Agency Mission

The mission of the Texas Higher Education Coordinating Board (THECB) is to provide leadership and coordination for Texas higher education and to promote access, affordability, quality, success, and cost efficiency through *60x30TX*, resulting in a globally competitive workforce that positions Texas as an international leader.

Agency Vision

The THECB will be recognized as an international leader in developing and implementing innovative higher education policy to accomplish our mission.

Agency Philosophy

The THECB will promote access to and success in quality higher education across the state with the conviction that access and success without quality is mediocrity and that quality without access and success is unacceptable.

The THECB's core values are:

Accountability: We hold ourselves responsible for our actions and welcome every opportunity to educate stakeholders about our policies, decisions, and aspirations.

Efficiency: We accomplish our work using resources in the most effective manner.

Collaboration: We develop partnerships that result in student success and a highly qualified, globally competent workforce.

Excellence: We strive for excellence in all our endeavors.

The Texas Higher Education Coordinating Board does not discriminate on the basis of race, color, national origin, gender, religion, age or disability in employment or the provision of services.

Background

As per statute enacted in 2017 by the 85th Texas Legislature, the Coordinating Board is required to provide a report to the Legislature that includes a summary compilation of data on the higher education and workforce outcomes of students who graduated from Texas public high schools based on the Individual Graduation Committee (IGC) review process allowable under the Texas Education Code, Section 28.0258. The summary data is due to the legislature no later than December 1 of even numbered years.

The report must include whether a student: (1) enters the workforce; (2) enrolls in an associate degree or certificate program at a public or private institution of higher education; (3) enrolls in a bachelor's degree program at a public or private institution of higher education; or (4) enlists in the armed forces of the United States or the Texas National Guard.

With the exception of data on military enlistments, which are not available to the Coordinating Board at this time, the required elements are included in this summary statistics report. The data show that 22.9% of IGC students who graduated from a Texas public high school in 2019 (3,377 of 14,761 IGC graduates) enrolled in higher education directly after high school, with a large majority of those students choosing to attend two-year public community, state, and technical colleges (3,035 students). Past trends are also provided, which show a gradual increase in higher education enrollments and workforce involvement for this population of graduates since the program began.

Please contact Dr. Julie Eklund, Assistant Commissioner for Strategic Planning, if you have questions about the data provided on the following two tables. She can be reached at Julie.Eklund@highered.texas.gov.
