and for Math and English on the ACT test. Of enrolled full-time students, 50 percent have test scores within the ranges listed, 25 percent have scores above, and 25 percent have scores below. (Source: *USDOE IPEDS data for fall 2012*)

Student/faculty ratio: Full-time student equivalents (FTSE) divided by full-time equivalent (FTE) teaching faculty. **Fall 2012**

Time and SCH to degree: The average length of time in years and number of attempted semester credit hours (SCH) to complete an associate degree (for two-year institutions) or a bachelor's degree (for four-year institutions) for students who graduated in FY 2013. Students are tracked 10 years back for accumulation of credit hours and total years and months that have elapsed from the first date of entry. Dual credit and developmental education hours are excluded. (Note: Dual credit hours were included in these measures prior to the 2013 almanac.)

Transfers to a senior institution:

Cohort: Number of students entering higher education for the first time at a two-year public institution who were not concurrently enrolled at a four-year institution. **2007 cohort**

Transfer rate: The percentage of students in the cohort who transferred to a senior institution within six years. **Fall 2007 cohort through FY 2013**

Two-year college students at universities:

Baccalaureate graduates who completed SCHs at two-year public colleges: Percentage of baccalaureate graduates who completed 30 or more semester credit hours (SCH) at two-year public colleges. **FY 2013**

Graduation of two-year college students: Percentage of undergraduates who were first-time transfer students from Texas two-year public colleges with 30 or more semester credit hours (SCH) in the six years prior to transferring and who graduated from the same Texas public university within four years. **FY 2013**

UG: Abbreviation for undergraduate.

Upper-division: Course offerings at a level of comprehension usually associated with junior and senior students.

Uses of funds per state-funded FTSE: Operating expenses divided by the number of full-time student equivalents (FTSE). Operating expenses are broken out by total; instruction, research, and academic support; student services and scholarships; institutional support and operations and maintenance (OM) of plant; and other expenses (e.g., capital outlays from current fund sources). **FY 2013**

NATIONAL CONTEXT

Data for All States

Below is a summary of national data on higher education in each state. The data include graduation rates at four-year institutions, degrees earned, average tuition, and test scores. (Sources: *National Center for Education Statistics [NCES]*, *Integrated Postsecondary Education Data System [IPEDS]* unless otherwise noted). See p. 90 for more comprehensive data source references.

State	Six-year graduation rate at four-year institutions	Educational attainment*				Educational appropriations per FTE*	Average tuition & fees			Median household income*	SAT scores			ACT scores	Average faculty salary, all ranks		Federal R&D obligations* (in thousands)
		Some college, no degree	Associate degree	Bachelor's degree	Graduate or professional degree		Public, two-year	Public, four-year	Private, four-year		Reading	Math	Writing		Two-year institutions	Four-year institutions

STATEWIDE CONTEXT

Graduation Rate of 8th Grade Cohort (2002–13)

The data on this page highlight differences in high school graduation and college enrollment and college completion rates by gender and economic status for students enrolled in grade 8 in the 2002–03 academic year. Male students graduated from high school and completed college at lower rates than did females. Similarly, students identified as economically disadvantaged in grade 8 graduated from high school and completed college at lower rates than did their peers who were not economically disadvantaged.

Overall 8th Grade Cohort Graduation Rate

8th Grade Cohort Graduation Rate by Gender

8th Grade Cohort Graduation Rate by Economic Status

STATEWIDE CONTEXT

Graduation Success

The most important measure of postsecondary success is degree completion. The tables below show enrollment and graduation success for first-time college students entering Texas public universities and two-year colleges in fall 2007. As the tables indicate, student enrollment in higher education does not ensure graduation. The tables also show that part-time students are less likely to complete a degree than are full-time students. The bar charts at the bottom show that Texas students attending public institutions of higher education enroll in more credit hours, on average, than is required to earn a degree, and they take longer to graduate. Statewide, success numbers increase somewhat when comparing 6- and 10-year graduation rates. Both 6- and 10-year graduation rates increase over time.

Public Universities

Fall 2007 Cohort
Cohort total: 64,156

Of first-time degree-seeking students who enroll	100	
	Full-time	Part-time
Enroll	96	4
Graduate in 4 years or less	29	1
Graduate in 5 to 6 years	28	1
Total graduates	57	2
Still enrolled after 6 years	10	1
No longer enrolled, no degree	28	2

Number of every 100 Texas public university students who earn a postsecondary degree within six years:

59

Note: Sums may not total 100 due to rounding.

Public Two-Year Colleges

Fall 2007 Cohort
Cohort total: 102,704

Of first-time degree-seeking students who enroll	100	
	Full-time	Part-time
Enroll	55	45
Graduate in 3 years or less	7	4
Associate/Bachelor's	5	2
Certificate	2	1
Graduate in 4 to 6 years	10	7
Bachelor's	8	3
Associate	2	3
Certificate	0	1
Total graduates	17	11

STATEWIDE CONTEXT

Earnings Profile

Workforce earnings data illustrate one of many benefits of earning a college credential or degree. This page highlights individual first-year earnings and individual earnings over a decade by both degree level and degree field. These data are from the Texas Unemployment Insurance Wage Record File and only include students who graduated from Texas institutions of higher education and were subsequently employed in Texas. The salaries are for the degrees awarded during the year shown, with no subsequent degrees earned (i.e., students who earn a higher degree are removed from the cohort). Graduates are not necessarily employed in their degree fields.

Earnings of 2002 Graduates over 10 Years

First-Year Earnings of 2011 Graduates

First-Year Earnings of 2011 Bachelor's Graduates

Earnings of 2002 Bachelor's Graduates over 10 Years

STATEWIDE CONTEXT

Transfer Success

Transfer rates are becoming a more important indicator of postsecondary success since more than half of all Texas students enter higher education through a public two-year college. Students who transfer with 30 or more semester credit hours (SCH) are more likely to graduate within four years of transfer than are students who transfer with fewer than 30 SCH. Differences in transfer rates by ethnicity are also notable.

Transfer Graduation Rate

Total Two-Year College Transfers to University by Semester Credit Hours Attempted

Total Two-Year College Transfers to University by Ethnicity

(Fall 2007 cohort followed for six years)

Two-Year College Transfer Rate by Ethnicity

Percentage of students in 2007 cohort who transferred within six years

STATEWIDE CONTEXT

Developmental Education Profile

Although Texas continues to improve the college readiness of its high school students, those who are not college ready continue to face serious barriers on their pathway to certificates and degrees. While students entering higher education directly from high school are more likely to be college ready than are students who do not, more than half of students entering a Texas public two-year college do not meet state college-readiness standards. This lack of readiness has a negative impact on postsecondary success. Of every 100 two-year college students who are below the state readiness standard when they enter college, only 37 have graduated or are still enrolled in higher education after three years, compared to 57 out of every 100 students who enter college ready.

37 Below state readiness standards

57 College ready

STATEWIDE CONTEXT

Financial Profile

Although the state's total investment in higher education continues to increase, its per-student investment has fluctuated since 2003, even though enrollment has grown steadily. Students and families have paid a greater portion of the total cost through increased tuition and fees. In FY 2013, a third of public university and almost a quarter of public two-year college operating income came from the state. Two-year colleges received 33 percent of their income from local taxes.

Income Source per Full-Time Student Equivalent at Public Universities

Income Source per Full-Time Student Equivalent at Public Two-Year Colleges

Operation Sources by Category, FY 2013

Public Universities

\$12.2 billion

Public Two-Year Colleges

Total:
\$5.3 billion

State Constitutional Sources of Revenue by Institution*

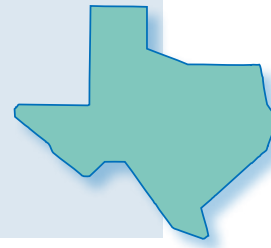

* Constitutional funds include allocations from the Higher Education Fund (HEF), Permanent University Fund (PUF), and Available University Fund (AUF). When the Legislature appropriates money from these funds in the General Appropriation Bill, they are referred to as a constitutional source of revenue. Not all these types of funds were available to all institutions. UT—Arlington, UT—Dallas, and UT—San Antonio are not included.

CLOSING THE GAPS

Closing the Gaps in Participation

Below is an overview of how well Texas is reaching its goal of closing the gaps in participation rates at higher education institutions. The data include enrollment statewide, by race/ethnicity, by gender, and by type of institution.

Statewide Participation

GOAL: By 2015, close the gaps in participation rates across Texas to add 630,000 more students over year 2000 baseline levels. Data shown here include all fall enrollment records for the most recent year available for public, independent, and career institutions. These bar graphs show actual increases for 2013 over baseline.

Increase in Enrollment Statewide

Increase in Enrollment by Race/Ethnicity

Statewide Enrollment by Gender

Fall enrollment in public, independent, and career institutions as a percentage of the population from 2000 to 2013

Statewide Enrollment at Two-Year and Four-Year Institutions

Total enrollment in public, independent, and career two-year and four-year institutions from 2000 to 2013

*Career colleges and universities are included with two-year institutions' enrollments.

CLOSING THE GAPS

Closing the Gaps in Student Success

Below is an overview of how well Texas is reaching its goal of closing the gaps in student success, as measured by total undergraduate degrees/certificates awarded; Science, Technology, Engineering, and Mathematics (STEM) undergraduate degrees awarded; and teacher certificates awarded.

Statewide Student Success

GOAL: By 2015, annually award 210,000 undergraduate degrees, certificates, and other identifiable student successes from high-quality programs. Data shown here include public, independent, and career institutions. This is the first edition of the almanac to include career colleges in Student Success. These bar graphs show actual totals for 2013.

Total Undergraduate Degrees/Certificates Awarded Annually at Public, Independent, and Career Institutions

Total Undergraduate Degrees/Certificates Awarded Annually by Race/Ethnicity

Statewide STEM Undergraduate Degrees/Certificates

TARGET: By 2015, annually award 29,000 STEM degrees at Texas public institutions of higher education.

Total STEM Undergraduate Degrees/Certificates Awarded Annually at Public Institutions

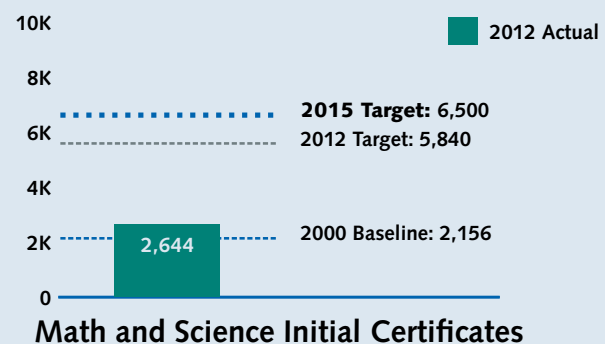

Statewide Teacher Certifications

TARGET: By 2015, raise the total number of teachers initially certified to 44,700.

TARGET: By 2015, raise total initial math and science teacher certificates to 6,500.

Source: Texas Education Agency, State Board for Educator Certification

CLOSING THE GAPS

Closing the Gaps in Research Funding

Below is an overview of how well Texas is reaching its goal of obtaining federal research funds. Federal R&D funding comes from the discretionary one-third of the federal budget; therefore, the amounts allocated to the various agencies and programs engaged in R&D fluctuate annually. The total federal R&D budget for FY 2014 is expected to be approximately \$136 billion, which is \$3.5 billion or 2.6 percent above FY 2013 levels.

Federal Research Obligations

GOAL: By 2015, increase the level of federal science and engineering research and development obligations to Texas institutions to 6.5 percent of total obligations to higher education institutions across the nation.

Percentage of Federal Science and Engineering Obligations for Research and Development Allocated to Texas Public and Independent Institutions

Note: Some prior years have been restated to be consistent with Accountability System.

CLOSING THE GAPS

Research and Emerging Research Institutions

Texas currently has two public research universities. Eight other institutions have been identified as emerging research universities. After meeting eligibility criteria, emerging research universities are eligible to receive funding from the National Research University Fund (NRUF). The NRUF provides a dedicated source of funding to enable emerging research universities to achieve national prominence. Eligibility to receive NRUF funding is based on an institution meeting statutory and THECB criteria, which include amount of annual restricted research expenditures and total endowment.

Restricted Research Expenditures*

INSTITUTIONAL PROFILES

Texas Four-Year Public Institutions

The following pages have profiles of each four-year public institution in Texas, including information on enrollment, demographics, graduation rates, post-graduation status, and faculty. For explanation of specific terms or abbreviations, please refer to pp. 4–5.

Statewide Four-Year Public Institutions

Total
Enrollment:
584,785

Average Tuition & Fees: **\$7,650**

TOP FIVE UG MAJORS
(total FY 2013 degrees awarded)

1. Business, Management, Marketing, and Related Support Services (16,846)
2. Multi/Interdisciplinary Studies (10,769)
3. Health Professions and Related Programs (8,115)
4. Engineering (5,371)
5. Biological and Biomedical Sciences (5,295)

UG GRADUATION RATES

	Full-time	Part-time
4-year	30.5%	14.9%
6-year	59.7%	34.9%
10-year	65.0%	44.2%

PERCENT STUDENT POPULATION BY RACE/ETHNICITY

STUDENT CHARACTERISTICS

Applicants	270,396
% of applicants accepted	68.7%
First-time students in top 10%	26.1%
% enroll. change 08–13	14.9%

Sources of Data

National Context Data

ACT test scores are from ACT®, 2013 ACT National and State Scores, Average Scores by State, at <http://www.act.org/newsroom/data/2013/states.html>.

Educational appropriations per FTE are from the State Higher Education Executive Officers (SHEEO) State Higher Education Finance (SHEF) survey for FY 2012, at <http://www.sheeo.org/resources/publications/shef-%E2%80%94state-higher-education-finance-fy12>.

Educational attainment data are from the U.S. Census Bureau using the 2012 American Community Survey 1-Year Estimates, Educational Attainment for Population 25 Years and Over, report S1501, at http://factfinder2.census.gov/faces/tableservices/jsf/pages/productview.xhtml?pid=ACS_12_1YR_S1501&prodType=table.

Faculty salaries are for 2011–12 and are average salaries of full-time faculty members on 9/10-month contracts; from Clery, Suzanne B., Faculty Salaries: 2011–2012, at http://www.nea.org/assets/docs/2013_Almanac_Clery.pdf.

Federally financed academic research and development obligations data are from the National Science Foundation WebCASPAr database, Survey of Federal Science and Engineering Support to Universities, Colleges, and Nonprofit Institutions, FY2009, at <https://webcaspar.nsf.gov/>.

Graduation rates for FY 2011 are from *The Chronicle of Higher Education, Almanac Issue, 2013*, at <http://chronicle.com/article/Compare-the-States-Almanac/140845/> (which uses Integrated Postsecondary Education Data System (IPEDS) data). Figures show the proportion of first-time, full-time, degree-seeking undergraduates who entered four-year institutions in fall 2005 and graduated within six years.

There is not an official list of institutions designated as Hispanic Serving Institutions (HSIs). HSI status was pulled from lists provided by the U.S. Department of Education at <http://www2.ed.gov/programs/dueshsi/index.html> and the Hispanic Association of Colleges & Universities website at http://www.hacu.net/hacu/HSI_Definition1.asp.

Median household income data are from the U.S. Census Bureau using the 2012 American Community Survey 1-Year Estimates, Median Income in the Past 12 Months, report S1903, at http://factfinder2.census.gov/faces/tableservices/jsf/pages/productview.xhtml?pid=ACS_12_1YR_S1903&prodType=table.

SAT test scores are from The College Board, The 2013 SAT® Report on College and Career Readiness, at <http://research.collegeboard.org/programs/sat/data/cb-seniors-2013>.

Tuition and Fees data for 2011–12 are from the U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS), in 2012 Digest of Education Statistics, Table 382, at http://nces.ed.gov/programs/digest/d12/tables/dt12_382.asp. Figures show average undergraduate tuition and fees charged for full-time students in degree-granting institutions. Tuition and fees for public institutions represent charges to state residents.

Statewide Overview Data

Data for the international population, language spoken at home, median household income, educational attainment, and population enrolled in school are from the U.S. Census Bureau, 2012 American Community Survey 1-Year Estimates, tables DP02 and DP03 (for 2012), at <http://factfinder2.census.gov/faces/nav/jsf/pages/searchresults.xhtml?refresh=t>.

Texas population data for 2013 are from the Texas State Data Center, TxSDC Projections of the Population of Texas and Counties in Texas by Age, Sex and Race/Ethnicity for 2010–2050, at <http://txsdc.utsa.edu/Data/TPEPP/Projections/Index.aspx>.

Tuition and Fees data for 2011–12 are from IPEDS, referenced in the Tuition and Fees description for National Context Data.

U.S. population data for 2013 are from the U.S. Census Bureau's annual population estimates program, at <http://www.census.gov/popest/data/national/totals/2013/index.html>.

Other THECB Data

Dual credit data are available at www.txhighereddata.org/Interactive/HSCollLink2.CFM.

Revenues per full-time student equivalents (FTSE) and uses per FTSE data come from THECB's Sources and Uses publication, at <http://www.thecb.state.tx.us/index.cfm?objectid=5026C14D-FD20-B6E6-9AA684EC8FFB08D8>
