

Using MOVEit Portal to Transfer Files

Submitting State Reports (CBM and FADS)
to the THECB Educational Data Center
using MOVEit®

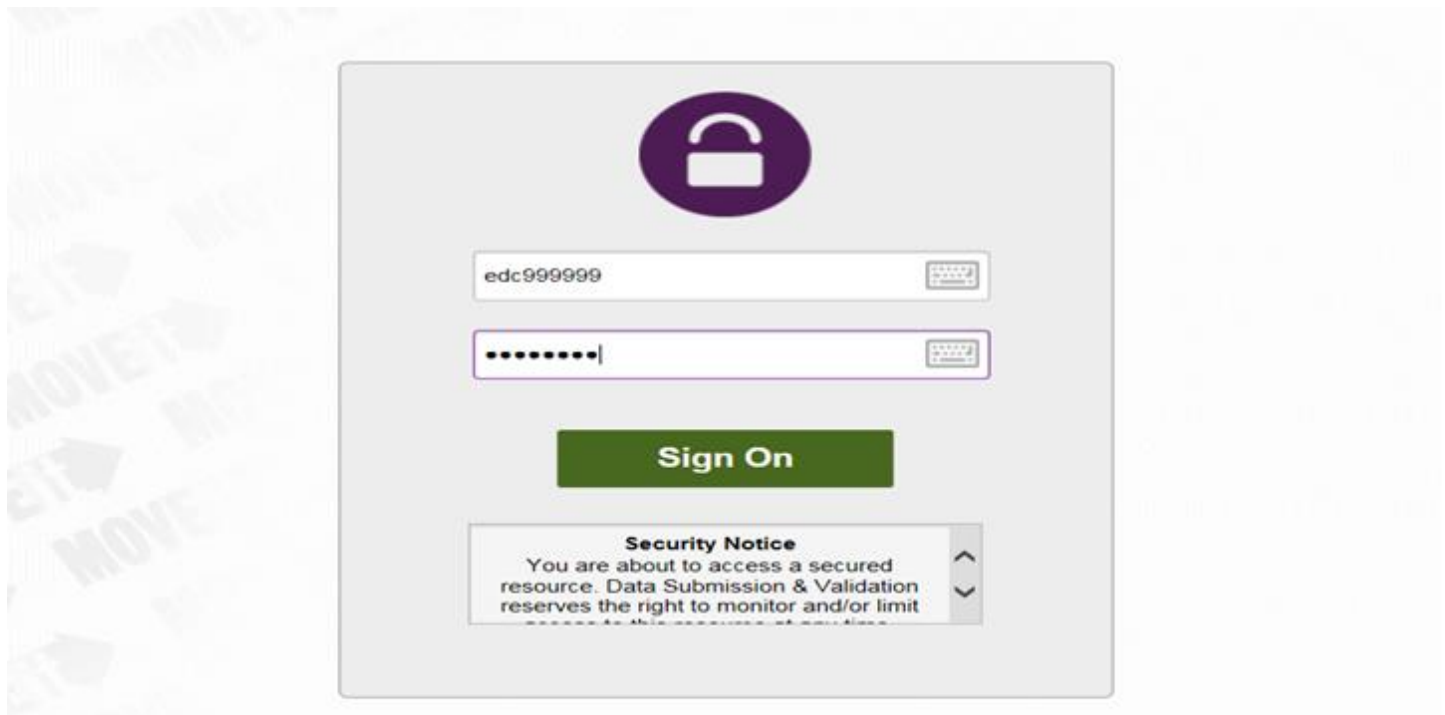

Background

The submission of CBM reports must be by electronic transfer. State and federal security requirements mandate that confidential data be submitted or retrieved via a secure process such as HTTPS (secure communication protocol for the internet) or SFTP (the secure FTP server process). Due to the age of the THECB secure ftp server, the operating system is no longer supported and we must transition to a new secure file transfer software. This software is MOVEit® (<https://docs.progress.com/category/moveit-transfer>). You will be able to access the secure site using a web browser or a SFTP Client (FileZilla, WinSCP, SSH Secure, etc.).

Note: Each of the two software systems are located on different servers. The OUTPUT folder on the SFTP server and the OUTPUT folder on the MOVEit® server are separate. Any data submitted through MOVEit® will only produce an edit summary report that is available in the OUTPUT folder on MOVEit®.

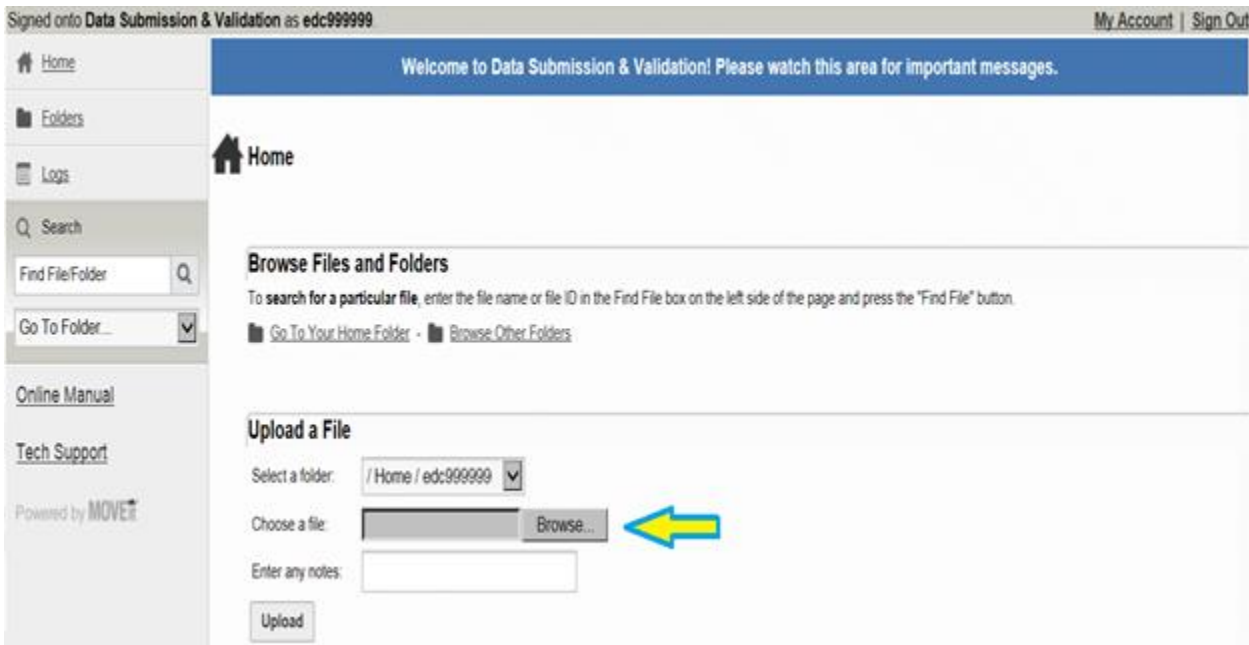

In order to submit EDC CBM files, you must log into MOVEit®, <https://dsv.thecb.state.tx.us/>, with a username and password. For USERID: Enter "edcNNNNNN" where "NNNNNN" is your six-digit FICE code. For example, "edc001234" (lower case 'edc'; leading zeros required in the FICE code). For PASSWORD: Enter your password, case sensitive. Contact the data analyst assigned to your institution for your password. Each username has a unique password assigned to it. Guard it to prevent unauthorized access to your data.
