Financial Aid Advisory Committee  
Meeting Notes  
March 4, 2021  
(To be approved at the June 3, 2021, FAAC Meeting)

- A request for extension of time to make available e-TASFA online application was sent to the legislator, doing so would avoid significant work that would be completed within a year in efforts to align the implementation of the new simplification bill (expected availability of online application: October 1, 2022 for the 2023-2024 academic year).
- Other areas of development considered by THECB not included in other convening of the committee:
  - What it means to integrate e-TASFA into the Apply Texas system.
  - Institutions of Higher Education renewal process.
  - Consideration of expansion of the FAAC's TASFAC sub-committee to expand feedback opportunities to assist in the E-TASFA scope of work as well as the paper TASFA.

**Discussion:**

- Robert Merino - TASFAC sub-committee should include more private school representation, as well as representation from the Rio Grande Valley.
- Committee members agreed with the expansion of the TASFA sub-committee role.

**Agenda Item 5. Update: External Relations**

**John Wyatt, Senior Director,  
External Relations**

**Handout Provided: Yes**

**Formal Decision/Action Required**  
N/A

**Presentation Summary:**

Budget: Commissioner Keller has testified before the Senate Finance and House Appropriations Committee on the importance of investing adequately in higher education.

- Both the Senate and House General Appropriations Act have introduced bills in both chambers that include a 5% reduction of the major financial aid programs.
- THECB's budget proposal for the next biennium include the following two exceptional items:
  - Restoration of the 5% base cut, which is approximately \$57 million dollars across the 3 major financial aid programs – requesting to return budget back to the level set for the current biennium.
  - Requested additional \$110 million funding to maintain funding for the service level for the major financial aid programs for next biennium.

Policy:

- As it relates to policy aspect of Higher Education, Charles has shared with the committee bills filed by legislators, (e.g., Promise Grant Programs, and new exemption bills). Deadline for filing bills is March 12, 2021; however, it is unclear as to what bills will advance during this session.
- John does not foresee major groundbreaking Higher Ed. legislation being advanced this session. Health and safety protocols have limited legislators' ability to maintain workflow while having to address COVID19, budget deficient, a re-districting year, and the recent power outages.
- The legislature is also aware of the misalignment issues with the FAFSA Simplification Act (FSA) and the new required e-TASFA implementation.

Q&A:

- **Committee asked if there are ways to assist the legislation to rectify issues surrounding the timing and misalignment challenges facing the FSA and electronic TASFA?** Institutions and various leadership should increase awareness of these issues and reach out to legislators about these challenges as it always good for legislators to hear from more than one entity within the higher education industry.
- **Committee asked if consideration was given to the loss of income for families when determining the additional \$110 million budget request?** Numbers were based on last summer's growth factors for the financial aid programs; however unusual growth due to the pandemic was not factored in; however, budget information provided to the legislature are normally estimates.
- **Committee asked how would additional COVID19 relief funds received (CRSSA Act) flow down to universities?** Federal funds going directly to institutions have already gone out through the CARES Act – GEER funds. \$175 million went to Coordinating Board to support financial aid programs through CARES ACT GEER funding. The additional GEER funding (CRSSA Act) received by the Governor's office who will determine how those additional funding will be allocated to support primary, secondary, and higher education. Committee was directed to review meeting handouts that contain information regarding the initial GEER funds received and impact of the EEG's (Emergency Educational Grants) as well as demographic information regarding recipients. Feedback received from institutions was tracked by CB on best practices and helpful insights.

**Agenda Item 6. Update: Legislative Recommendation Subcommittee**

**Presentation Summary:**

- Discussion:

Financial Aid Advisory Committee  
Meeting Notes  
March 4, 2021  
(To be approved at the June 3, 2021, FAAC Meeting)

- FAFSA Simplification Act (FSA) implementation - identify opportunities to align state programs with federal requirements) as it relate to selective service and prior drug convictions certification
- compliance issues surrounding the net price calculator (NPC) being down--- workaround is being considered by using the Federal NPC.
- cost implication involved with building the e-TASFA and possible future modifications to be compatible with the FSA
- E-TASFA solution for returning college students
- more cross-representation for sub-committee including private entities needed
- possible legislation may be required if unable to meet implementation deadline; requesting time extension for building the e-TASFA to align with FSA requirements
- requested information as to what previous legislation issues addressed by past sub-committee

**Points of interest for sub-committee:**

- impact of FSA on Student-aid-index (SAI) and state grant programs
- advertising and marketing communications that inform students and families of the e-TASFA application process
- Promise programs bills – new monies for programs vs institutions using TEOG and TEXAS Grant monies
- identify barrier issues that can be addressed through amendments to TAC and/or guidelines
- develop rules that reference following federal regulations rather than developing new rules as it relates to e-TASFA
- continued use of the term expected family contribution (EFC) in rules vs changing term to SAI will not affect the statute; the new need analysis (SAI) is valid and will still support state grant programs, however still working to determine what exactly is changing about the SAI in determining highest need students.
- additional areas of alignment include SAP -- policies not aligning does pose an hinderance when counseling students and for graduating students (alignment of terminology timeframe and time of review is needed).

**Q&A**

**Has there been any research of the retention and graduation rates of low-income student losing the TEXAS Grant aid going into the third year?** Currently not aware of a review done at the agency level of statewide aid and whether SAP policies have a negative impact on lower income students.

**(Note of clarification: SAP first renewal year is aligned however, second renewal year and beyond is when SAP misalignment occurs).**

**Agenda Item 7. Update: Data Collection Subcommittee**

**DeDe Gonzales and DeChà Reid,  
Director, Financial Aid Services,  
THECB**

**Handout Provided: Yes**

**Formal Decision/Action Required**  
N/A

**Presentation Summary:**

- February 25<sup>th</sup> meeting discussion and updates:
  - 2021 FAD cycle is now open with a new format of state reconciliation reports
  - changes needed for 2022 FADs instruction manual
  - cycle dates for the 2022 FADs
  - 2021-22 program guidelines planned for the end of April
  - Update to Student Financial Aid program:
    - Currently involved in the legislative session
    - Refinement of 60x30TX goals
    - Modernization project - redesigning the agency website
    - 2021-2022 award amounts have been released
    - Loan delinquency reporting – notice sent to institutions informing that the CB reinstated the cumulative loan delinquency report, and institutions should not place academic holds on students relating to THECB student loan delinquency
    - FAFSA simplification, net price calculation
    - Availability of Pell grant for incarcerated students
    - Memos released by THECB are mentioned in handouts
    - Future meeting dates determined
- Net price calculator (NPC) application in November was disabled as it was no longer functioning. Interim solution is to require public institutions to create template by using the Department of Education net price calculator. The Federal NPC webpage can be assessed through College for All Texans website.

#### **Actions:**

- Reviewed recommendations received from survey for 2022-23 TASFA.

<b>Recommendations</b>	<b>Sub-committee Feedback</b>
In the Selective Service Statement of Registration, can you add a field under the "I am Exempt" column to make it more clear that a Female student would not have to register?	1. Red is too bright and will change it 2. Instructions about not leaving anything blank 3. Add a female option independently 4. Add "Male Student's Only" above the section
In question 69-spouse add "N/A" as an option for students who do not have a spouse.	Add N/A
In question 70-Parent 2 add "N/A" as an option for students who live with only 1 parent.	Add N/A
TASFA format suggestions: The Selective Service options look a little disconnected, like they aren't multiple choice. The main suggested update is to make the application a smarter document - not being able to submit without completing the whole document through online submission like the FAFSA.	The online version doesn't allow multiple sections to be completed.
19. What will your college grade level be when you begin the 2021-22school year? Students who have recent High School graduated with dual credit courses should be the first option. This group of students will not know what to answer.	Remove from the section... IHE have batch process that looks at admissions and override process to fix it.
questions 49 and 56 need to have elementary school as an option.	"Other" option should cover this request and already aligns with the FAFSA

Recommendations	Sub-committee Feedback
<p>It would be beneficial for us on the processing side if the TASFA application was ordered similarly to the FAFSA application. This meaning that the sections were layed out just as it is in the FAFSA. For example, the student's biographic information is first, then school information, then the parent income info, then student income info, then other miscellaneous questions. This would be helpful for students, because the TASFA application jumps around a lot. Students have to jump from parent information to student information and back again. This causes them confusion when they complete the form.</p>	<p>Layout will be reviewed and better aligned with FAFSA, where possible</p>

- Minor update to this year's TASFA.
  - Update to selective service to allow female students the option to mark N/A and to tone down the red
- Other changes for 2022-23 TASFA
- Changes to align the TASFA with the FAFSA simplification updates
- Removal of various questions based on feedback from the Online TASFA version review sessions (April 8, April 13, April 15, April 20, April 22):
  - College grade level section (this information is not used by institutions to determine eligibility and students often mark things incorrectly)
  - Conviction of drug offense question (institutions reported that they do not use this box to award state aid; they have their own internal process/form that is more elaborate)
  - Date of Graduation (HS or GED) (not used)
  - At the start of the 2021-22 school year, how many credits/hours will you be enrolled in? (not used)
  - If you are transferring schools, have you earned an Associate Degree? (not used)
  - Have you previously received state Financial Aid? (not used)

- 2019-2020 NPC Data will be required in the fall 2021 (in Sept) to get caught up with staying in compliance.
- Will continue to provide the THECB budgets to the schools for consistency.
- Need to update the school link to point to the updated NPC webpage.
- A reminder notice will be sent to schools that are missing data.

**Committee Feedback on the process:**

- Timeline of Sept is a good and timely for the next school year
- All the data can be found in the FAD report for the grants and scholarship section in NPC.
- Provide guidance on the "Living with Parents" column and how to report that data.
- Collect feedback from the FA community to modify NPC instructions.
- Look at the Federal Department of Education link <https://collegecost.ed.gov/net-price> because none of the Texas schools are loaded on the ED NPC site.

	<p><b>Discussion Topic: FAD Modernization Project</b>-DeCha Reid</p> <p>This topic will discuss a new project to modernize importing FAD data to THECB.</p> <p><b>Update:</b> An opportunity for FAD to be part of the data modernization project, as the modernization moves from proof of concept to development. The data modernization project consists of a data load, data analysis and data reporting. There are two phases of the project:</p> <ul style="list-style-type: none"> <li>• Phase One: Modernize the internal data to a cloud base platform</li> <li>• Phase Two: Modernize the FAD application to web-base</li> </ul> <p>The first phase would likely be a six-month project, launching soon. While the second phase may take longer, however both phases will be in parallel.</p> <p>Some of the key benefits of modernizing FAD are:</p> <ul style="list-style-type: none"> <li>• The rules for errors and warnings would be separated from the programming that loads data into our system. This allows the standardization of the data load framework for all the data institutions submit to the THECB.</li> <li>• Rules will be individually defined and retained in a library. When data is loaded by an institution, the rules unique to that type of data load will fire. This provides two primary benefits. <ul style="list-style-type: none"> <li>◦ First, institutions will receive feedback on their submission within minutes, if not seconds.</li> <li>◦ Second, the rules will be maintained by the business unit.</li> </ul> </li> <li>• The possibility of removing flat file structure, so that institutions can do their work in Excel, allowing easier resolution of errors and warnings.</li> </ul> <p>Institutions benefit from an easier, timelier, and more responsive data load process. And Student Financial Aid Programs benefits from greater control of errors and warning rules and, ideally, earlier certification of institutional data and a reduction in the volume of inquiries received from institutions trying to get their data through the system.</p> <p><b>Committee Feedback</b></p> <ul style="list-style-type: none"> <li>• Give a timeline because institutions have to dedicated resources for new programming.</li> <li>• When launching the new platform for FAD, start in the first cycle of academic year as opposed to the second or third cycle to lessen confusion</li> <li>• Will appreciate the real-time error messages</li> <li>• No flat file; delimited tab would be better</li> <li>• Keep in mind of the timing of the project along with the FAFSA Simplification</li> </ul>	Virtual Meeting
	<p><b>Discussion Topic: Selective Service Guidance</b>-Leah Smalley</p>	Virtual Meeting

This topic will discuss a what changes the agency could pursue to its rules and guidelines that would best support institutions in fulfilling Sec. 51.9095 once selective service is no longer collected on the FAFSA.

**Update:** Seeking feedback from the FAAC Data Collection subcommittee on what changes the agency could pursue to its rules and guidelines that would best support institutions in fulfilling Sec. 51.9095 once selective service is no longer collected on the FAFSA?

One of the challenges is Sec. 51.9095 of the statute cannot be easily repealed without modifying other language in the statute which could cause an impact on other state financial aid programs.

To make changes to rules, below is the agency timeline:

Effective Date	Proposed Rule due to General Counsel
August	April 1
November	July 1
February	October 1
May	January 1

Some agency thoughts on the topic:

- TASFA students are built into the application so this will be an impact on students who complete the FAFSA.
- Have ability to modify the administrative rules but not the statute
  - One recommendation: remove section B from the administrative rules however it would mean that every student would need a selective service statement
  - Second recommendation: modify a rule so the schools can go online directly to bypass collecting a selective service statement.
  - Third recommendation: Modify a rule to allow the school to have a student sign a selective service statement and bypass the SS website.

#### Committee Feedback

- Make the student upload something from the SSA website rather than the schools, since there are way too many students and a huge burden on the schools.
- Schools have already built into their system that students have to sign an electronic statement and still have those students that cannot upload a document from SSA.
- Can selective service be added to the ApplyTX?
  - Not all students will use ApplyTX like transfer students
- Schools that have a large portion of exemptions/waivers that are handled by other areas on the schools and can be complexed on handling the administration of selective service.

	<ul style="list-style-type: none"> <li>Modify a rule that gives the school the flexibility on how to collect selective service at their institution.</li> </ul> <p>Action Item: Provide additional feedback by April 30.</p>

- Aug 2 is the **first day to submit a 2021-2022** funds request for the TEXAS Grant, TEOG, TEG, Bilingual Scholarship, and Educational Aide Exemption.

- Aug 31 is the last day to return unexpended Texas College Work-Study funds.

#### **Additional Items of Interest**

- The College Access Loan (CAL) interest rate will be adjusted effective July 1. A borrower's interest rate is based on the date the school certifies the CAL application. The current bond market suggests that the CAL interest rate will drop on July 1.
- The Texas Armed Services Scholarship nomination process launched on April 15 for the 2021-2022 academic year.
- This summer, the agency will issue a Request for Offers for a Student Loan Management and Origination System in preparation for the end of our current loan management system contract in 2023.
- The agency's representation on the FAAC will transition at the end of the June meeting. Charles Contéro-Puls will wrap up his time on the FAAC, having spent the past six years as the agency's representative. In September, DeChà Reid will assume the role of agency representative on the FAAC.
