Electronic Data Transfer System

The submission of CBM reports must be by electronic transfer. If any data items need to be changed, make the changes to your file and re-submit it as a complete report.

State and federal security requirements mandate that confidential data be transferred using a secure process. All files are required to be submitted or retrieved via the MOVEit® DMZ portal. Institutions will be able to access the secure site using a web browser or a SFTP client (FileZilla, WinSCP, SSH Secure, etc.). Detailed instructions for MOVEit® DMZ are available on the CB Data Exchange page (<http://www.txhighereddata.org/DataExchange>).

You may create the data file containing a header record, data records, and a trailer record by whatever method available.

The header record contains information to identify the type of data in the file and the length of the data records. The trailer record contains a record count of the actual number of data records, not including the header and trailer records, in the file. The record count in the trailer record will be used to verify that all records were transferred through the communication system.

The data sent to the Coordinating Board goes to the "INPUT" directory and the edit and summary report files are retrieved from the "OUTPUT" directory.

The data content of the files will be as defined in the Data Processing Record Layout of each report in this manual. The format and content of the HEADER and TRAILER records are critical and must be valid. Identification of the data depends totally on the accuracy of the information contained in the header record.

Edit Summary Report Year-to-Year Comparisons

The standard Summary Report is compared to the previous year to aid in early detection of potentially erroneously reported data. It shows the percentage increase/decrease of items and evaluates the items identified with a Review message. If the absolute value of the difference between the current year and prior year item is:

- 1) less than 50, a Review message is not printed;
- 2) between 50 and 10,000, a percentage change greater than 25% is identified;
- 3) between 10,000 and 100,000, a percentage change greater than 20% is identified; or
- 4) greater than 100,000, a percentage change greater than 10% is identified.

If the original report had only one column, the comparison data is in the adjacent column. If the original report had multiple columns, the comparison data is in the next row and asterisks are printed below the column in question.

Certification Tracking

The goal of these procedures is to have the CBM reports collected by the Educational Data Center and certified by the institutions as available for use within four working weeks of the due date. Since there are six edit cycles each workday, turn-around time should be less of an issue. Also, the desire is to have the most current data available for formula committee work, accountability measures, and appropriation requests. Here is a fall example of the follow-up procedures for ensuring timely certification of the reports are:

1. The EDC Data Analyst will telephone or e-mail the Reporting Official if there has been no initial submission of a specific report within 2 weeks of the due date or if a specific report is not received within two days after the certification date.¹
2. An email from the Director of the Educational Data Center will be sent to the Reporting Official if the report has not been received and certified by December 1st.
3. An inquiry letter will be emailed to the THECB liaison from the Assistant Commissioner if the report has not been received and certified by December 8th.
4. A letter indicating that the certification of the CB report is delinquent will be emailed to the President from the Assistant Commissioner if the report has not been certified by December 15th.

This step will be adjusted for institutions that have notified the THECB that they plan to report late-start session, such as eight-week courses, as part of their regular reporting and not as flex.

CHANGES TO CERTIFIED REPORTS

- A. Changes to certified data will not be permitted unless an executive officer of the reporting institution requests the change in writing and the reporting error would have a significant impact on future year funding or statistical analysis.
- B. Requests made prior to the data being published may be approved by the Educational Data Center and must not delay standard publish dates.
- C. Requests to change data which are already published must be approved by the Commissioner.

Certification Statement Instructions

When the edit materials for a CBM report are returned to the reporting institution for verification, one of two actions is required. If the edit reveals errors in the report, corrections should be submitted. Justification of all "Review" items is **required** before certification can be applied. When all the information is correct, the reporting official certifies the report by completing a certification statement and returning it to the Educational Data Center. An e-mail stating which report is certified is an acceptable alternative.

The example below shows the certification of Lone Star Health Science Center's Fall 2020 CBM001, CBM008, and CBM009.

CERTIFICATION STATEMENT

INSTITUTION: LONE STAR HEALTH SCIENCE CENTER 002201

DATE: DECEMBER 1, 2020

I hereby certify that the following report(s) is (are) correct and the data are usable in all output reports.

<u>REPORT NUMBER</u>	<u>SEMESTER AND YEAR</u>
CBM001	<u>Fall 2020</u>
CBM008	<u>Fall 2020</u>
CBM009	<u>Fall 2020</u>

Justification of Review items is as follows: _____

REPORTING OFFICIAL

CBM001 Student Report

The health-related institution (HRI) CBM001 report reflects all students enrolled at the reporting institution as of the official census date, which is the 12th class day for the fall and spring semesters (16-week session) and the 4th class day for each of the summer terms (6-week session). To be counted for state funding, the students must be registered as of the official census date, and the institution must collect in full from the student (or have a valid accounts receivable on record) by the 20th class day or the 15th class day during summer sessions. Students are required to have a fully operational installment contract (in accordance with Chapter 54, Section 54.007 of the Texas Education Code) by the payment due date in order to be in good standing. This includes receipt of a first installment payment prior to the beginning of the semester.

Students who withdraw from the institution prior to or on the official census date will not be reported for that term. The CBM001 report provides an unduplicated headcount of all students registered at the reporting institution, whether a student's courses are taught on-campus or off-campus, or whether the student is in an academic or professional practice program.

Students who are participating in joint degree programs (e.g., MD/PhD) should be classified according to the majority of course work they are enrolled in during the semester. For example, if a jointly admitted student is completing the second year of medical school, the student should be reported in Item #5 as 'B.' However, if that student is enrolled primarily in PhD courses or lab work, the student should be reported in Item #5 as '7.'

Students will be reported in each term (fall, spring, or summer) if they have not withdrawn from classes by the census date of the term. Use the latest occurring academic census date as the census date for medical and dental programs. If other professional and academic programs have different start-dates, use the actual 12th class day in the fall and spring semesters as the census date for each program. Programs within a school/college may have different census dates.

All summer sessions will be combined into one report. When combined, the headcount reported should be non-duplicative. Combined reports should be coded as '3' (summer) in Item #14.

The student records for all components of the HRI will be submitted as one report under the FICE code of the health science center. The specific component in which each student is enrolled will be identified in Item #33.

HRI Student Report (CBM001)

Census Dates for other than 16 or 6 week terms are outlined below:

<u>Fall and Spring Semesters</u>		<u>Summer Semester</u>	
<u>Length of Term (Weeks)</u>	<u>Census Date</u>	<u>Length of Term (Weeks)</u>	<u>Census Date</u>
2 or less	1st Class Day	2 or less	1st Class day
3	2nd Class Day	3	2nd Class Day
4	3rd Class Day	4	3rd Class Day
5 – 6	4th Class Day	5 – 6	4th Cass Day
7	5th Class Day	7	5th Class Day
8	6th Class Day	8	6th Class Day
9 – 10	7th Class Day	9	7th Class Day
11	8th Class Day	10 or more	12th Class Day
12	9th Class Day		
13 – 14	10th Class Day		
15	11th Class Day		
16	12th Class Day		

Flexible Entry Students

Students enrolled in classes organized after the official census date should be included in the data submitted in the semester following; i.e., (1) students enrolled in the classes organized after the 12th class day of the fall semester will be reported in the following spring semester 12th class day report; (2) students enrolled in classes organized after the 12th class day of the spring semester will be reported in the summer semester report; etc. These students will be identified by inserting a '1' in Item #17 to denote "flexible entry."

NOTE: A class is organized when students have registered and have paid fees or established accounts receivable. Classes organized with regular semester classes, but whose first class day is not until after the term census date, may be reported as a regular class, except:

- A. Students who register for the class after the term census date cannot have the hours reported for state funding on the CBM001;
- B. Students who drop the class before its first class day cannot be reported for state funding on the CBM001.

Inter-institutional Credit Hours

If the instruction of a student is being provided by the faculty of another institution, both the institution in which the student is enrolled and the institution providing the faculty instruction cannot claim the credit hours attempted by the student. If the institution providing the instruction reports the student's credit hours, then the institution in which the student is enrolled shall report the student's credit hours as inter-institutional. Neither the location of the class nor the delivery mode affects the reporting.

Reporting Semester Credit Hours

Item #10 should be the total SCH a student attempted in the current term. For undergraduate students, Item #10 should equal the sum of the other SCH Items (#16, #22, #24, and #25):

Item #16 - SCH in inter-institutional courses that DO qualify for state funding

Item #22 - SCH in collegiate courses that DO NOT qualify for state funding

Item #24 - SCH in inter-institutional courses that DO NOT qualify for state funding

Item #25 - SCH in collegiate courses that DO qualify for state funding

These items are mutually exclusive. When combined, they represent the total semester credit hours for a student.

Undergraduate Semester Credit Hours in Excess of State Limit and Formula Funding Exceptions for Repeated Courses

See rules at <https://www.highered.texas.gov/about-us/rules-statutes/>, Chapter 13, Subchapter F, Section 13.100-13.109.

Undergraduate Students Approaching Funding Limit for a Baccalaureate Degree

Six reports are produced each edit run – three for students affected by the 45-hour funding limit and three for students affected by the 30-hour funding limit. The reports identify those students who are approaching the funding limit (within 30 SCH of the limit), who will exceed the funding limit in the following semester, and who exceed the funding limit (prior to the semester reports). Item #28, Student Affected by Undergraduate Funding Limitation, will be used to determine the funding limit the student is affected by. The total number of undergraduate SCH the student has accumulated and Item #27, SCH of Undergraduate Degree Program, will be used to determine if the student will appear on any of the reports.

Funding Limitation for Doctoral Students

The statutory limitation of 99 funded SCHs per doctoral student and the allowable exceptions for funding up to 130 hours are described in the Texas Education Code (TEC), 61.059 (1) through (3). Two reports are provided during each CBM001 edit cycle. One report provides the students who have exceeded 70 doctoral SCHs, but who have not exceeded 99 doctoral SCHs. The other report identifies the students who have exceeded the 99 doctoral SCH limit. Prior to the formula runs each base year, each institution is given the opportunity to identify which of their doctoral students should be granted program or individual exceptions during the next funding period.

Distance Education

Institutions should not report non-resident students who are taking only distance education courses delivered outside the state (Texas Administrative Code, Title 19, Part 1, Chapter 4, Subchapter P).

Enter '999999' for an out-of-state institution if the FICE code is not known. A transfer is a student entering the reporting institution for the first time, but who is known to have previously attended another postsecondary institution at the same level (e.g., undergraduate to undergraduate or graduate to graduate; not undergraduate to graduate). This does not include an institution's own graduates who enter for further education.

If the student has never attended college or other postsecondary institution, enter '000001' to indicate a first-time student. Also, include as first-time students those who entered with advanced standing (college credits earned before graduation from high school). For a first-time-entering medical or dental student (Item #5, Classification, coded an 'A') enter '000001' in this Item.

In the term that the student is accepted into a master's program, doctoral program, or doctoral professional practice program (e.g., AUD, PharmD, DNP, DRPH, DPT – refer to Item #35), enter '000001' in this item; otherwise, for a graduate or doctoral professional practice student leave blank, unless the student is a first-time transfer at that level. If the student is a first-time transfer, enter the FICE of the institution transferring from. This will allow the CB to determine time-to-degree of such students.

NOTE: A student should not be coded as first-time until he/she has completed high school.

Leave blank if not applicable.

Item #10 Semester Credit Hour Load. Enter the number of semester credit hours (SCHs) the student is registered for in the current semester. Item #10 should equal the sum of the other SCH items (#16, #22, #24, and #25). The SCHs attempted in courses that begin after the census date of the prior term, which are identified as flexible-entry, are to be reported in a separate record and a '1' entered in Item #17. Where applicable, convert quarter hours to semester hours – 3 quarter hours equal 2 semester hours; right justify with leading zeros. Do not enter decimals. Enter zeros for medical and dental students.

Exclude SCHs attempted in inter-institutional courses that do not qualify for state funding (Item #24) and all other collegiate-level courses (Items #22 and #25). Inter-institutional classes are those in which the faculty and courses of one institution are provided to another institution's students and there is an inter-institutional agreement on file at the CB. For additional information, see section Inter-Institutional Credit Hours in the introduction. Enter zeros for medical and/or dental students.

Item #17 Flexible Entry. Enter a '1' if the student is enrolled in a Flexible Entry (FE) class that is being reported this semester. Enter a '2' if a professional student is enrolled in academic class work as a "dual degree" student; item #33 will be the school code of the academic unit, Item #5 should include the classification corresponding to the professional student's dual degree, and Item #19 should include the CIP Code of the academic major. If the professional student is also engaged in their professional program, then they should also have a separate record with Item #17, Flexible Entry left blank. Enter a '4' if an academic student is taking inter-institutional courses at a health science center. Leave the item blank if not applicable.

Item #18 Correctional Entity. If the student is confined in a correctional institution, enter a '5'. If not, leave the item blank. Not applicable for professional practice students.

Item #19 Major Area of Concentration. Enter the CIP code of the major area of concentration. See Appendix C. Undergraduate, graduate, and professional medical and dental students should be coded with an appropriate major area; not undeclared. Use the general CIP code for graduate students who have not identified their specialty.

- Item #21 Tuition Exemption/Waiver Code. When Item #7 is coded '3' and the student is a resident receiving a Hazlewood exemption (authorized in Texas Education Code 54.203), enter the code '01'; otherwise leave blank. When Item #7 is coded 'E' and the student is a nonresident eligible to pay the resident rate due to the state's waiver for members of the military and their families (Texas Education Code 54.058), enter '21'; otherwise leave blank.
- 01 Exemption of certain veterans, dependents, etc. of the Armed Forces of the United States from payment of tuition
 - 21 Application of resident rather than nonresident tuition to military personnel and dependents
- Item #22 SCH Load - NOT State Funded. Enter the number of attempted semester credit hours (SCHs) the student is registered for that DO NOT qualify for state funding during the current semester. Include SCHs of undergraduate classes that are not allowed to be state-funded if attempted three or more times. Exclude SCHs attempted in courses that are state-funded (Item #25) and all inter-institutional courses (Items #16 and #24). Examples are attempted SCHs of an undergraduate student who has exceeded the state limit and attempted SCHs of a student in physical education courses that are not allowed for state funding (see discussion on SCHs that exceed state limits in the introduction). Enter zeros for medical and dental students.
- Item #23 Unused
- Item #24 SCH Load - Inter-Institutional NOT State Funded. Enter the number of semester credit hours (SCHs) in inter-institutional courses the student is registered for during the current semester that DO NOT qualify for state funding. Exclude SCHs attempted in state-funded inter-institutional courses (Item #16) and all other collegiate-level courses (Items #22 and #25). Enter zeros for medical and dental students.
- Item #25 SCH Load - State Funded. Enter the number of attempted semester credit hours (SCHs) the student is registered for that DO qualify for state funding during the current semester. Exclude SCHs attempted in collegiate courses that are not state-funded (Item #22) and all inter-institutional courses (Items #16 and #24). For more information, see section Inter-institutional Credit Hours in the introduction. Enter zeros for medical and dental students.
- Item #26 Unused
- Item #27 SCH of Undergraduate Degree Program. Enter the number of semester credit hours (SCHs) the student is enrolled for in the undergraduate degree program. Enter '000' if the student is not classified as a senior. For students who have exceeded 100 hours and are not considered seniors, report the hours in the degree program. A student who is enrolled on a temporary basis or who has not enrolled in a degree program is considered to be enrolled in a degree program requiring a minimum of 120 SCHs. Enter zeros for students who are not undergraduates.

- Item #28 Student Affected by Undergraduate Funding Limitation. Enter a '1' if the student first enrolled in an institution of higher education in fall 1999 through summer 2006 (45-hour rule). Enter a '2' if the student first enrolled in an institution of higher education in the fall 2006 semester or later (30-hour rule). Otherwise enter a '0'. Not required for graduate students.
- Item #29 Last Name. Enter the student's last name. Truncate if the name contains more than 20 characters.
- Item #30 First Name. Enter the student's first name. Truncate if the name contains more than 10 characters.
- Item #31 Middle Name Initial. Enter the initial of the student's middle name.
- Item #32 Full-Time Equivalency of Student. Enter the student's percent of time enrolled, in relation to a full or normal workload at the institution, during the reporting period. Each institution has a policy that determines a full or normal workload. For an undergraduate, a long term workload may be 18 credit hours and 12 credit hours in the summer. For a master's student, a long term workload may be 15 credit hours and 9 credit hours in the summer. For a doctoral student, a long term workload may be 12 credit hours and 6 credit hours in the summer. An equivalency for a medical or dental student should be entered by semester too. In calculating an annual FTE, the fall and spring FTEs will be divided by 2 and the summer FTE will be divided by 3 and added per student. A student who enrolls in several courses, and the sum of the credit hours is in excess of a "normal" workload, is coded as 100 percent. **A student may not be counted greater than 100 percent, or full-time.**
- Item #33 School or College. Enter the six-digit assigned code of the school or college in which the student is to be funded, as identified in Appendix A.
- Item #34 Remote Teaching Site. Enter the six-digit assigned code of the remote teaching site listed, if one has been identified in the Remote Teaching Site section in the introduction, or enter the FICE code of the institution if the remote site is another institution. Include the semester credit hours in Item #11. If the student is not at a remote teaching site, leave blank.
- Item #35 Restricted Program Admission. The Coordinating Board uses restricted admission codes to distinguish students who have a declared major in a particular discipline from those who are actually admitted to a certificate or degree program through a restricted or separate admission process. The distinction provides more accurate enrollment and graduation numbers in key, high-demand occupations, and the data are often linked to special legislative initiatives.

To ensure accuracy of the number of students in these programs, enter the appropriate code for each student who is admitted to and continuing his/her enrollment in a certificate or degree program in the following areas or CIP codes. Leave blank if not. Not required for medical and dental students.

Item #41 Individual with Intellectual or Developmental Disabilities (IDD). Student has been identified as having an intellectual or developmental disability based on the definitions provided below. If a student is identified as having both an Intellectual Disability and identified as being on the Autism Spectrum, prioritize the reporting of the Intellectual Disability (enter ‘1’). Institutions may only report students who have been identified through self-identification and/or documented receipt of special services.

 - b. Deficits in adaptive functioning that result in failure to meet developmental and sociocultural standards for personal independence and social responsibility. Without ongoing support, the adaptive deficits limit functioning in one or more activities of daily life, such a communication, social participation, and independent living, across multiple environments, such as home, school, work and community.
 - c. (a) and (b) may occur after the developmental period (such as in the case of a traumatic brain injury).

Enter '1' if student was ever enrolled in a program for students with IDD at your institution. Report if student was enrolled in program at any time. Report only if coded '1' or '2' in Item #41. Enter '0' if student was not enrolled in a program for students with IDD. A record should NOT be created for students who are not otherwise reported on the CBM001. See definition of program below.

Definition of Postsecondary Transitional Program or Program for Students with IDD:

Summary of Student Data

Summaries are produced for each unit within each health science center, as well as the health science center as a whole. For this manual, the summary for the health science center will be shown as the example.

HEADCOUNT: The headcount is a summation of CBM001 records less the number of flexible entry students. The headcount is categorized by gender, age, first-time students, residence, ethnic origin, classification, tuition status, and non-disclosure.

AGE: The age distribution is calculated by subtracting the date of birth (Item #6) from the beginning date of the semester. For this report the beginning date of each semester is:

Fall	September 1
Spring	January 1
Summer	June 1

FIRST-TIME STUDENTS: The first-time-in-college student is based on a code of '000001' in Item #9. A first-time-entering medical and dental student is based on a code of '000001' in Item #9 and an 'A' in Item #5. All other numeric values are considered a transfer code and cause a counter to be incremented to show the number of students who have transferred to your institution. Item #37 is used for first-time students from Texas and out-of-state high schools.

SCH REGISTERED: Item #10 is summed to produce a total. Hours of flexible entry students are not included. Also Items #16, #22, #24, and #25 are summed for undergraduate students.

FLEXIBLE ENTRY: All records with a '1' in Item #17 are summed separately and are not included in the headcount summaries. Records coded '2' are summed as professional dual degree students; records coded '4' are summed as inter-institutional academic students.

DOCTORAL, 30-HOUR AND 45-HOUR-LIMIT REPORTS

These reports are generated each time the CBM001 edit report is generated in each semester and will appear on the edit. The reports are listed below.

1. Doctoral Students Approaching Doctoral SCH Limit
2. Doctoral Students Exceeding Doctoral SCH Limit
3. UG Students Approaching 30-Hour Funding Limit
4. UG Students Who Will Exceed the 30-Hour Funding Limit After This Term
5. UG Students Exceeding 30-Hour Funding Limit
6. UG Students Approaching 45-Hour Funding Limit

CBM009 Graduation Report

This report will reflect degrees conferred during the fiscal year immediately preceding the fall semester in which the report is submitted. The initial report and any updates should be transmitted using the Electronic Data Transfer System.

Only degrees listed in the institution's Inventory of Approved Degree Programs are to be reported.

If a student is awarded more than one degree in a reporting period, enter separate records for each degree.

The CBM009 Appendix is extracted from the current Degree Program Inventory file. It contains (a) the degree designation to be reported, (b) the level, and (c) the CIP code of each program authorized by the Texas Higher Education Coordinating Board. The data submitted in Items #7, #8 and #9 of each CBM009 record correspond to (a), (b), and (c) above, and will be validated against the Degree Program Inventory file.

For the academic units, this report will include all students who have been awarded an Associate Degree or above during the fiscal year.

For the professional schools, this report will include all students who have been awarded a professional degree ('DDS', 'DO', 'MD', 'DPM', 'PharmD') during the fiscal year.

Nursing Shortage Reduction Program

Institutions participating in the Nursing Shortage Reduction Program (NSRP) are required to submit their nursing graduates on the CBM009 by October 1. The nursing records must be error-free to be included in the count for funding.

Summary of Degrees Conferred Data

Error records are not included in the summary counts. There will be a report for each college/school and one summed for the health science center.

HEADCOUNT: The headcount is a summation of non-duplicative CBM009 records.

TOTAL DEGREES: The total number of degrees is the summation of all CBM009 records. The degrees are summed by gender, age, non-disclosure, ethnic origin, and degree level.

AGE: The age distribution is calculated by subtracting the date of birth from September 1 of the fiscal year in which the data were collected.

CBM011 Facilities Room Inventory Report

This manual supersedes the Texas Higher Education Coordinating Board (THECB) 2005 Facilities Inventory Procedures Manual. The THECB implemented the coding structure outlined in this manual on November 1, 2008. The changes implemented in this manual are auditable effective November 1, 2009. All certified inventory reports prior to November 1, 2009 will be audited under the 2005 Facility Inventory Manual. Compatibility and reporting procedures in the 2005 manual have mostly been retained. The primary purpose of this manual is to provide a uniform physical facilities coding system that prevails between higher education institutions in Texas and across the nation for data included in a building and room inventory. It provides a current and common framework for terms and definitions around which to compile data systems for physical facilities. The majority of the data codes are based on definitions and standards established by the National Center for Education Statistics, *Postsecondary Education Facilities Inventory and Classification Manual*, U. S. Department of Education, NCES 92-165, 2006, but some data codes are unique to Texas higher education institutions. The guidelines established by this manual may only be part of an institution's total facilities and capital asset inventory.

Sections 61.0572 and 61.058 of the Texas Education Code define THECB duties and its essential responsibilities to Texas higher education institutions. Basically, the THECB must assist institutions in efficient use of its construction funds and the orderly development of physical plants to accommodate projected college student enrollments.

This report includes distinctions for all types of space within a building and its intended design function. Space Use Codes and Functional Category Codes are found in Appendices F and G, respectively. See Appendix I for a Glossary of Facilities Terms. Visit <http://www.txhighereddata.org/ReportingManuals.cfm> to view the appendices.

Basis for Classification

Information to code rooms according to architectural features can best be obtained by a visual inspection of each room but may also be obtained from as-built drawings. The evaluation of a room's Space Use Code and Functional Category Code should be based on the judgment of a departmental representative, facility planning, or physical plant personnel who are familiar with the coding structure in this manual. A room's Space Use Code and Functional Category Code can change between inventories or audit dates. A room's Space Use Code does not change until its basic design function has changed. Space Use Code 060 can be used temporarily to reflect non-assigned space while it is undergoing a conversion by remodeling.

Rooms to be Included

Space Use Codes for cubicle space are regarded as Office Facilities (300) that can be assigned to academic, administrative, or service functions of an institution. Each defined workspace can be considered a room. Operations independent of an institution's mission are to be reported under Functional Category Codes 91 and 92. The Appendices to this manual include Space Use Codes for circulation areas, building service, mechanical, and structural areas, which are classified as non-assigned space.

HRI Facilities Room Inventory Report (CBM011)

Rooms Not to be Included

Residential rooms in a facility with Building Type Codes 6 or 7 (Residence/Single and Residence/Family) need not be reported except for rooms used for non-residential purposes. Residential rooms in a facility with Building Type Code 2 (Academic/Residence) need not be reported except for rooms within the building that are used for non-residential purposes. Space within a leased facility that is not used by the institution need not be reported. Covered play areas and covered walkways are not considered rooms.

Addition of Rooms

The addition of rooms should be reported on an on-going basis.

CIP Code and Functional Category Limitations

The CIP code is a required field within a room record that may be prorated up to three times, based on percent of use with different CIP codes, precisely to identify space being used by a particular discipline, department, or function. A six-digit CIP code corresponds to a single instructional program and its first two digits correspond to a group of instructional programs. If an exact CIP code cannot be determined, assign the most accurate code available.

Academic CIP codes should not be used with Institutional Support Functional Category Codes (60 series). These two areas are fundamentally different. Space for academic administration is Functional Category Code Academic Administration (46) and it must be combined with an academic CIP, as in the case of the space devoted to department heads.

Descriptive information on NCES CIP codes can be obtained from the following NCES web address: <http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2002165>. The Coordinating Board has an index of the current and deleted NCES CIP codes on its web site at <http://www.txhighereddata.org/Interactive/CIP/>. A list of codes unique to Texas higher education institutions is in Appendix C of this manual.

Basis for Room Measurement

Room area is measured to the nearest square foot in accordance with parameters established by the facilities audit protocol.

Space Use Codes

Primary Space Use/Design Use: Each room has one best Space Use Code based on its exclusive or predominant design/use. Primary activity areas (Space Use Codes) always end with "0". For a room used as an office (Space Use Code 310) and a research/non-class laboratory (Space Use Code 250), a single determination for primary activity should be made. It is recommended that primary be evaluated in terms of time, the human activity that focuses on use, rather than space. Space Use Codes change when a room's predominant use or physical characteristics have been changed and/or remodeled.

HRI Facilities Room Inventory Report (CBM011)

Service Codes: Determine whether the existence of a particular room, with its specific design/function and use, is dependent upon or justified by another room (usually nearby) and its specific use. If a significant degree of dependency exists, an appropriate service code should be used. Support or service space is identified by Space Use Codes ending with "5".

Proration of Use

Up to three Functional Category Codes may be assigned to a single room: primary, secondary, and remaining. Where a room serves several purposes or uses, it may be reported based on time spent on each activity. Overall, the total percent of use/proration for primary, secondary, and remaining use must always total 100 percent. Only a room's function (Functional Category Code) and program area (CIP Code) may be prorated since its space use (Space Use Code) cannot be prorated.

Floor (optional)

Floor numbers are two characters in length. Zero fill the first position of the Floor field for floors less than 10 (01, 02, etc.). A basement should be coded as '00'. Sub-basements should be coded with an 'S' in the first position and the sub-basement number in the second position (S1, S2, etc.). Mezzanines should be coded with an 'M' in the first position and the mezzanine number in the second position (M1, M2, etc.). See illustration.

CBM014 Facilities Building Inventory Report

This manual supersedes the Texas Higher Education Coordinating Board (THECB) 2005 Facilities Inventory Procedures Manual. The THECB implemented the coding structure outlined in this manual on November 1, 2008. The changes implemented in this manual are auditable effective November 1, 2009. All certified inventory reports prior to November 1, 2009 will be audited under the 2005 Facility Inventory Manual. Compatibility and reporting procedures in the 2005 manual have mostly been retained. The primary purpose of this manual is to provide a uniform physical facilities coding system that prevails between higher education institutions in Texas and across the nation for data included in a building and room inventory. It provides a current and common framework for terms and definitions around which to compile data systems for physical facilities. The majority of the data codes are based on definitions and standards established by the National Center for Education Statistics, *Postsecondary Education Facilities Inventory and Classification Manual*, U. S. Department of Education, NCES 92-165, 2006, but some data codes are unique to Texas higher education institutions. The guidelines established by this manual may only be part of an institution's total facilities and capital asset inventory.

Sections 61.0572 and 61.058 of the Texas Education Code define THECB duties and its essential responsibilities to Texas higher education institutions. Basically, the THECB must assist institutions in efficient use of its construction funds and the orderly development of physical plants to accommodate projected college student enrollments.

This report includes facilities under the jurisdiction or control of the institution's governing board, regardless of location and encompasses different types of structures, including marine/research vessels; aquarium structures; animal quarters; and trailers on wheels that are not mobile. If a building is not owned by the institution or is shared with other tenants, include only the portion of the building leased or controlled by the institution and its pro rata share of gross, assignable area and non-assignable area.

The report includes minor structures or temporary facilities that meet all of the following criteria:

- the structure is attached to a foundation,
- the structure is roofed,
- the structure is serviced by a utility (exclusive of lighting), and
- the structure is a source of maintenance and repair activities.

Refer to Appendix H for building data file codes and definitions, and Appendix I for a Glossary of Facilities Terms located at <http://www.txhighereddata.org/ReportingManuals.cfm>.

Addition of Buildings

The addition of buildings should be reported on an on-going basis.

Building Demolition

A building must be on the inventory with the appropriate Building Condition and Functional Category Codes until demolition is completed; at which time the building and room records may be deleted.

HRI Facilities Building Inventory Report (CBM014)

Exclusions

Do not include buildings intended as investment properties, which are used only for revenue generation and not for institutional purposes. Additionally, exclude hospitals not owned by the institution (except for any space in the hospital leased or controlled by the institution), public schools not owned by the institution, but used for practice teaching, and federal contract research centers identified by the Federal Office of Management and Budget (OMB).

Basis for Building Measurement

Compute gross area using an accurate and verifiable means to the nearest whole square foot.

NOTES:

Building Type code 2 (Academic/Residence) is a mixed-use facility and only nonresidential rooms should be included in the facilities inventory room file.

Building Type codes 6 and 7 (Residence/Single and Residence/Family) do not require residential rooms to be included in the facilities inventory room file. The building's assignable space will automatically be calculated at 60 percent.

Building Type codes 8 and 9 (Non-institutional Agency Buildings and Rental Property) are not required to be included in the facilities inventory room file that serves non-institutional functions.

CBM00N Student Number Change Report

The Texas Education Code, Sections 54.068 and 61.0595, sets an undergraduate funding limit for universities and health-related institutions equal to length of degree plus 45 semester credit hours. The limit applies to students who first enroll in an institution of higher education in the 1999 fall semester and later. The academic semester credit hours attempted at community, technical, and state colleges affect this limit. In order for the Coordinating Board to maintain a database indicating the number of hours an eligible undergraduate student has accumulated toward the limit, student identifying numbers (social security numbers), birth dates, and gender must be as accurate as possible. These changes can be submitted through the electronic data transfer system using the format identified in this report.

When the current change is applied to the database at the Coordinating Board, any number that generates a conflict with a student number that already exists on the database, will require that a copy of the student's social security card be sent to the Educational Data Center so conflicts can be resolved.

The CBM00N database is operational. This report can be submitted at any time. The date that the CB applies the change will be maintained in the database.

Instructions for Student Number Change Report

Item #1 Record Code. Always enter 'N'.

Item #2 Institution Code. Enter FICE Code of the institution (see Appendix A).

NOTE: All three items: student number, birth date, and gender will be used to uniquely identify a student. All three items of the prior number must match to a record in the database before the current number will be used as a replacement.

Item #3 Current Student Identification Number. Enter the current Social Security Number of the student. This should not be an assigned identification number except in infrequent occasions.

Item #4 Current Date of Birth. Enter all four digits of the year and the month and day of birth of the student in format YYYYMMDD.

YYYY = Year MM = Month DD = Day

Item #5 Current Gender. Enter the gender of the student.

CBM00R Residents/Fellows Report

Public health-related institutions and certain private independent institutions and organizations report medical/dental residents and postdoctoral/research fellows to the Coordinating Board for purposes of reporting to state officials and state funding. The records for all components of the health-related institution will be submitted as one report under the FICE code of the health science center. The categories of data collected are as follows:

- Residents
 - Medical/Osteopathic Medical (GME)
 - Podiatry (GME)
 - Dental
 - Pharmacy
- Postdoctoral/Research Fellows
 - Biomedical Science
 - Allied Health
 - Public Health
 - Nursing

The majority of data collection relates to Medical, Osteopathic Medical, and Podiatry (GME) Residents. These data are used for verification purposes, input for determining Health-Related Institutions' Graduate Medical Education (GME) and Infrastructure formula funding, and for allocation of GME funds trustee to the Coordinating Board.

The terms Graduate Medical Education and Residency are interchangeable and describe the final stage of formal education a physician must complete prior to receiving state licensure, entering independent practice, and obtaining board certification in a medical specialty area. Residency training is a three- to seven-year process of focused education and training offered by nationally-accredited programs, typically in large hospital settings. Residency programs are accredited nationally by the Accreditation Council for Graduate Medical Education (ACGME) for Doctor of Medicine (MD) and Doctor of Osteopathic Medicine (DO) degrees, and by the Council on Podiatric Medical Education (CPME) for Doctor of Podiatric Medicine (DPM)

The term Postdoctoral/Research Fellow refers to individuals who have earned a doctoral degree and are continuing their training or research at a health-related institution.

These data are used to support health-related institutions' formula calculations in the following areas:

For GME funding purposes:

- **GME Resident counts** – Used as input into the Graduate Medical Education formulas for the health-related institutions' appropriation requests. The appropriations related to this request are detailed as follows:
 - **Formula Funding - Graduate Medical Education** – Appropriations for state health-related institutions
 - **Trusteed Funding - Graduate Medical Education** – Appropriations for

HRI Residents/Fellows Report (CBM00R)

Coordinating Board trustee programs

- Graduate Medical Education for Baylor College of Medicine
- Graduate Medical Education for Independent Residency Programs
- Family Practice Residency Program

For Infrastructure funding purposes:

- **GME Resident and Postdoctoral/Research Fellows counts** – Used as input into the health-related institutions' Space Model. The output of the Space Model is used as input for calculating the Infrastructure Formula for the Infrastructure appropriations request. These counts include only the state public health-related institutions. The appropriations related to this request are bill pattern appropriations labeled as Infrastructure – E & G Space Support.

The reporting of data is dependent upon each institution/organization and the programs it offers. Appendix J provides a table of allowable reporting categories for data submissions for each institution/organization. These reporting categories are used to track the programs offered by each institution and mirror allowable data entry categories used for the Instruction and Operations formula.

Data will be submitted electronically in the prescribed format described in this manual.

Timing Considerations for Reporting Data

All institutions/organizations must report headcount and related information on residents as of September 1 of each year. Each institution/independent organization must have its data show a “**Certified**” status by October 15 of each year in order to have its count included in the formula funding calculations. Failure to achieve a “Certified” status could result in loss of formula funding appropriations.

In accordance with Coordinating Board policy, any request for waiver of the October 1 deadline should be submitted by the institution/organization President or Chief Executive Officer in writing to Victor Reyna, Director, Educational Data Center, for approval. In order for a waiver to be approved, the letter must provide substantive reasons for granting the request.

Resident/Postdoctoral/Research Fellows Qualifications

The following qualifications apply to all GME Residents and postdoctoral/research fellows reported:

- All required data fields must be submitted in order for a resident/postdoctoral/research fellow to be counted for formula funding. Do not include residents/fellows with Doctor of Chiropractic (DC) or Doctor of Optometry (OD) degrees.
- A given Medical/Dental or Postdoctoral Specialty (Advanced Dentistry) student that is enrolled and reported on the HRI CBM001 Student Report with

HRI Residents/Fellows Report (CBM00R)

classification A-D or M should not be reported on the CBM00R. That individual will be counted on the CBM001 report. Reporting a Medical/Dental or Postdoctoral Specialty (Advanced Dentistry) student on both will result in an error on the CBM00R edit report.

- A given resident/postdoctoral/research fellow can only be claimed and reported by one institution/organization for a given year. No duplicate reporting will be allowed. Any duplication in reporting is the responsibility of each institution/organization to resolve. The data collection system will consider the first reporting of a resident/postdoctoral/research fellow as the authorized entry. Any subsequent reporting of the same person by another institution/organization will be flagged as an error. If the first reporting is in error, it is the responsibility of the first institution/organization reporting that person to remove it from its list so another institution/organization may report that person.
- For Medical, Osteopathic Medical, and Podiatry (GME) residents, only MDs, DOs, and DPMs that are training in residency programs affiliated with either the Accreditation Council for Graduate Medical Education (ACGME) for MDs and DOs or the Council on Podiatric Medical Education (CPME) for DPMs will be accepted.
- Only postdoctoral/research fellows that have earned a PhD, DVM, DPT, AUD, DRPH, DNP, DMP, OTD, MDPHD, or DOPHD will be accepted.
- Only certain degrees are eligible to be counted in a given category. If an ineligible degree is reported for a category, it will be rejected as an error on the edit report. The following table of Reporting Categories outlines the required degree selection for each category.
 - Residents
 - Medical (GME) – MD, DO, MDPHD, MBBS, or MC
 - Podiatry (GME) - DPM
 - Dental – BDS, DDS, DMD, or DDSPHD
 - Pharmacy – PHARMD
 - Postdoctoral/Research Fellows
 - Biomedical Science – PHD, MDPHD, DVM, DMP, MD, DO
 - Allied Health – PHD, DPT, AUD, MD, DO
 - Public Health – PHD, MDPHD, DOPHD, DRPH, MD, DO
 - Nursing – PHD or DNP
- The maximum number of years that a resident/postdoctoral/research fellow can be reported is seven. Residents/postdoctoral/research fellows whose total of “Prior Cumulative Residency/Research Years,” Item #16, plus “Years Completed in Current Residency/Research Program,” Item #15, exceeds seven years will be rejected.
- Residents or postdoctoral/research fellows whose school of graduation appears on the Coordinating Board’s list of “Institutions Whose Degrees are Illegal to Use in Texas” will not be considered in the counts used for formula funding purposes

HRI Residents/Fellows Report (CBM00R)

and will be rejected as an error on the edit report. This list can be viewed on the Coordinating Board's website at <https://www.highered.texas.gov/institutional-resources-programs/private-postsecondary-institutions/resources/>.

Institution/Organization Point of Contact

Each health-related institution or other independent organization will designate a specific person to be the primary contact for handling all communication regarding this data with the Texas Higher Education Coordinating Board. The person assigned to be the primary contact needs to be of a level and position that can effectively deal with the respective units of your institution/organization to compile the data required and be responsible for answering any questions in its regard.

It is the responsibility of the institution/organization to provide revised information to the Coordinating Board whenever a change is made in the point of contact. The Coordinating Board is not responsible for missed data submission deadlines due to use of point of contact information that is no longer current or has not been updated.

The following point of contact information is required:

- Name and Title
- Department
- Institution/Organization Name
- Mailing Address
- Email Address
- Telephone Number

Send the required contact information to Tanya Trevino in the Educational Data Center of the Texas Higher Education Coordinating Board at Tanya.Trevino@highered.texas.gov.

Contact Ed Buchanan, Program Director in the Division of Planning and Accountability, with general questions and concerns at Ed.Buchanan@highered.texas.gov.

Item #13 Program Code. Enter the appropriate 10-digit code for the medical (GME) residency program. See Appendix K. Required for medical (GME) residents only. Leave blank if not applicable.

Note: In July of each year, the ACGME provides us a data file of all of the approved medical residency programs for Texas institutions. This data file is Appendix K. The THECB uses that data file to validate the data reported by the institutions. Since the ACGME data provides a snapshot in early July, any residency programs approved in July or August will have to be communicated to the THECB to add them to our database and allow the institution to report complete and accurate residency counts. Given this process, institutions are encouraged to seek ACGME approval of their programs as early as possible so that the number of new programs approved in July and August is kept to a minimum. **Should you encounter a medical (GME) resident that is in an approved ACGME or AOA program that is not on the program code listing, please contact the Coordinating Board and request that it be added.**

Sponsoring Institution as shown in Appendix K - In the great majority of cases, the sponsoring institution for a given medical (GME) residency is one of the ten health-related institutions that report their residents for those programs they sponsor. In a few cases, a hospital is shown by ACGME as the program sponsor. In those situations it will be necessary for the reporting institution to contact the THECB and let us know that your institution will be claiming that program for the purposes of reporting residents. **This process will need to be done annually, since data are run with a new program listing every year. Due to the changing nature of residency programs, the THECB cannot rely on last year's affiliations.**

Item #14 Residency/Research Program Length. Enter the code that corresponds with the total number of years for the current program.

Note: This field is not reported for Medical, Osteopathic Medical, and Podiatry (GME) Residents since the program length for Medical (GME) Residents is obtained from the ACGME and CPME (see Appendix K). Enter zero for Medical, Osteopathic Medical, and Podiatry (GME) Residents.

Use of ACGME Program Information

The medical and osteopathic (GME) resident data that is provided by the institution is validated against the program data provided to the THECB by the ACGME. This validation process is necessary in order to ensure that the CBM00R is accurate. If an edit that is based upon ACGME data fails, it is because the reported data does not agree with the ACGME data. Compare your entered data with Appendix K to determine the problem.

ACGME Program Prerequisites

The THECB is not involved with making any determinations in regard to qualifications necessary to meet ACGME prerequisites for a medical (GME) residency program. It is the responsibility of each institution to evaluate an applicant's qualifications to determine if they meet the prerequisites, if any, for a medical (GME) residency program. Once that determination has been made, and you know the total number of prior cumulative years of medical (GME) residency, you have the necessary information to report that item for a resident. **Please note that if an ACGME residency program has a prerequisite for a given medical (GME) residency program, Item #16, Prior Cumulative Years, must equal or exceed the prerequisite in order to pass the edit.**

Prerequisite Year

We have noted a couple of medical (GME) residency programs where the prerequisite year is under the oversight of the management responsible for the related medical (GME) residency program. This has been confusing in that it might appear that the prerequisite year is a year of the program vs. being a prerequisite. In these particular cases, the reporting institution did not have an ACGME program available to report residents that were in the prerequisite year.

In order for the CBM00R to be an automated process that performs edit checks on your data submissions, the following guidance was provided for reporting in fall 2018:

- The program length for this type of program will be considered to be the "Accredited Program Length" as posted on the ACGME program web site and listed in Appendix K.
- The number of prerequisite years will be considered to be the "Number of Prior or Additional Years Required" as posted on the ACGME program web site and listed in Appendix K.
- For CBM00R reporting process and GME formula funding purposes, the THECB is requiring that any prerequisite requirement be completed in order to report a resident in a medical (GME) residency program.

Residents from Foreign Countries

This past reporting cycle we have had some medical (GME) residents that were from foreign countries that failed the edit process due to the lack of a Social Security number. Please be advised that in order to receive GME formula funding, it is necessary that we require a Social Security number of the residents that are reported.

HRI Residents/Fellows Report (CBM00R)

We would recommend that to minimize this situation each institution review the information that they provide prospective residents to ensure that these prospects are advised at the earliest possible time that they will need a Social Security number. They need to understand that the application process can be slow and that they need to apply for a number without delay.

International Physicians Entering Residency Programs

We have identified two situations that involve international physicians entering into a residency program:

- **Starting Over** – In the case of an international physician starting over in the United States, those physicians should be reported just like a U.S. physician medical graduate. As long as the physician has an SSN, there are no unusual reporting issues.
- **Direct Entry into a Residency Program** – In the case of an international physician admitted directly into a residency program, the following reporting guidance is provided:
 - Entry in Year 1 of the residency program – Presuming that the international physician meets prerequisites for the residency program, the institution should report an **equal or greater number of years** than the prerequisite in Item #16, Prior Cumulative Residency/Research Years.
 - Entry in a year other than Year 1 of the residency program – The institution should report the same as the Entry in Year 1 of the residency program to include any other prior residency/research years plus reporting the appropriate number of years for Item #15, Years Completed in Current Residency/Research Program, assuming the resident is continuing in the same type of program that was being taken in a foreign residency program.
 - The prior years reported will count against the total seven year limit for GME residency funding.

HRI Residents/Fellows Report (CBM00R)

Reporting Examples

The following examples are provided to explain Items #15 and #16.

Example 1 – Medical (GME) Resident:

Resident A has completed three years of residency training in two previous programs prior to the current program Resident A is undertaking at the BCM. Resident A has been admitted to the Medical Genetics program, Code 1304821012, a 4 year program for the current year. Due to the resident’s prior experience, the resident has been admitted into the fourth year of the Medical Genetics program.

Based upon the facts, the following graphical example is provided.

For purposes of determining how to code Item #15, Years Completed in Current Residency/Research Program, the resident has not completed any years of the program at the current institution, so the value to enter for Item #15 is “0”.

For purposes of determining how to code Item #16, Prior Cumulative Residency/Research Years, the resident has completed three years of prior residency. Use the value of 3. (These years of residency training could have been in any program at some other institution or the BCM, it doesn’t matter. It doesn’t matter whether or not a Resident completed all years of those two prior programs or not. **The key data item sought is the fact that the Resident did complete three prior residency years before joining the current program.**)

	Item #15 Yrs. Completed in Current Program		Item #16 Prior Total Years Previous	=	Total Prior Years	+	CB Adds 1 for Current Year	=	Total Years for Edit Evaluation	Edit Status Relative to Over 7 Yrs.
Example 1 - Resident A	0	+	3	=	3	+	1	=	4	Resident Accepted

HRI Residents/Fellows Report (CBM00R)

Example 2 – Medical (GME) Resident:

Resident B is admitted to the same program at BCM as shown in Example 1. Resident B is in year level 3 of the Medical Genetics program having completed years one and two of this program at BCM. The number of residency years for Resident B in prior programs was 3 years.

Year Level of Current Program
Medical Genetics Program

For purposes of determining how to code Item #15, Years Completed in Current Residency/Research Program, the resident has completed 2 years of the program, so the value to enter for Item # 15 is “2”.

For purposes of determining how to code Item #16, Prior Cumulative Residency/Research Years, the resident has completed three years of prior residency. Use the value of “3”.

	Item #15 Yrs. Completed in Current Program		Item #16 Prior Total Years Previous	=	Total Prior Years		CB Adds 1 for Current Year	=	Total Years for Edit Evaluation	Edit Status Relative to Over 7 Yrs.
Example 2 - Resident B	2	+	3	=	5	+	1	=	6	Resident Accepted

HRI Residents/Fellows Report (CBM00R)

Example 3 – Medical (GME) Resident:

Resident C is admitted to the same program at BCM as shown in Example 1. Resident C is in year level 3 of the Medical Genetics program having completed years one and two of this program at BCM. The number of residency years for Resident C in prior programs was 5 years.

Year Level of Current Program
Medical Genetics Program

For purposes of determining how to code Item #15, Years Completed in Current Residency/Research Program, the resident has completed 2 years of the program, so the value to enter for Item #15 is “2”.

For purposes of determining how to code Item #16, Prior Cumulative Residency/Research Years, the resident has completed five years of prior residency. Use the value of “5”.

	Item #15 Yrs. Completed in Current Program		Item #16 Prior Total Years Previous		Total Prior Years		CB Adds 1 for Current Year		Total Years for Edit Evaluation	Edit Status Relative to Over 7 Yrs.
Example 3 - Resident C	2	+	5	=	7	+	1	=	8	Resident Rejected - Over 7 Yrs.

HRI Residents/Fellows Report (CBM00R)

Example 4 – Postdoctoral/Research Fellow:

A Postdoctoral/Research Fellow is being reported. If a fellow is working in a program that does not have an assigned length, we require Item # 14 to be 1. Every year is considered a new program, with a one year length. This fellow had worked in this unassigned length program for the prior three years.

Item # 14 Program Length	Item #15 Yrs. Completed in Current Program	Item #16 Prior Total Years Previous	Total Prior Years	CB Adds 1 for Current Year	Total Years for Edit Evaluation	Edit Status
--------------------------------	---	--	----------------------	----------------------------------	--	-------------

Example 4 - PostDoc/Fellow D

Edit for Total Years	N/A	0	+	3	=	3	+	1	=	4	Fellow Accepted 4 < 7
Edit for Total Years over Program Length (sum of Item #15 + 1 > Item #14)	1	0	+	N/A		N/A		1	=	1	Total 1 = #14 - Ok

If the program does not have an assigned length, then Item # 15, Years Completed in Current Residency/Research Program, must be “0”. If it has a value greater than “0”, the fellow will be rejected by the edit check.

In the next year when this resident is reported, they would need to increment Item # 16, Prior Cumulative Residency/Research Years, because every year is considered a new program in this situation.
