87th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

714 The University of Texas at Arlington

The University of Texas at Arlington (UTA) sympathizes with all of those in Texas and across the nation that have experienced economic hardship caused by this unprecedented global pandemic. As the Texas Legislature struggles with tough decisions and seeks to find ways to reinvigorate the economy, we encourage leaders to invest in the students at public institutions of higher education across the state as a long-term solution to reenergize our economy. The University of Texas at Arlington is uniquely equipped to help Texas recover from the pandemic and economic crisis, and to thrive in the twenty-first century economy. UTA is one of the largest producers of nurses in the nation, supports numerous workforce development programs, and produces over 13,000 graduates annually in high-demand fields at affordable tuition rates. Having sustained rapid growth in recent years and achieved significant progress toward becoming a Texas Tier One institution, UT Arlington seeks to maintain this status and continue providing students with a top quality education amidst the challenging circumstances of a global pandemic. As our elected leaders guide us through this crisis, the University of Texas at Arlington will continue to do its part to prepare the Texas workforce for years to come.

The University of Texas at Arlington is the second largest campus in the UT System, and is on track to become the third institution in the UT System to attain Texas Tier One status as a research university. UTA's growth and progress in recent years has led to a long list of accolades that highlight the strength of the university's mission and its progress toward becoming a leading institution. The Carnegie Foundation classifies UTA as an R-1 research institution in its list of the top 131 elite doctoral institutions. The National League for Nursing designated UTA a Center of Excellence. Military Times ranks UTA #1 nationally as the best university for veterans. Washington Monthly ranks UTA as the top four-year university in Texas for adult learners. UTA is also the fourth largest transfer destination in the country and the largest in Texas, reflecting the university's accessibility, affordability, and the excellence of its programs. UT Arlington ranks among the most diverse universities in the nation, with over 18,000 minority students enrolled, making it one of the very few R-1 minority majority institutions in the US. Every year, UT Arlington is expanding its research capacity, recruiting, and retaining more first-rate faculty, many of whom are members of national academies and professional associations who are achieving national recognition. UTA's strong culture of innovation is evident by having the highest number of members of the National Academy of Inventors in Texas.

The University focuses on ensuring excellence and access at affordable rates to enable all students to get a first-class education. To enhance educational opportunities and ensure that the state has a highly skilled workforce, UTA delivers instruction through in-seat, on-line, and hybrid courses, providing special support and flexibility to accommodate working adults and returning students. UTA strives to support high demand fields while keeping costs low. UTA is on pace to graduate at least 13,000 students into the Texas workforce in 2019-2020, who will join more than 220,000 UTA alumni. UTA has 170 rigorous degree programs focused in areas of critical need to the state, including large and well recognized programs in nursing, engineering, education, business, and social work. UTA continues its growth by ensuring that excellence and cost-efficiency co-exist in higher education.

ENROLLMENT & GRADUATION

UT Arlington's accessibility, level of support, and flexibility have resulted in a significant growth in student population over the past decade. As one of the fastest growing research universities in the nation, UTA prides itself on providing access and excellence while ensuring that it helps meet the state's needs for highly skilled graduates. UTA continues to attract top high school students, with roughly one quarter of the incoming freshman class being in the top 10 percent of their graduating class in high school, and over sixty percent being in the top 25 percent. UTA also remains attractive to transfer students, with 60 percent of the entering class in Fall 2019 being transfer students. Based on innovative programs and strong partnerships with local ISDs, Community College Districts, non-profits, and workforce organizations, UTA provides affordable opportunities for transfer students to gain the skills, credentials, and degrees that lead to job placement, serving the workforce needs of Texas. This focus not only ensures smooth progression for students between 2-year colleges and a nationally recognized R-1 university, but also helps to keep the cost of education as low as possible for our students.

UTA strives to accommodate and celebrate the diversity of our students. UTA's student population mirrors the demographics of the metropolitan area that it serves. UTA

714 The University of Texas at Arlington

continues to be designated by the U.S. Department of Education as a Hispanic Serving Institution (HSI), and an Asian American and Native American Pacific Islander-serving institution (AANAPISI). UTA ranks sixth in the nation for undergraduate student diversity in 2020. The University of Texas at Arlington also deeply values the sacrifice and service of our nation's veterans and their families, and supports the state's policy to honor that sacrifice and service through the tuition exemption accorded to them under the Hazlewood Act. The University is proud of its success serving veteran students and contributing to their professional development, as reflected in the many high rankings UTA has received as a military-veteran serving institution. The costs to UTA to provide Hazlewood benefits to veterans and their dependents has continued to grow, reaching \$10.1 million in FY 2019 and on track to exceed this amount in FY 2020. To the extent possible, UTA would welcome additional state funding of the Hazlewood program to help the university continue supporting our veterans.

RESEARCH & ECONOMIC DEVELOPMENT

UTA has sustained its upward momentum in expanding research activities as an R-1 Research University, exceeding the Texas Tier One benchmarks for research expenditures and doctoral degree production for several years in a row, and claiming numerous awards for the scholarly distinction of its faculty, including many memberships in national academies. Given its position as a leading regional and national research institution, faculty at UTA continue to win contracts and grants from agencies such as the National Science Foundation, the National Institutes of Health, the office of Naval Research, the Air Force Office of Scientific Research, the Department of Energy, corporate entities, and TxDOT and other state and local agencies.

UT Arlington has particular strengths in applied research and development. The UT Arlington Research Institute (UTARI) is a professional research organization that works collaboratively with industry, universities, and government to achieve technology-based economic development. UTARI is dedicated to advanced manufacturing, adaptive robotics, biomedical technology, and other assistive technologies and is focused on developing private sector partnerships and specific pathways to refine technologies for commercial application, including in the fields of aerospace, defense, and medicine. UTARI's application of science and engineering to solve technical problems and develop new technology assists major companies in bringing innovative products to the global marketplace, and also serves as a catalyst to enhance economic development in Texas.

In addition to formal, degree-based education, UTA pursues a variety of workforce and economic development initiatives. The Texas Manufacturing Assistance Center (TMAC) focuses on delivering training and hands-on technical assistance that improves efficiency, quality, and productivity in business, including in the sectors of manufacturing, government, and health care. TMAC serves to accelerate growth through delivery of hands-on business management, technology, and operations solutions. In recent years, TMAC has helped more than 6,200 companies gain more than \$2.9 billion in sales and \$995 million in cost savings and cost avoidance, creating or saving nearly 30,000 jobs, and keeping companies in Texas. UT Arlington also provides continuing and professional education through the Division of Enterprise Development (DED), which is one of the largest workforce development education providers in the state. Providing noncredit professional education to over 41,000 students annually, DED offers continuing education, support services, and workforce development to public and private organizations regionally, nationally, and internationally. DED has over fifty professional and trade programs ranging from intense executive development to entry-level workforce preparation. Each year, DED trains thousands of employees of the Texas Department of Transportation. Housing the nation's largest OSHA Education Center, DED has trained more than 204,000 people since 2004 in over 60 countries, states, and territories with the skills necessary to thrive in today's changing workplace. UTA's workforce development initiatives will play a key role in rebuilding the state and local workforce and fueling the recovery of the state economy as we emerge from the COVID-19 pandemic.

As a recognition of the growing entrepreneurship and innovation activities on campus, UTA has established a new Center for Entrepreneurship and Economic Innovation to foster partnerships between the faculty and students with companies, chambers of commerce, venture capitalists and other relevant stakeholders to encourage the creation of startup businesses in Texas.

714 The University of Texas at Arlington

With a workforce of more than 7,600, UTA consistently ranks as one of the North Texas region's largest and most highly regarded employers. Approximately 10,000 students live on campus or adjacent to campus, driving demand for new businesses and services in the downtown Arlington area. A recent economic impact study found that UTA's research and operations activity has an annual economic impact of \$1.4 billion in gross product and over 20,000 jobs in the North Central Texas region. Collectively, UTA alumni provide the state of Texas with annual economic benefits of \$20.7 billion in gross product and nearly 200,000 jobs – a testament to the power a comprehensive public research university and its 220,000 alumni have on a state, a region, and its communities.

AFFORDABILITY & STUDENT AID

UTA continues to work to keep student costs as low as possible. The university has made significant efforts to reduce expenditures and increase efficiencies in operations to ensure that cost control is a primary consideration. UTA's operating expenses per FTSE are the lowest of all Texas universities with Carnegie R-1 research university status, and among the lowest in all other categories. This is even more significant considering its location in one of the largest metropolitan areas in the nation. Approximately 63 percent of UTA students receive financial assistance to help pay for college, including \$43 million in need-based scholarships and grants; \$32 million in university-based scholarships; and \$57.5 million of Pell Grants to almost 14,000 students. This financial assistance includes scholarships, grants, work-study earnings, loans, and tuition waivers. To further UTA's dedication to student success, an additional \$25 million has recently been committed to student scholarships aimed at supporting low-income, first-generation, high-achieving students. Additionally, UT Arlington provided financial assistance to students affected by the COVID-19 shutdown and the closure of campus in the spring and summer of 2020. This included direct financial assistance to students in need from the UTA Emergency Assistance Fund, as well as refunds and waivers for housing, parking, meal plans, athletics fees, recreational facility fees, student union fees, and a variety of other fees.

TIER ONE STATUS & RESEARCH FUNDING

UTA continues to rapidly advance the scope and quality of its research. Currently, UTA is finishing the second year of meeting all criteria required to receive Texas Tier One designation, which will make UT Arlington eligible for funding from the state's National Research University Fund (NRUF). UTA's total research expenditures have grown rapidly in recent years, reaching \$116.9 million in FY 2019 and estimated at \$125.0 million in FY 2020. Restricted research expenditures reached \$45.4 million in FY 2018, \$46.0 million in FY 2019, and are estimated to exceed \$50 million in FY 2020, exceeding the \$45.0 million level required to attain Texas Tier One designation for the last three years in a row. The university's PhD production also continues to be strong. For six years in a row, UTA has exceeded the Texas Tier One requirement of producing at least 200 PhDs each year, graduating 203 PhDs in FY 2019 and 228 PhDs in FY 2020.

Student excellence continues to rise. The University maintains a robust chapter of Phi Kappa Phi, the nation's oldest, largest and most selective honor society for all academic disciplines. Undergraduates are able to learn from and do research with renowned faculty, including two members of the National Academy of Medicine; four members of the National Academy of Engineering; one member of the National Academy of Science; and seventeen members of the National Academy of Inventors. UTA faculty have received thirteen National Science Foundation Career Awards, three early-stage investigator awards from the National Institutes of Health (NIH), two faculty recruitment awards from the Cancer Prevention and Research Institute of Texas (CPRIT); and two American Historical Association development awards. Numerous other faculty have been recognized at the highest levels for their distinguished professional contributions to their fields.

UT Arlington's success as a research university would not be possible without the variety of funding streams the Texas Legislature has made available to support Texas institutions in their quest to become world class universities. The Core Research Support Fund (CRSF) for emerging research institutions provides funding aimed at

714 The University of Texas at Arlington

promoting increased research capacity at emerging research institutions. This fund is instrumental in expanding our research portfolio at UTA and we would encourage the Legislature to continue to fully fund this program to help the State of Texas achieve more public Tier One research institutions.

The Texas Research Incentive Program (TRIP) provides vital support for university research through a funding model that leverages state funding to increase private donations to higher education research. If fully funded, TRIP would continue to promote growth in research and technology that would have positive long-term effects on the Texas economy. This program serves as a vital incentive to donors to contribute to important research efforts in Texas.

The establishment of the Governor's University Research Initiative (GURI) is a powerful initiative that helps UTA to recruit world class faculty and researchers with the availability of matching funds to support increased research activities. UTA supports the continuation of this program to help emerging research universities attract leading faculty and researchers to Texas, aiding our state's economic recovery from the COVID-19 pandemic.

TEXAS NURSING SHORTAGE REDUCTION PROGRAM (NSRP)

The Nursing Shortage Reduction Program (NSRP) has been vital to the growth of UTA's award-winning College of Nursing and Health Innovation (CONHI). The NSRP has been a catalyst for UTA to expand its nursing enrollment to become the largest school of nursing in Texas. The College of Nursing and Health Innovation is one of the five largest public nursing programs in the United States, and its programs consistently rank among the top nursing programs in the nation. The leadership in nursing education of the UT Arlington College of Nursing and Health Innovation is significantly contributing to the critical need to provide a better educated nursing workforce in Texas, which has been vital in helping the state cope with the high demand for frontline health workers during COVID-19 pandemic. Through innovation in online education programs, UTA has dramatically increased capacity while maintaining exceptional quality standards.

During the continuing struggle to fight the COVID-19 pandemic, we urge the Legislature to continue to fully fund the Texas Nursing Shortage Reduction Program to ensure that the demand for highly educated nurses is met as the state's population continues to grow, so that all Texans can access the quality nursing care they need. Never has it been more vital for the state to have a large and well-educated health-care workforce. With adequate funding, UT Arlington is prepared to continue helping the state to meet this critical need.

EXCEPTIONAL ITEM REQUESTS

UT Arlington recognizes the difficult fiscal situation that has resulted from the COVID-19 pandemic, and the need for the state to achieve savings across all areas of government. UT Arlington's requests for new funding for the 2022-23 biennium are focused on funding our core mission and restoring losses that have resulted from the pandemic, and we only request new funding to the extent that such programs can provide solutions to the ongoing pandemic and contribute to the recovery of the state economy.

1. Restoration of Institutional COVID-19 Pandemic Losses. UT Arlington's first priority in new funding is to restore institutional losses that resulted from the COVID-19 pandemic that were not covered by Federal Funding Acts. In response to the pandemic, UT Arlington moved all instruction to an online format for the remainder of the Spring 2020 semester, Maymester, and the Summer terms in 2020. All campus events, and activities were cancelled through the end of the spring semester, including events sponsored by student organizations. All University-sponsored international travel was suspended, and domestic travel was limited. Campus living and dining were limited to students who do not have suitable alternatives. The University provided refunds to students that moved out of student housing for the rest of the 2020 academic year as all courses were moved online. The University also refunded meal plans and parking for students that cannot use them for the remainder of the 2020

714 The University of Texas at Arlington

academic year, as well as mandatory fees that help to fund vital UTA services. UTA has continued to provide financial assistance to students in need through the UTA Emergency Assistance Fund. UTA has established a coronavirus resource center for faculty and staff, including operations and support from Human Resources and Business Affairs. Online instruction is being conducted on existing platforms used by the University

Due to these profound changes to modes of instruction and university operations that resulted from the COVID-19 pandemic, UT Arlington has incurred many costs and lost significant amounts of revenue. Adapting to a remote working environment, implementing social distancing protocols, maintaining a sanitary campus environment, and providing other services, including medical services, has incurred many costs in equipment, supplies, technical support, and labor. To the extent possible, UTA has utilized federal aid to cover these unforeseen costs, but we request additional funding from the state so that UTA can quickly recover from the pandemic and help to rebuild the workforce of Texas. These funds would be used to provide students with additional support and services required by the pandemic, including enhanced distance learning, safe campus environments, and adaptation of physical spaces at UTA to meet medical recommendations. This funding would also help ensure that UTA can continue to offer affordability to students, cutting-edge research, and high quality instruction that students expect from a Tier One research university, contributing to technological solutions in our labs and to a highly skilled workforce in our classrooms.

2. Rural Hospital Outreach Program (Center for Rural Health and Nursing). Additional funding for the Rural Hospital Outreach Program is requested to establish a Center for Rural Health and Nursing, which seeks to increase access to high quality health care by building sustainable partnerships between UT Arlington College of Nursing and Health Innovation (CONHI) and underserved rural communities in Texas. Increased access to care has been shown critically important to the underserved rural communities during the COVID-19 pandemic. This Center will establish partnerships, supported by development of a video technology and tele-health infrastructure to support communication, instruction, and evidence based practice. The partnership will aim to reduce nursing shortages by recruiting and training residents of local communities to become Registered Nurses, Nurse Practitioners, including providing clinical education, rotations and precepted experiences in the rural community agencies. With this funding, UTA will be able to make significant contributions to the health care workforce of rural Texas, which will be vital to prepare for future pandemics. Along with additional funding, UT Arlington requests to change the strategy name to Center for Rural Health and Nursing.

UT Arlington CONHI is well connected throughout Texas with strong partnerships in most cities and some smaller areas. We aim to further expand our partnership with clinical agencies in rural areas throughout Texas. The barriers to access to rural health care of distance to services, shortages of local healthcare providers, and limited funding present similar barriers to expanding the reach of nursing education in many rural areas. Most recently, the COVID-19 pandemic exacerbated these barriers in rural communities, specifically in underserved and at-risk communities. Without local nursing education options, initial nursing education and advanced education to become nurse practitioners to meet the shortages of RNs, primary care and mental health providers in rural areas are limited. Programs such as distance learning and tele-health could help rural communities prevent, prepare for, and respond to the challenges of COVID-19 pandemic. As a Center for Rural Health and Nursing, we will identify rural communities with current healthcare provider shortages, and through a synergistic effort develop strategies and implementation plans to provide local clinical training with didactic learning through online teaching; and provide continuing education and training offerings on evidence-based practices using state-of-the art video technology for the local healthcare providers. Together, we will partner with the rural communities and clinical agencies on their quality improvement initiatives and in conducting quality improvement research studies. And, we will partner with them on managing the unique healthcare and access needs of the most vulnerable populations in the rural communities as the COVID-19 pandemic continues to unfold.

CAPITAL NEEDS

Because UT Arlington recognizes the difficult fiscal situation that has resulted from the COVID-19 pandemic, and the need for the state to achieve savings across all areas of government, UTA does not request Tuition Revenue Bond (TRB) authorization for new projects in the 2022-23 biennium at this time. However, if the Legislature finds

714 The University of Texas at Arlington

itself in a position to authorize new Tuition Revenue Bonds for 2022-23, or if TRBs at the current low interest rates are utilized as a means to support higher education while stimulating important sectors of the state economy, UT Arlington has serious capital needs in the Life Science Building Renovation and New Addition, as well as the Performing and Visual Arts Center.

1. Life Science Building (LSB) Renovation and New Addition. UT Arlington's most pressing capital need is for renovation of the existing 210,612 GSF Life Science Building constructed in 1970, currently occupied by the College of Science, and for construction of a new addition totaling 87,833 GSF. Technological advances and new approaches to science instruction have necessitated the complete refurbishment of teaching and research labs. New facilities would enable use of several advanced technologies in research and teaching, update HVAC systems and terminal units to meet required ventilation and air quality needs, improve energy efficiency, and address life safety systems. Given UT Arlington's rapid growth and progress toward Tier One status, this project is critical to keeping the university on the path to becoming a major research university. These new facilities would also help the university to recruit leading faculty and graduate students, enhance instruction and research at all levels, and continue producing STEM graduates for the Texas economy. If TRB authorization is considered by the 87th Legislature, UT Arlington's capital needs for this project would amount to \$134.0 million in Tuition Revenue Bonds.

2. Improvements/Additions for Performing and Visual Arts. UT Arlington also has pressing capital needs for improvements and additions for the Performing and Visual Arts complex, the main part of which was constructed in 1965 and has only received minor renovations since the facility was built. When funding is available, this project will involve extensive renovations of Texas Hall, currently totaling 91,307 GSF, as well as a new addition of 125,000 GSF. The project will also include facility renovations in the Fine Arts Building to support several departments in the College of Liberal Arts (COLA). This project would help to recruit top tier faculty, as well as accommodate UT Arlington's rapid growth of student enrollment in art, art history, music, and theater, and contribute to the university's growing reputation as a Tier One research university offering the full spectrum of degree programs and opportunities for educational enhancement, raising the ranking of these important programs both regionally and nationally. If TRB authorization is considered by the 87th Legislature, UT Arlington's capital needs for this project would amount to \$126.0 million in Tuition Revenue Bonds.

CRIMINAL BACKGROUND CHECKS

The Texas Government Code 411.094 and the Texas Education Code 51.215 (c) entitle an institution of higher education to obtain criminal history record information for the purpose of evaluating applicants for employment in positions designated by UT System BPM 29-11-02 as security sensitive. Procedures at UTA regarding criminal background checks are contained in UTA's Fiscal Regulations and Procedures, Sec. 3-48 (revised 10/2004), and comply, at a minimum, with the UT System Business Procedures Memorandum 29-11-02. The UTA Office of Human Resources forwards Criminal Background Check Forms submitted by the hiring department to the UTA Police Department for processing. The police department provides Human Resources with the results of criminal background checks, and Human Resources advises the hiring department on the acceptability of a candidate for the position being filled.

SUMMARY & CONCLUSION

UTA has succeeded in building a unique academic campus focused on ensuring access and excellence, enabling a large section of the state's population to receive a top-notch education at an affordable rate, and also to serve as a catalyst and contributor to economic development in the region while increasing the numbers of highly skilled personnel for the state's workforce needs. The most critical legislative requests that will fuel the continued growth and success of UTA, ensuring that it continues to meet the needs of the state in a unique fashion, are:

87th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

714 The University of Texas at Arlington

- Support for costs and revenue losses related to the COVID-19 pandemic;
- Support for initiatives that actively address the COVID-19 pandemic, including health workforce training and expansion of programs to underserved areas, including rural Texas;
- Support for formula funding and related funding to address enrollment growth and increased degree production critical to meet Texas 60x30 goals; and
- Support for funding of University research funds, and funding related to increasing innovation and entrepreneurship.

------	-------------	----------	----------	----------	------------------------	------------------------

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support.

The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

(1) - Formula funded strategies are not requested in 2022-23 because amounts are not determined by institutions.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The University of Texas at Arlington Research Institute (UTARI) is a professional research organization that works collaboratively with industry, academia, and government to achieve technology-based economic development. UTARI is home to laboratories for rapid prototyping, robotics, manufacturing technology, biomedical technology, autonomous systems, and advanced materials technology. Collaborations in areas including manufacturing, aerospace and defense, robotics and medical technology further produce innovation and contribute significantly to the region's economic development. UTARI is a significant part of UTA's effort to commercialize technology and create economic impacts through new products and start-up companies, both of which result in new job creation. UTARI focuses on major project initiatives, which include robotics, new biomedical therapies and devices, accelerated wounded healing for our wounded warriors who have suffered severe burn injuries, assisted living technology for seniors and recovering patients, prediction of life for aerospace and commercial structures, and development of safe, unmanned vehicle systems. Bringing technology to the marketplace is the desired outcome for all of UTARI's activities.

------	-------------	----------	----------	----------	---------	---------

The Rural Hospital Outreach Program (RHOP) monitors the changing needs of rural communities throughout Texas and provides updated information on health care, workforce, and education. The program focuses on areas that best meet the continual and increasingly complex changes in laws affecting rural health care providers and delivery systems. Due to the challenges faced by rural educators, providers, and facilities, the Rural Hospital Outreach Program seeks to meet requests for information on various aspects of health care delivery. The RHOP aims to provide information on rural healthcare from the College of Nursing (CON) and public health tracks at UT Arlington (UTA), drawing from knowledge and expertise gained in forty years of serving rural healthcare providers through this program. Because a large number of nurses are on-line students, many reside in rural communities throughout Texas. Therefore, the linkage between the RHOP providing information about rural health and workforce issues to the CON and public health faculty significantly impacts the knowledge gained by nursing and public health students, enabling them to care for patients in rural and urban clinical settings. Funding for the Rural Hospital Outreach Program would enhance the impact UTA can have on improving access and outcomes of rural health care in rural communities of Texas by reducing nursing shortages in rural communities and addressing quality and population health concerns.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Institute of Urban Studies (IUS) engages in research and practice to improve life quality for the people of Texas, specifically through improving the places we live. Its services to urban communities in Texas consist of applied research, customized planning and management assistance, programs of training and professional development, and related outreach activities. The staff serves as a clearinghouse for client requests for assistance and seeks creative ways to enlarge the Institute's capacity to respond to the needs of public entities in Texas.

The Core Research Support Fund was established to provide funding to promote increased research capacity at those institutions designated as an emerging research university under the Higher Education Coordinating Board's (THECB) accountability system. Funding is to be expended for the support and maintenance of educational and general activities, including research and student services, that promote increased research capacity.

A legislatively determined amount of funding is appropriated to eligible institutions as follows: (1) 50 percent based on the average amount of restricted research funds expended by each institution per year for the three preceding state fiscal years as reported to THECB; and (2) 50 percent based on the average amount of total research funds expended by each institution per year for the three preceding state fiscal years as reported to THECB.

Program Prioritization: Indicate the methodology or approach taken by the agency, court, or institution to determine the ranking of each program by priority.

UT Arlington's first two priorities, Operations Support and Educational and General Space Support, reflect the high priority we place on the state's higher education formula funding. These two items also rank as the two most important in terms of their relative scale for UT Arlington's budget and the continued pursuit of our mission. Our third priority, Tuition Revenue Bond Retirement, was selected due to the importance of state support for renewal of UT Arlington's aging facilities, and also because bond debt service is a legally-binding financial obligation that cannot be reduced or eliminated by cost-savings measures in the same way as other programs. Items 4, Core Research Support, reflects the high priority we place on the state's support of research at emerging research universities. Items 5 through 10 consist of our non-formula support items in order of their importance to UT Arlington, which is related to their respective funding levels and their contributions to UT Arlington's mission. Items 11 and 12, Workers' Compensation Insurance and Unemployment Compensation insurance, are state-supported programs that support UT Arlington's staff benefits and operations. Finally, items 13 and 14 are tuition set-aside programs that provide support for student financial aid and group insurance, respectively.

4.A. Exceptional Item Request Schedule
87th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

DATE: **10/19/2020**
TIME: **5:30:37PM**

CODE	DESCRIPTION	Excp 2022	Excp 2023
	Item Name: Restoration of Institutional COVID-19 Pandemic Losses Item Priority: 1 IT Component: No Anticipated Out-year Costs: No Involve Contracts > \$50,000: No Includes Funding for the Following Strategy or Strategies: 03-04-01 Institutional Enhancement		
OBJECTS OF EXPENSE:			
2009	OTHER OPERATING EXPENSE	4,500,000	4,500,000
	TOTAL, OBJECT OF EXPENSE	\$4,500,000	\$4,500,000
METHOD OF FINANCING:			
1	General Revenue Fund	4,500,000	4,500,000
	TOTAL, METHOD OF FINANCING	\$4,500,000	\$4,500,000

DESCRIPTION / JUSTIFICATION:

UT Arlington (UTA) has followed the latest health, safety, and travel guidance based on recommendations from Governor Abbott, the UT System, the Centers for Disease Control and Prevention, and the U.S. Department of State.

The University has provided refunds to students that moved out of student housing for the rest of the 2020 academic year as all courses were moved online. The University has refunded meal plans as well as parking for students and faculty that cannot use them for the remainder of the 2020 academic year. UTA is has continued to provide financial assistance to students in need through the UTA Emergency Assistance Fund. UTA has established a coronavirus resource center for faculty and staff, including operations and support from Human Resources and Business Affairs. Online instruction is being conducted on existing platforms used by the University, but certain costs have been incurred for equipment and technical support to assist faculty and staff in remote instruction and work.

The University of Texas at Arlington seeks restoration of institutional losses due to the COVID-19 pandemic, which have not been accounted for in Federal Funding Acts. The funds would be used to provide students with additional support and services required by the pandemic, including enhanced distance learning, safe campus environments, and adaptation of physical spaces at UTA to meet CDC recommendations. Additionally, by offsetting losses to University resources, this funding would ensure that UTA can continue to offer affordability, cutting-edge research, and high quality instruction that students expect from a Tier 1 research university.

EXTERNAL/INTERNAL FACTORS:

Additional information for this strategy is available in Schedule 9, Non-formula Support.

FULL-TIME EQUIVALENT POSITIONS (FTE):		10.00	10.00

DESCRIPTION / JUSTIFICATION:

Additional funding is requested to establish a Center for Rural Health and Nursing, which seeks to increase access to high quality health care through building sustainable partnerships between UT Arlington College of Nursing and Health Innovation (CONHI) and underserved rural communities in Texas. Increased access to care has been shown critically important to the underserved rural communities during the coronavirus (COVID-19) pandemic. This Center will establish partnerships, supported by development of a video technology and tele-health infrastructure to support communication, instruction, and evidence based practice. The partnership will aim to reduce nursing shortages by recruiting and training residents of local communities to become Registered Nurses, Nurse Practitioners, including providing clinical education, rotations and precepted experiences in the rural community agencies. Along with additional funding, UT Arlington requests to change the strategy name of the Rural Hospital Outreach Program to Center for Rural Health and Nursing.

We aim to further expand our partnership with clinical agencies in rural areas throughout Texas. The Center aims to provide training and education to address the shortages of RNs, primary care and mental health providers in rural areas. Programs such as distance learning and tele-health could help rural communities prevent, prepare for and respond to the challenges of COVID-19 pandemic. As a Center for Rural Health and Nursing, we will identify rural communities with current healthcare provider shortages, and through a synergistic effort develop strategies and implementation plans to provide local clinical training with didactic learning through online teaching ; and provide continuing education and training offerings on evidence-based practices using state-of-the art video technology for the local healthcare providers.

	Total Expenditures		13.3%		\$19,753,487	\$148,042,367		14.2%		\$20,895,602	\$146,899,305

B. Assessment of Fiscal Year - Efforts to Meet HUB Procurement Goals

Attainment:

The University of Texas at Arlington exceeded Statewide HUB Procurement Goals in one (1) of the six (6) procurement categories in Fiscal Year 2018 and its internal goals in two(2) of the six (6) categories. In FY 2019, The University of Texas at Arlington exceeded Statewide Procurement Goals in three (3) of six (6) procurement categories and its internal goals in five (5) of the six (6) categories. The University of Texas at Arlington's average HUB percentages of 13.3% in FY 2018 AND 14.2% in FY 2019 exceeded the overall state HUB percentages for each year.

Applicability:

All procurement categories are applicable to the agency's operations.

Factors Affecting Attainment:

As a research institute, each fiscal year there are exclusive acquisitions and proprietary requirements, as well as existing contracts within the agency which preclude awards to other than the existing or specified suppliers. The University of Texas at Arlington continues to research HUB potential.

"Good-Faith" Efforts:

The University of Texas at Arlington's "Good Faith Effort" is exhibited in soliciting various minority groups on most solicitations. Procurement requires the HSP on purchases of \$100,000 or more when subcontracting opportunities are probable. The University of Texas at Arlington encourages HUB participation in all contracts. The University's HUB Office participates in economic opportunity forums, minority chamber events, and other HUB outreach events around the state. To keep up to date on issues regarding the State HUB program, The University of Texas at Arlington participated in the HUB Discussion Workgroup to identify HUB outreach best practices. The University of Texas at Arlington is continually informing the university community on how to do business with HUBs, and remains committed to the HUB Program.

NO FUNDS WERE PASSED THROUGH TO OTHER STATE AGENCIES OR INSTITUTIONS OF HIGHER EDUCATION**USE OF HOMELAND SECURITY FUNDS**

UT Arlington's COVID-19 response includes a variety of expenditures using both federal and local funds to support students, to facilitate continued online instruction, to support remote working of faculty and staff, and to adapt campus for in-person living and instruction while adhering to health recommendations.

Expenditures of federal funds are estimated at \$22.9 million for FY 2020 and FY 2021. The portion expended in FY 2020 consist of "CARES 1" financial support for students. Included in the \$15.7 million budgeted for FY 2021 is the remaining \$3.5 million of "CARES 1" student financial support; \$10.6 million of "CARES 2" institutional support funds; and \$1.7 million of "CARES 3" funds distributed based on UT Arlington's status as a minority serving institution.

Since the beginning of the COVID-19 pandemic and the resulting closure of campus in March 2020, UT Arlington has expended a variety of local Designated Funds for the university's pandemic response. As of August 31, 2020, expenditures from Designated Funds consist of the following:

- 43.7 percent, or \$1,273,426, are for Computer Equipment, Software, Repair, and Supplies to support remote working of faculty and staff;
- 41.3 percent, or \$1,203,663, are for office supplies, furnishings, and consumables, mainly for remote working;
- 1.5 percent, or \$44,773, are for cleaning services on campus;
- 1.1 percent, or \$32,196, are for telecommunications and internet to support remote working;
- 1.2 percent, or \$35,120, are for medical supplies and services;
- 11.1 percent, or \$323,877, are for various other miscellaneous expenses, including overtime wages and benefits, freight delivery, travel, and some financial aid for students.

Budgeted amounts for FY 2021 are based on the expectation that average monthly costs in FY 2021 will continue to approximate the average monthly costs incurred in FY 2020.

Center for Entrepreneurship and Economic Innovation

(1) Year Non-Formula Support Item First Funded: 2020

Year Non-Formula Support Item Established: 2020

Original Appropriation: \$3,500,000

(2) Mission:

CEEI is committed to building a strong regional ecosystem of entrepreneurship and economic innovation. Designated by Carnegie as an R-1 institution, UTA contributes to this ecosystem a unique combination of resources, facilities and programs, combined with world-recognized research faculty and a culture of inventorship, as demonstrated by the highest number of National Academy of Inventors members in the UT system. Programs in the Colleges of Business, Engineering and Liberal Arts have received national attention, including the MavPitch competition that awards cash prizes. The CEEI is working to enable connections between industry and the university, incorporating relevant efforts of the UTA Research Institute (UTARI) and TMAC, which runs the Dept. of Commerce Manufacturing Extension Program for Texas. The CEEI is working with the North Texas Genome Center, which is housed at UTA, to ensure businesses in the region have access to state-of-the-art equipment and expertise necessary to de-risk innovative therapies, inform research and enable clinical studies. By partnering with the Venture Mentor Service program and with TechFW, the CEEI connects entrepreneurs and inventors to mentors that can help them mature and advance their innovations. The CEEI is actively collaborating with leaders from companies, institutions and local government to develop new programs that serve and enhance our ecosystem, with the ultimate goal of creating new companies and jobs in our region.

(3) (a) Major Accomplishments to Date:

- The CEEI established a campus committee to oversee activities and provide guidance to the Executive Director. The committee's members include the university Provost, Vice President for Research, Dean of Business, Dean of Engineering, and Director of Innovation & Commercialization, among others – demonstrating the university's commitment to the success of the CEEI.
- The CEEI appointed an interim Executive Director.
- The CEEI recruited a Faculty Director.
- The CEEI established a Collaborators Committee to provide insight and support the growth of the regional ecosystem. We successfully recruited nine business owners, several of whom are alumni of UTA, to serve on the committee. The committee also includes investors to help connect entrepreneurs to next steps and local government leaders to encourage collaboration and partnership on complementary programs within the regional ecosystem.
- The CEEI is collaborating with 7 other Texas universities on a proposal to NSF for the I-Corps Hubs program. This program provides targeted entrepreneurship training to teams developing companies based on "deep technologies." Regardless of the success of the proposal, the collaboration has established strong connections for UTA within the larger Texas entrepreneurship ecosystem.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

714 The University of Texas at Arlington

- Develop a Center-supported program that provides follow-on funding for MavPitch winners who have successfully demonstrated traction with their businesses, intended to help them navigate the “valley of death” that separates the competition win and funding by formal investors.
- Launch an incubator that can offer support, services and space to fledgling businesses led by UTA students or faculty members.
- Invite successful entrepreneurs and economic innovators to serve as “experts-in-residence” and mentor UTA students and faculty members who strive to follow in their footsteps.
- Create a Center-supported program to support the further development of UTA’s intellectual property toward commercialization, in ways that encourage licensing by established businesses and startups and facilitates economic development in the region.
- Refresh and relaunch the Certificate in Entrepreneurship program within the Colleges of Business and Engineering, then roll the program out to other Colleges at UTA.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding:

None

(6) Category:

Public Service

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

The Maverick Entrepreneur Program and Award Fund was established with a commitment from an anonymous donor of \$1.5M in September 2018. The donor was pleased with early efforts and thus gifted an additional \$1M to support the program. In total, the donor has given \$2.5M to the Maverick Entrepreneur Program and Award Fund (\$1.5M in FY19/20). The majority of the funds go directly to the Mav Pitch competition as awards to the finalists in the competition.

(9) Impact of Not Funding:

Without appropriate levels of funding, UTA would fail to fulfill its teaching and research mission with regard to entrepreneurship and economic innovation. Lack of funding would directly impact pending and potential grants and support received from external sources, including those from the private sector. For example, UTA is participating in a grant proposal with 7 other Texas universities for the NSF I-Corps Hubs program (submission date 8/13/20), which would support the growth of entrepreneurship awareness and training at UTA, in turn increasing the competitiveness of startup companies based on UTA intellectual property. Thus, not funding the CEEI would have dramatic impact on the regional economy and the North Texas entrepreneurship ecosystem.

(10) Non-Formula Support Needed on Permanent Basis/Discontinuation:

Permanent Basis

714 The University of Texas at Arlington

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

N/A

(13) Performance Reviews:

- Launch new start-up companies: 5 per year by 2020 and 10 per year by 2025. UTA launched three new companies in FY2020 that were based on university intellectual property; in addition, several of the MavPitch awardees have gone on to formalize their companies. The CEEI is also partnering with other universities in North Texas and throughout the state to develop additional resources for nascent entrepreneurs. This includes the NSF I-Corps program, the Venture Mentor Service – North Texas, and services provided by TechFW. We anticipate meeting the goal of new startups by 2025.
 - Graduate two companies per year from the center by 2022 and five by 2025. We anticipate meeting this goal by 2022.
 - Recruit five companies a year to the center by 2020 and ten per year by 2025. Through the Collaborators Committee, we have recruited leaders from nine companies to participate in the CEEI. We anticipate meeting the 2025 goal.
 - Engage 100 students a year in entrepreneurial competitions by 2020 and 250 per year by 2023. The Spring 2020 MavPitch competition had 79 video entries in the first round of the competition. 15 top finalists were invited to submit a video pitch, 8 submitted a video pitch, 7 were invited to compete in Phase II. Over all, \$77,500 was awarded to students in Phase I. Fifty-three students participated in the Fall 2019 MavPitch competition, with a total of 32 pitches. We anticipate meeting the 2023 goal.
-

714 The University of Texas at Arlington

Center for Mexican American Studies

(1) Year Non-Formula Support Item First Funded:	1998
Year Non-Formula Support Item Established:	1998
Original Appropriation:	\$50,000

(2) Mission:

As a Hispanic Serving Institution, CMAS serves as a key outlet for Hispanic students and faculty, fomenting scholarship and research opportunities on critical issues relevant to Latino communities in Texas. Its mission is threefold: (1) Administer an 18-hour academic minor in Mexican American Studies and advise students interested in pursuing the minor. (2) Promote research and the recruitment, retention, and professional development of UTA faculty actively engaged in studies on Latino issues. (3) Connect UTA and with the Latino community in the Dallas/Fort Worth region through internship, service learning, and other service activities.

(3) (a) Major Accomplishments to Date:

CMAS hired two additional tenure-track faculty members housed in the Departments of History, and English; created a Speaker Series inviting prominent scholars to give public talks on Latino issues; worked to expand the Minor in Mexican American/Latino Studies; launched a Minor in MALS in the College of Social Work; created an online course of Introduction to Mexican American/Latino Studies; received two endowments to provide scholarships to students in the program (with an additional \$100,000 funding in 2018); received a grant of \$30,000 from LULAC-GM Foundation to promote STEM education for low-income Hispanic youth in North Texas; created the first Scholarship for Mexican American/Latino graduate students at UT Arlington; organized a Hispanic Career Day for UT Arlington students, partnering with Telemundo and Accenture; partnered with UTA News en Español to organize the first Hispanic Media Conference in Texas; enhanced a CMAS Research Fellowship program for junior faculty conducting research in Mexican American and Latino studies to support their scholarship; successfully mentored and worked to retain junior faculty; created an internship course to professionalize Hispanic undergraduate students in partnership with local NGOs and private companies; partnered with the Mexican Consulate in Dallas to sponsor academic and cultural events in the Dallas-Fort Worth metropolitan area; organized a webinar with UTEP about the Impact of CV-19 Pandemic in Texas.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Launch a dual-credit introductory course on Mexican American studies for high-schools in North Texas; establish a post-doc program to support the hiring of more Hispanic faculty; expand the MAS Minor program in other colleges throughout the university; work toward the development of a Mexican American/Latino Studies major; continue to mentor and support faculty with research seminar/writing workshops; expand the Hispanic Career Day to provide job networking opportunities to undergraduate Latina/o students; strengthen the partnership with the Mexican Consulate in Dallas to provide study abroad and internship abroad opportunities for CMAS students; consolidate CMAS Advisory Board to pursue outside research grants for UTA faculty conducting research on Mexican American/Latino studies; partner with other departments on campus to apply for grants for undergraduate research opportunities; continue support the IDEAS Center inaugurated at UTA in 2016 with a Title V Grant as a Hispanic Serving Institution to enhance retention and graduation rates of new students; continue with the CMAS Speaker Series to raise the public visibility of the university; expand internship and service-learning opportunities for UTA students with non-profit organizations, state agencies, and private companies.

714 The University of Texas at Arlington

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding:

None

(6) Category:

Public Service

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

Currently CMAS is the only comprehensive interdisciplinary Mexican American Studies center operating at any four-year institution in the region. It provides a fully-developed curriculum for a CMAS minor taught by core faculty who teach courses, advise, and oversee Center operations. The funding helps to house CMAS, an academic center that provides students with a computer lab and a scholarship/internship database, and serves as a hub for Latino student organizations and a resource for Spanish-speaking parents wanting information specific to college admissions and preparedness. CMAS also provides an access point for faculty support such as the Faculty Research Associates program, designed to support to faculty conducting research consistent with our mission statement. Without proper funding, UTA would fail to fulfill its teaching and research missions. Lack of funding would also directly impact the grants, endowments, and support received from external sources, including those from the private sector. Losing funding would have a negative impact in the Center's support for first-generation college students who use its facilities and faculty advising at a critical time when UT Arlington has been designated a Hispanic Serving Institution with a growing demographic of Hispanic students.

(10) Non-Formula Support Needed on Permanent Basis/Discontinuu

Permanent Basis

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

714 The University of Texas at Arlington

(13) Performance Reviews:

- Increased number of new courses created and launched that center around Mexican American studies.
 - Increased amounts of research grants and scholarships funded for Mexican American studies.
 - Increased retention and graduation rates of students involved in the Center for Mexican American Studies.
-

714 The University of Texas at Arlington

Institute of Urban Studies

(1) Year Non-Formula Support Item First Funded:	1969
Year Non-Formula Support Item Established:	1969
Original Appropriation:	\$75,000

(2) Mission:

The Institute of Urban Studies (IUS) engages in research and practice to improve life quality for the people of Texas, specifically through improving the places we live. Its services to urban communities in Texas consist of applied research, customized planning and management assistance, programs of training and professional development, and related outreach activities. The staff serves as a clearinghouse for client requests for assistance and seeks creative ways to enlarge the Institute's capacity to respond to the needs of public entities in Texas.

(3) (a) Major Accomplishments to Date:

IUS has served communities across Texas since 1967. Its 250+ projects, ranging from federally and state sponsored research studies, to local economic development plans, to comprehensive city planning, have earned numerous awards. The Institute was a major contributor in securing \$7.7 million USDOT funding for a University Transportation Center. The Arlington Urban Design Center, an ongoing partnership with the City of Arlington, has completed more than 200 projects. Over the past two years, the Institute has conducted 16 sponsored projects, assisting communities, improving health, and providing recreation.

The Institute experienced 100% annual project growth from 2018 to 2019, and 110% growth so far from 2019 to 2020. This represents over \$180,000 in sponsored projects. In addition, the Institute has increased its pursuit of sponsored research grant funding, with over \$760,000 in ongoing federal grant applications. IUS also increased its involvement with other research institutions and foundations, including winning a prestigious Lincoln Institute of Land Policy award.

Student training and professional development is an enduring benefit that is integral to Institute operations. Our sponsored research and community-based projects offer students the opportunity to engage in real world challenges in cooperation with local officials. Direct student support through the Institute and sponsored projects was over \$260,000 over the past two years.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

714 The University of Texas at Arlington

- Increase the number of sponsored community-based projects both in number and geographic reach. The Institute will continue to expand its community projects and directly assist cities in addressing complex urban issues.
- Increase the number of internal and external research partnerships and amount of sponsored grant funding. The Institute will continue and deepen its relationships with in-house UTCs like NITC and CTEDD as research partners and federal funding sources. In addition, the Institute will broaden and deepen its relationships with outside agencies and foundations to pursue strategies in public policy, planning, transportation, economic development and public health.
- Increase the number of graduate students employed and amount of direct student support. As research and community projects continue to increase, the Institute will continue to ensure that the majority of its funding directly supports students.
- Increase outreach and professional training opportunities through publication, conference presentations, and training seminars and webinars. The Institute will seek to improve access to its services and findings via increased professional conference presentations, small community training seminars, periodic webinars, and professional and peer reviewed publication.

Anticipated annual Institute generated revenue by the end of the 2022-23 biennium is over \$500,000. Annual graduate student support for the same period is anticipated to be over \$315,000.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding:

None

(6) Category:

Public Service

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

714 The University of Texas at Arlington

Elimination of the IUS non-formula support item at UTA would have two significant impacts. Many cities, community groups, and nonprofit organizations throughout the state depend on the services provided through the Institute to meet the challenges of growth and economic uncertainty. As federal funding continues to decrease, cities are faced with the challenge of meeting needs while planning for the future. As a result of state funding, the Institute can assist cities whose monetary and personnel resources are stretched to the limit but which often face critical issues. This funding fills a gap between available city resources and the direct cost of strategic and long-range planning and public policy improvement.

The Institute also trains many students who might otherwise not receive the experience of working on applied research and real-world projects such as comprehensive, economic development, parks, and land use plans. Because the Institute is housed in a major research university, its students are constantly exposed to pioneering ideas and practices and are driven by a strong work ethic, curiosity, and a passion for making a positive difference in the world. These students graduate with the experience needed to fill city positions such as city planners, city managers, and economic development officers. Without the experience provided through Institute projects, the state stands to lose a wealth of highly qualified individuals whose goals are to serve Texas cities.

(10) Non-Formula Support Needed on Permanent Basis/Discontin

Permanent Basis

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

N/A

(13) Performance Reviews:

- Increased number of partnerships with cities, counties, foundations, state agencies, and school districts to address complex urban issues;

714 The University of Texas at Arlington

Institutional Enhancement (Academic & Student Support)

(1) Year Non-Formula Support Item First Funded:	2000
Year Non-Formula Support Item Established:	2000
Original Appropriation:	\$1,287,494

(2) Mission:

The Institutional Enhancement (Academic & Student Support) non-formula support item was created by the 76th Legislature. The Scholarships and Institutional Advancement items from the previous biennium were consolidated into this new non-formula support item. Institutional Enhancement funds are used to fund an integral part of the operational support for UT Arlington's academic and student services enterprises. Continued funding of this strategy is critical to UT Arlington to support enrollment growth, increased teaching loads, and advising and retention services.

(3) (a) Major Accomplishments to Date:

A majority of these funds are used to support the academic enterprise of UT Arlington by hiring more qualified faculty and staff and increasing salaries to competitive levels to improve the retention of faculty and staff. Funds are also used to support student scholarships and to establish programs to retain students through graduation.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Continue to use the appropriation to recruit, support, and retain students through graduation by hiring more qualified faculty and staff.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding:

714 The University of Texas at Arlington

Rural Hospital Outreach Program

(1) Year Non-Formula Support Item First Funded:	1978
Year Non-Formula Support Item Established:	1978
Original Appropriation:	\$38,500

(2) Mission:

The Rural Hospital Outreach Program has expanded and enhanced its scope of service and evolved from its original mission of providing Certified Nurse Educator designations to rural hospitals in 15 counties surrounding Tarrant County into a center of influence through its years of accumulated rural knowledge and expertise, resulting in solicited participation in multiple organizations, including those at the state and national levels. It has become the hub of information on rural health care and issues facilities, for the largest nursing program in Texas, the College of Nursing at UT Arlington.

(3) (a) Major Accomplishments to Date:

The RHOP was named 1 of 5 outstanding university rural health initiatives in the U.S. by NerdScholar. It was recognized by the Centers for Medicare and Medicaid and Health and Human Services for outreach efforts about the Affordable Care Act. The RHOP hosted 8 annual Bi-national Health Care Symposia at UT Arlington. A collaboration with the Texas Organization of Rural & Community Hospitals explored nursing education initiatives. RHOP's leadership provided rural perspective in multiple organizations on topics such as population health. RHOP's bi-lingual Spanish Director was part of UTA's resulting designation as a Hispanic Serving Institution addressing rural Hispanic nursing. In 1991, RHOP was named "The Program That Made The Most Difference" by the Texas Rural Health Association. Service expanded from the original 15 to 189 Texas counties. Multicultural content is included based on patient populations. The Office of Rural Affairs (ORA) funded RHOP for continuing education in rural counties and Texas Critical Access Hospitals from 2003 through June 2011, ending due to their internal structural changes. With forty years of rural knowledge, expertise and networking, RHOP expanded its role with increased information requests from multiple facilities. Its leadership involvement ensures rural perspective and is an integral part of health care for several organizations.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The College of Nursing and Health Innovation is building on long-term contributions of bringing continuing education to rural nurses by revising priorities and commitment to increasing access and outcomes of rural health care. This will be accomplished through providing RN education in local rural communities; partnering with rural nursing and agency leaders to address quality care/population health problems through care evaluations and outcomes research. UTA plans to expand relationships and agreements with rural agencies to recruit local residents into our undergraduate, pre-licensure, nursing program by facilitating clinical rotations in their home communities. UTA will also pursue grants seeking funding to support expansion of educational opportunities for residents of rural communities seeking initial RN licensure or the pursuit of BSN and/or NP education for RNs residing in rural communities. These initiatives will increase rural networking and collaboration with the College of Nursing to disseminate current information regarding rural health and workforce issues to both urban and rural nurses throughout UT Arlington's expanding RN-BSN program, accelerated online program, and Nurse Practitioner rural clinical sites, including utilizing UTA's new designation as an Hispanic Serving Institution (HSI).

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

More than three decades ago, a two-year foundation grant was awarded for the initial feasibility study and the initiation of the program.

714 The University of Texas at Arlington

(5) Formula Funding:

None

(6) Category:

Public Service

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

Average funding of \$9,000 between 1998-2003 from the Texas/Oklahoma AIDS Education Training Center; average funding of \$50,000 from the Office of Rural Affairs from 2003 to June 2011.

(9) Impact of Not Funding:

In the past decade, RHOP's state allocations have been reduced; further reductions threaten its viability when needs for current information on health care changes are increasing. There is a direct relationship between appropriated funds and productivity and outcome levels. Discontinuing the funding would result in loss of program infrastructure. RHOP's inability to meet the increasing demand for its rural health expertise would negatively impact the health care of rural Texans, which is mainly provided by nursing and public health personnel. Health care personnel shortages are predicted to increase in urban areas of Texas and rural areas will be disproportionately impacted. Without RHOP's continued service, potential misinformation is increased. Organizations that collaborate and provide limited funding to support RHOP's enhanced mission have also reduced their support due to their own challenges. This is a pivotal time in rural Texas as the COVID-19 pandemic increases the need for information and resources to health care providers and the community. The RHOP, through its forty years of established service to rural communities, is a trusted and established source of knowledge and expertise. Funding for the Rural Hospital Outreach Program would enhance the impact UTA can have on improving access and outcomes of rural health care in rural communities of Texas by reducing nursing shortages in rural communities and addressing quality and population health concerns.

(10) Non-Formula Support Needed on Permanent Basis/Discontinuation:

Permanent Basis

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

N/A

(13) Performance Reviews:

714 The University of Texas at Arlington

- Increased number of rural networking and collaborations to expand focus on rural health issues and increase information dissemination regarding rural health and workforce issues being addressed.
 - Increase the number of nursing students enrolled and educated from rural populations.
-

714 The University of Texas at Arlington

Science Education Center

(1) Year Non-Formula Support Item First Funded:	2002
Year Non-Formula Support Item Established:	2002
Original Appropriation:	\$300,000

(2) Mission:

To address the need for a greater and a more diverse STEM workforce by offering programs that will impact K-12 students, pre-service STEM teachers, and in-service STEM teachers. The Science Education Center (SEC) supports pre-service secondary STEM teacher preparation through UT Arlington's UTeach replication, and pre-service middle and elementary level teachers via the development and offering of science content courses specifically for these students. In-service STEM teachers are impacted through partnerships with area ISDs that connect mentor teachers with UTeach pre-service teacher candidates. In addition, the SEC has played a key role in the cooperation between UTA and Arlington ISD on dual-credit coursework that Arlington ISD STEM Academy students will take on the UTA campus. The SEC also facilitates graduate science course enrollment for STEM teacher master's programs. SEC outreach efforts include the Science Ambassadors chemistry demonstration program (primarily K-6 audience) and multiple summer STEM Camps (grades 6-9 audience).

(3) (a) Major Accomplishments to Date:

The SEC initiated an MA in Interdisciplinary Science for science teachers and produced nearly 100 graduates, at least 6 of whom have served as Science Coordinators for their districts or risen to principal positions. It hosted the Texas State Science and Engineering Fair three times, serving about 1,000 students each. It has equipped and promoted a large kit based science lending library for regional teachers to help them evaluate and gain access to standards based materials that promote inquiry. These excellent materials are also in heavy use in the UTeach replication at UT Arlington. The SEC has hosted Arlington ISD science teachers for in-service training, managed the ExxonMobil Science Ambassador outreach program for K-8 student audiences, and coordinated 8 residential summer camps (6 ExxonMobil Bernard Harris Summer Science Camps; 2 AT&T Pathways Summer STEM Camps). It has also served hundreds of grade 6-12 students with summer science day camps, lately partnering with H.O.P.E. The SEC has collaborated with the College of Education on many grant proposals, leading to support (National Science Foundation, Texas Instruments, AT&T, THECB, and others) for STEM teacher preparation through UT Arlington's UTeach program and STEM teacher training through graduate coursework.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The SEC will leverage this line item funding to obtain grants and gifts that support its mission. It expects to continue to contribute to the success of UT Arlington's UTeach replication, producing many times more STEM teachers than the prior program. It is also expected that collaboration with the College of Engineering and Department of Computer Science will lead to a new UTeach certification pathway in Computer Science and Mathematics. The SEC will continue to seek external funding for the partly gift supported/partly entrepreneurial Science Ambassadors program so that thousands of K-8 students can be impacted by dazzling science demos. It will continue to seek funding for STEM summer camp experiences for dozens of middle school students per summer. The SEC will facilitate the dual-enrollment of students from Arlington ISD's STEM Academy in science, mathematics, and engineering coursework on the UT Arlington campus. It will also work with the Academy to provide access to extra-curricular opportunities for the STEM Academy students and professional development opportunities for the Academy's teachers. The SEC will also promote the implementation high-impact educational practices in science and mathematics courses at UT Arlington in an effort to improve student success rates in these courses.

714 The University of Texas at Arlington

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding:

None

(6) Category:

Instructional Support

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

The SEC received \$225,000 from ExxonMobil to support the Science Ambassadors program. It has received \$450,000 from the Bernard Harris Foundation to fund residential summer STEM camps in 2008-11, 2014, and 2016. Texas Workforce Commission, AT&T, and Chase grants and gifts totaling \$435,000 supported six residential summer camps. Since 2008, the SEC, in collaboration with the College of Education was awarded \$2.94 million in grant and gift funds from various sources to support the operations of our UTeach secondary math and science teacher preparation program. An additional \$710,000 in endowment funds has been raised for UTeach Arlington. In 2008, 2009, and 2011, it received 3 grants from the THECB totaling \$900,000 to support science teachers pursuing master's degrees and production of new science teachers. In 2008, it received a \$150,000 grant from the Greater Texas Foundation to support production of new middle level (grades 4-8) math and science teachers. In 2008 and 2009, it received \$900,000 from the National Science Foundation's Robert Noyce Teacher Scholarship program to support production of new Physical Science and Math secondary teachers. A Phase 2 renewal for \$800,000 was awarded in 2014. In 2010 it received \$1.45 million for a second NSF Noyce grant for Life Science and middle level Math and Science certification candidates.

(9) Impact of Not Funding:

This special line item funding supports, or partially supports staff members that are involved in the projects outlined above. Without the appropriation, it would be necessary to eliminate or severely curtail these projects. Without this support for the UTeach replication at UTA, the university would produce far fewer STEM teachers than with full funding of the program. Without the line item funding, the Science Education Center at UT Arlington would be forced to close. In a typical year, the SEC checks out more than 10,000 study materials like anatomical models, textbooks, and molecular modeling kits to UTA students. The Science Ambassadors outreach program could not continue without the staff being in place to process payroll for the student ambassadors, scheduling shows, procuring spaces for the show, and maintaining the supplies and chemical inventory for the program. State funding of this item also partially funds the salary of the SEC Director, who is responsible for procuring the grant and gift funds that augment the outreach and science education efforts of the SEC. In addition, the director serves as the liaison between the College of Science and the College of Education. The director is heavily involved in teacher certification issues and in assembling teams across colleges to apply for private, federal and state grants.

(10) Non-Formula Support Needed on Permanent Basis/Discontin

Permanent Basis

714 The University of Texas at Arlington

(11) Non-Formula Support Associated with Time Frame:

 - Higher student success rates for students in science and mathematics.
-

714 The University of Texas at Arlington

UT Arlington Research Institute

(1) Year Non-Formula Support Item First Funded:	1986
Year Non-Formula Support Item Established:	1986
Original Appropriation:	\$950,000

(2) Mission:

The mission of this item is to increase UT Arlington Research Institute's (UTARI) technological innovations and commercial partnerships to enhance its contributions to the Texas economy. UTARI performs research and development that links discovery, development, and technology commercialization, leading to technology-based economic development that benefits the region and the state. UTARI, through the Innovation & Commercialization Office, manages the intellectual property and technology commercialization for the University. Building sustainable relationships with regional business and industry is key to its success. UTARI's work involves seeking externally sponsored research funding from business and government agencies by writing quality proposals which lay the foundations for new products and new companies. The emphasis is on applied research, prototyping, and product development. UTARI's full-time professional researchers work collaboratively with UT Arlington faculty to turn their ideas into commercial realities that positively impact the economy of Texas. UTARI routinely involves students in its funded programs, enhancing their educations with skillsets not obtainable in the classroom as well as providing student employees with supplementary income to support the cost of their educations. UTARI's outreach into the community provides opportunities to showcase to K-12 students the possibilities of careers in science, technology, engineering, and mathematics.

(3) (a) Major Accomplishments to Date:

UTARI's 48,000 square foot facility features numerous advanced laboratories ranging from product engineering to robotics and autonomous systems. These laboratories support an applied research effort focused on getting technology into the hands of users through technology commercialization. Realizing this goal depends upon prototype development, scale-up capabilities, and developing effective relationships with business and industry. Major accomplishments to date include the following:

- Relationship with Hillwood to bring applied research of unmanned and autonomous systems to their AllianceTexas Mobility Innovation Zone initiative and serving as a bridge between early phase R&D and local start-up companies commercializing UAV applications;
- Collaboration with Lockheed Martin in analysis of composite aerospace materials resulting in over \$850,000 to North Texas in research funding;
- Establishment of local expertise in novel rehabilitation, preventative care, and wound healing technologies leading to funding of over \$2.4 M to North Texas as well as new partnerships with local small businesses;
- Over 250 US patent applications have been filed and over 110 US patents have been issued to UTARI/UTA since 2015, which is the pipeline for future technology-based economic development;
- Over 30 deals and 18 start-up companies created using UTARI/UTA technology since 2015;
- Submitted over \$60,000,000 worth of proposals to government agencies and industrial partners.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

714 The University of Texas at Arlington

UTARI will continue to develop productive relationships with business and industry in order to get our technology and expertise into the marketplace . We will seek funding from government agencies and make significant contributions to university research. Major expectations for the next two years are:

- Expanded research partnerships with Lockheed, Elbit, and Pratt & Whitney;
- Establish new partnerships with aerospace and defense contractors and army R&D organizations with new in-house capability of CT scanning of up to 35 foot long composite helicopter blades with new custom system from Shimadzu Corporation;
- Establish research partnership with the Army Futures Command (AFC) leveraging new involvement with the Capital Factory network co-located with AFC in Austin;
- Through collaboration with Hillwood AllianceTexas Mobility Innovation Zone, the North Central Texas Council of Governments, and large and small businesses in North Texas, establish a state-of-the-art outdoor unmanned aerial vehicle (UAV) testbed for transitioning early stage indoor testing of UAVs to application-specific testing with commercial partners;
- Contribute more than \$10,000,000 in research awards to UTA;
- Twenty new start-up companies that create jobs and products based on UTA technology;
- Attaining over 15 new licenses for UTA technology;
- Realizing an Innovation Depot in the Arlington area;
- Recognition as a driving force when it comes to commercializing technology in North Texas.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding:

None

(6) Category:

Research Support

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

The University of Texas at Arlington Research Institute leverages funding from the Texas Legislature as a way to secure millions of dollars in federal research grants and contracts. The Texas support is integral in showing sponsors and foundations that UTARI is a robust and capable organization valued by the State of Texas .

(9) Impact of Not Funding:

UTARI would be unable to sustain operations and complete the mission outlined above. The opportunity cost of not funding would be enormous to Texas. New products, new companies, and job creation realization would all be negatively impacted if funding is not available. The outcomes of the UTARI operation represent a significant return on investment for the State of Texas, and the Institute provides proven ways to turn our knowledge and technology into economic benefits for the Texas economy.

(13) Performance Reviews:

UTA Research Institute Review:

- Increased collaboration and technology implementation with business and industry compared to the previous year;
 - Increased grant applications and financial value of externally sponsored research through UTARI compared to the previous year;
 - Increased rates of patents issued and licensing opportunities that lead to start-up companies compared to the previous year;
 - Increased number of student internships at UTARI and partners, while increasing job placement for students with partner companies each year.
-
