In accordance with the instructions, Texas State Technical College (TSTC) submits the following Legislative Appropriations Request (LAR) for fiscal years 2022 and 2023 to the Governor's Office of Budget, Policy, and Planning and the Legislative Budget Board. TSTC's LAR is submitted in a manner consistent with the description of TSTC in Section 135.02 of the Texas Education Code, including a LAR for the System Administration unit and the College's six campus bill patterns.

OVERVIEW

Texas State Technical College (TSTC or the College) is the State of Texas' leading provider of two-year technical education in industries critical to the State's long-term sustainable growth. As the one Texas institution whose primary funding is driven solely from the success of its students in the workplace, TSTC is an essential partner to industry as Texas faces the threat of a long-emerging trade and industrial skills gap. As the State rebounds from the COVID-19 induced recession, the College will serve at the front lines of the economic recovery. With this in mind, the College is steering all resources of the 10-campus, statewide institution towards building and maintaining a globally competitive workforce for Texas business and industry.

To support this statewide mission, TSTC operates campuses in Abilene, Breckenridge, Brownwood, the East Williamson County Higher Education Center (in Hutto), TSTC in Fort Bend County (in Rosenberg), Harlingen, Marshall, TSTC in North Texas (in Red Oak), Sweetwater, and Waco. With these ten campuses across Texas, TSTC is set to place over 6,000 graduates in great paying jobs over the next biennium (2022-2023).

In the spring of 2020, the COVID-19 pandemic and related shutdown triggered a disruption with devastating consequences for much of higher education and, consequently, is referenced throughout TSTC's response to the issues featured in the Administrator's Statement instructions, including Policy Changes, Changes to Provisions of Service, Externalities, New Funding Requests, and TSTC's Approach to Baseline Reductions established by the Policy Letter.

SIGNIFICANT CHANGES IN POLICY

The pandemic-driven recession and subsequent consumer lockdown came quickly and relentlessly. So, too, did the calamity of historically low oil prices. The resulting economic and societal turbulence increased the focus of potential students on skills-based, short-term credentials that are clearly tied to careers. Fortunately, TSTC's unique mission, funding and operating structures focus the institution on the employability of its former students. As a result, two relevant policy issues are presented with this legislative appropriation request.

Accountability Funding. While there will be new and emerging occupational skills resulting from the pandemic, in general, the industries and occupations that TSTC supplied prior to the pandemic will continue to drive the economy in 2022 and 2023. TSTC's student employability-based funding structure couldn't be more relevant as Texas and the nation emerge from the current recession. TSTC's accountability funding fuels the talent supply chain key to the economic recovery. Maintaining TSTC's funding, or "commission" rate reaffirms accountability funding policy; one that aligns the interests of TSTC, its students and the employers of Texas. Figure 1 illustrates the historical funding pattern for TSTC's primary funding source, the instruction and administration formula funding (a wholly accountability-based funding strategy).

Insufficient Student Aid for Rapid Response Solutions for Unemployment Surge. Student aid systems do not have the flexibility to support fast-to-work solutions necessary to address the sudden unemployment surge brought on by the pandemic and economic shutdown. Conventional student aid mechanisms are built on the premise that more time in class results in more value for students. That conventional premise often does not serve students, employers or taxpayers well. TSTC developed several new products to provide solutions to the rising numbers of unemployed workforce. These programs target essential skills to rapidly return unemployed and underemployed Texans back into the workforce. A major challenge for these programs is the lack of available financial aid for a target market with the highest financial need.

SIGNIFICANT CHANGES IN PROVISION OF SERVICE AND SIGNIFICANT EXTERNALITIES

Social Distancing. The COVID-19 pandemic and the related shutdown triggered a disruption that had devastating consequences for much of higher education. Public colleges and universities across the nation spent enormous sums of money to support their students through the pandemic, switching to online education and issuing refunds or losing significant revenues related to parking, housing and dining services.

Social distancing requirements significantly affected TSTC's operations but several factors allowed the College to mitigate some of the disruptive impact ushered in by the pandemic. Most of TSTC's programs are classified as critical or essential, so these programs were exempted from the broad school closure requirements. Some of the instructional delivery could shift online but the majority of TSTC's programs require a face-to-face modality due to their hands-on nature. TSTC converted the vast majority of instructional delivery to a socially-distant, safe format and resumed on-campus instruction in early May 2020. Then, the college successfully completed the Spring 2020 semester and continued safety protocols into the Summer 2020 and Fall 2020 semesters.

The requirements for this safer, socially-distant delivery significantly constrain teaching capacities, including lab space, equipment, and faculty. Students and faculty are required to spread out, increasing the amount of space required to teach. To mitigate these new constraints and teach the same number of students, TSTC must shift schedules, repurpose space, increase teaching time, and add equipment. Figures 2 and 3 illustrate this converted teaching modality as well as the increased constraints on capacities.

Recession-driven Enrollment Surge Trend. In each of the three previous recessions, total community and technical college enrollments increased significantly at the beginning of the recession. Younger, unskilled workers are typically among the first to lose their jobs in a recession and contribute to the waves of enrollment that follow a recession. The COVID-19 recession is unique, and may have a unique enrollment response due to student health concerns and recovery phases unlike other recessions. TSTC is shifting all resources of the College to manage through new social-distancing constraints to optimize its response to different enrollment surge scenarios.

PURPOSE OF FUNDING REQUESTS

TSTC's funding requests focus on maintaining or expanding instructional capacities necessary to address the growing trade skills gap for Texas.

Policy Letter Requirements Response. TSTC received the LBB and Governor's Office approved General Revenue/General Revenue-Dedicated Limits shortly after release of the Policy Letter, reducing non-exempt funding sources by 5 percent. The approach to meeting the requirements of the Policy Letter is similar to TSTC's ongoing fiscal management strategy. TSTC continuously directs capital to the highest performing programs that possess the highest market opportunity and cuts capital allocations to its lowest performing programs with the least market opportunity. The base reduction strategy disproportionately cuts programs that reside in the highest market opportunity since the reduction is applied to start-up funding (a proxy for formula funding because of the lag in TSTC's performance-based funding formula). Start-up funding exists for TSTC's newest programs that were located in the regions with the highest needs for skills.

On a routine basis, the College curates its inventory of programs to ensure investment is directed to those that are high performing and to ensure that low performing programs are closed out. Similarly, non-instructional operations are vetted for relevance, impact and performance with personnel and funding allocations directed to those that perform at the highest level. Consequently, TSTC's strategy for addressing funding reductions would include assessment of expenditures statewide and would target programs, campus locations, or departments with lowest production, impact or relevancy to the future needs of the College.

EXCEPTIONAL ITEMS

Restoration of Dual Credit & Other Funding. The approved General Revenue/General Revenue-Dedicated Limits reduced nonexempt funding categories by 5 percent. This reduction impacted dual credit funding as well as important allocations for workers comp and institutional enhancement.

Tuition Revenue Bonds. As Texas emerges from the recession ushered in by the COVID-19 pandemic and the related shutdown, Texas employers will increasingly generate demand for skilled technicians and tradesmen. This demand is expected to grow for the next few decades. However, over recent decades, the supply of skilled labor has historically been insufficient to meet the needs of Texas employers. This is especially true for heavy industrial workforce gaps. COVID-19 and the related social distancing protocol exacerbated this supply issue by significantly constraining the facility capacity for these programs.

TSTC in Harlingen seeks to add or recapture lost instructional capacity by constructing 131,200 square feet of flexible, industrial technology training facilities. This multidisciplinary space will accommodate a versatile training modality suitable for both traditional and performance-based education. This space will be able to meet immediate demand in the areas of building construction technology, diesel, and welding, but will be flexible to accommodate changes in the labor market to meet the needs of employers for decades to come.

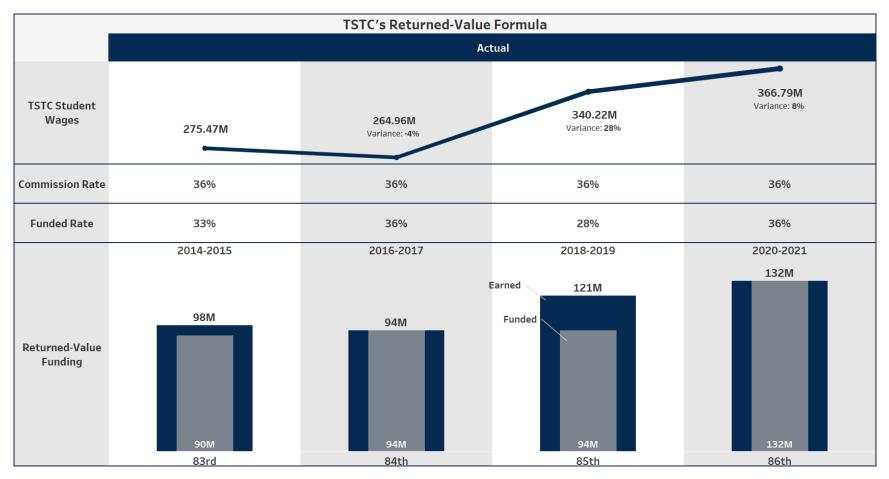

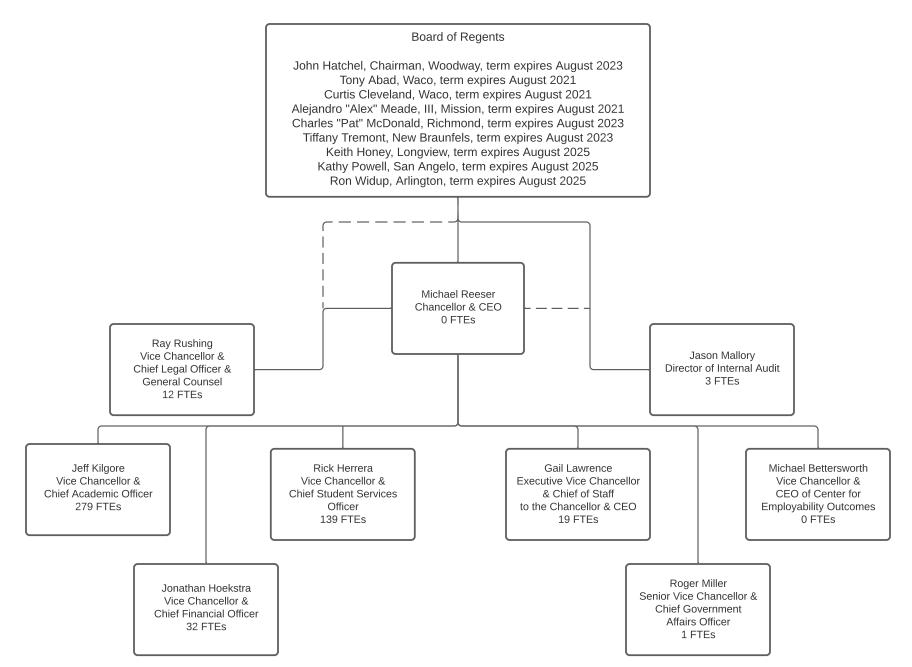

Figure 2:

CERTIFICATE

Agency Name Texas State Technical College

This is to certify that the information contained in the agency Legislative Appropriation Request filed with the Legislative Budget Board (LBB) and the Governor's Office Budget Division (Governor's Office) is accurate to the best of my knowledge and that the electronic submission to the LBB via the Automated Budget and Evaluation System of Texas (ABEST) and the PDF file submitted via the LBB Document Submission application are identical.

Additionally, should it become likely at any time that unexpended balances will accrue for any account, the LBB and the Governor's Office will be notified in writing in accordance with Article IX, Section 7.01 (2020–21 GAA).

CODE	DESCRIPTION	Exp 2019	Est 2020	Bud 2021	(1) BL 2022	(1) BL 2023
STRATEGY:	1 Instruction and Administration			Service: 19	Income: A.1	Age: B.3
OBJECTIVE:	1 Provide Instructional and Operations Support			Service Categori	es:	
GOAL:	1 Provide Instructional and Operations Support					

In the General Appropriations Act, HB 1, 84th Texas Legislature, Section 11 (page III-224), allocated funding under the Instruction & Operations strategy among Texas State Technical Colleges (TSTC) based on the additional direct and indirect state tax revenues generated as a result of the education provided. This formula furthers the goal of rewarding job placement and graduate earnings projections, not time in training or contact hours. This funding facilitates the provision of industry standard, state-of-the-art education and training in high priority careers.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Texas businesses in key industries are unable to find enough sufficiently trained workers to fill available, middle-skill jobs (those which require credentials between high school and a four-year college degree). Consequently, many Texas employers are left unable to grow and innovate, restricting their ability to compete in the current economy. This growing need for workers in middle-skill occupations is concentrated in the STEM fields, TSTC's primary focus. According to the U.S. Census Bureau, Cameron County has experienced moderate population growth in recent years.

OBJECTIVE:	1 Provide Instructional and Operations Support	Provide Instructional and Operations Support				
GOAL:	1 Provide Instructional and Operations Support					

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy is to provide proportional share of staff group insurance premiums paid from Other Educational and General funds.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Influencing factors include the number of personnel working 30 hours or more and the change in premium rates.

Strategy based upon percentage of estimated other E&G income to total appropriation. There is a general revenue shortfall for group insurance; therefore, other strategies must supplement group insurance expenditures.

EXPLANATION OF BIENNIAL CHANGE (includes Rider amounts):

TOTAL, METH	IOD OF FINANCE (EXCLUDING RIDERS)	\$911,100	\$911,100	\$911,100			

FULL TIME EQUIVALENT POSITIONS:

STRATEGY DESCRIPTION AND JUSTIFICATION:

The 86th Texas Legislature provided non-formula funding for dual credit enrollment. TSTC continues to offer dual credit programs with a specific emphasis on Career and Technical Education pathway programs.

If faced with lack of funding for dual credit programs, TSTC would have to assess the necessity to suspend, or considerably change the business model for dual credit offerings. The dual enrollment effort is extremely important to TSTC but it is an activity that requires significant resources of the College without the ability to recoup the costs without the non-formula funding.

This non-formula funding for dual credit programs allows TSTC in Harlingen to continue and/or grow its dual credit program.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

TSTC in Harlingen partners with many schools in multiple counties in the Rio Grande Valley to offer dual credit at the secondary level.

CODE	DESC	RIPTION	Exp 2019	Est 2020	Bud 2021	(1) BL 2022	(1) BL 2023

STRATEGY DESCRIPTION AND JUSTIFICATION:

Funding for this strategy is determined through a formula that applies a funding rate to a determination of predicted square feet for an institution, the Space Projection Model. The Space Projection Model is generated through The Texas Higher Education Coordinating Board.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

House Bill 1 (General Appropriations Act), 84th Legislature, Regular Session, Article III, Higher Education Coordinating Board, Section 55 (p. III-54), directed the Texas Higher Education Coordinating Board (THECB) to conduct a study of the Space Projection Model.

The study conducted in response to Rider 55 treated the allocation of space for TSTC different than other institutions evaluated by dramatically increasing the allocation of teaching space for TSTC. This was validated as necessary by a third-party consultant who noted the space-intensive nature for TSTC training programs, relative to other spaces considered in the model.

During its formula funding development process, the Texas Higher Education Coordinating Board Formula Advisory Committee recommended incorporating Space Support funding into the Returned-Value formula to, as directed by the Legislature, further the goal of rewarding job placement and graduate earnings, not time in training or contact hours.

FULL TIME EQUIVALENT POSITIONS:

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy is essential for the College to meet the annual debt service requirements for the Tuition Revenue Bonds issued during FY 2002 and FY 2016, as authorized by the 77th Texas Legislature. The FY 2002 TRB issue was refinanced in FY 2016, lowering the debt service on that issue, thereby resulting in savings for the state.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

TRB funds used for remodeling and new construction have enabled the college to better serve the needs of our students in technical education.

FULL TIME EQ	QUIVA	LENT POSITIONS:	12.2	13.0	13.0	13.0	13.0		

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Small Institution Supplement strategy provides \$1,316,566 during a biennium for institutions that enroll less than 5,000 students (phased out between 5,000 and 10,000), recognizing that institutions have a minimum cost of operation that may not be covered by funds generated through the formulas.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The cost of utilities and building maintenance will be covered by this funding. Buildings that have been recently remodeled will increase this cost in the next biennium.

FULL TIME E	QUIVALENT POSITIONS:	42.5	44.0	44.0	44.0	44.0			

STRATEGY DESCRIPTION AND JUSTIFICATION:

The 76th Legislature created the initial Institutional Enhancement appropriation based on a consolidation of certain special item appropriations with inclusion of \$1.0 million per year to the strategy. This funding is an important source of funding for various E&G components.

For the 2022-2023 biennial budget, these funds will support educational support activities, instructional services, and student services.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

In the 2018-2019 biennium, this strategy was further reduced from the 2016-2017 levels, despite the strategy funding core operations of the college. In light of the reduction, TSTC has implemented stringent reviews of programs and services to ensure that the investment of available dollars are made in programs and activities with the highest return potential. Based on the extent of cuts, TSTC has had to reduce and close services in its lowest performing and lowest potential markets.

DESCRIPTION / JUSTIFICATION:

TSTC in Harlingen requests funding to add or recapture lost instructional capacity by constructing 131,200 square feet of flexible, industrial technology and skilled trade training facilities. This space will be able to meet immediate demand in the areas of building construction technology, diesel, and welding, but will be flexible to accommodate changes in the labor market to meet the needs of employers for decades to come. Tuition Revenue Bond Issuance Authority in the amount of \$37,800,000 is requested by TSTC in Harlingen for this instructional facility. State funding is requested for projected debt service payment of \$3,295,576 for the FY 2022/2023 biennium. This is based upon an amortization of 20 years at 6.00%

EXTERNAL/INTERNAL FACTORS:

Consequences of not funding: Reduced capacity for reducing Texas' technical skills shortage.

B. Assessment of Fiscal Year - Efforts to Meet HUB Procurement Goals

Attainment:

The agency attained zero of six, or 0%, of the applicable statewide HUB procurement goals in FY 2018 and FY2019. The increase between FY 18 to FY 19 of total percentage spent with HUB.

Applicability:

The agency had expenditures in all categories in both fiscal year.

Factors Affecting Attainment:

•The college routinely utilizes vendors that could qualify for HUB certification, but they have no direct incentive to complete the HUB certification steps. This creates a limited supply of "HUB certified" vendors.

"Good-Faith" Efforts:

The agency made the following good faith efforts to comply with statewide HUB procurement goals per 34 TAC Section 20.13(c):

•Developed and conducted training to TSTC community regarding HUB program, policies, and procedures

•Attended various vendors fairs, and other events to learn more about HUB programs

•Attended HUB discussion meetings to keep up with HUB Rules and Regulations

•Educated potential HUB vendors to apply for certification with the state

•Educated ESBD is accessible to use for bidding processing

•TSTC is seeking new ways to education the College community on the benefits of doing business with HUBs

Project Description

As Texas emerges from the recession ushered in by the COVID-19 pandemic and the related shut-down, Texas employers will increasingly generate long-term demand for technicians in skilled and heavy industrial trades. However, over recent decades, the supply of skilled labor has historically been insufficient to meet the needs of Texas employers. New social distancing protocols are now exacerbating this supply issue by significantly constraining the facility capacity for these high demand programs. TSTC in Harlingen seeks to add or recapture lost instructional capacity by constructing 131,200 square feet of flexible, industrial technology and skilled trade training facilities. This space will be able to meet immediate demand in the areas of building construction technology, diesel, and welding, but will be flexible to accommodate changes in the labor market to meet the needs of employers for decades to come.

Debt assumption: 37,800,000 TRB with annual interest rate of 6% for 20 years.

Schedule 8C: Tuition Revenue Bonds Request by Project

Center - Phase II	2016	10/15/2035	244,550	242,925
			485,722	242,925

1 - Institutional Enhancement	
(1) Year Non-Formula Support Item First Funded:	2000
Year Non-Formula Support Item Established:	2000
Original Appropriation:	\$1,469,394

(2) Mission:

Though funded less than 50% of its original allocation, this funding is an important source of funding for various E&G components. For the 2022-2023 biennial budget, these funds will continue to support essential educational support activities, instructional services, and student services.

(3) (a) Major Accomplishments to Date:

Educational support. Increased investment in student outreach services resulting in higher levels of prospect to registered students. Instructional support. Deployment of faculty development across statewide campuses with emphasis on new faculty bootcamp, multi-level instructor certification courses, department chair training, competency based education training, and online learning courses and assistance. Institutional Research Tools: Implementation of data research and visualization tools that enabled various levels of college stakeholders to participate in the improvement of instructional programs.

Educational Services: Increased capacity of success coach program to increase persistence/retention of students.

Deaf and disabled services: Continued services for deaf and disabled students.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Instructional Support: Increased development for faculty, improving and innovating the student learning experience. Institutional Research: Improved effectiveness and productivity of student learning through available dashboards, insights, and analysis. Educational Support: Increasing persistence and retention levels facilitated by improved student support services as well as increased capacities.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

The 76th Legislature created Institutional Enhancement (IE) to consolidate Special Items (including scholarships, instructional services, plant expansion, new plant start-up, and deaf services).

(5) Formula Funding: None

(6) Category:

Instructional Support

(7) Transitional Funding:

Ν

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

Reduced capacity for Instructional Support. Due to core nature of services supported by Institutional Enhancement funds, funding reductions or eliminations would be evaluated statewide across funding categories. Most likely consequences of lower funding will be reduced programming, specifically in areas that are considered low-performance, low-potential.

(10) Non-Formula Support Needed on Permanent Basis/Discontinu

This item is needed on a permanent basis.

(11) Non-Formula Support Associated with Time Frame:

This item is not associated with a particular time frame.

(12) Benchmarks:

TSTC is an active participant in the THECB 60x30 strategic plan, which provides an excellent source external benchmarks. Although the strategic plan ends in 2030, TSTC statewide has already surpassed two of the four strategic plan goals. The first achievement is goal number 3, in which 80% of institution graduates will have completed programs with identified marketable skills. The second is goal number 4, in which TSTC students have an average student loan debt of 29% relative to their first year wage, which positively exceeds the plan goal of 60%. TSTC is actively working on improving the number and rate of students with a degree, which comprise the remaining two goals of the THECB 60x30 strategic plan.

(13) Performance Reviews:

Student success is continually reviewed throughout the fiscal year with the use of an increasing number of analytic tools. These reporting tools provide a view of the student life cycle, from application to working in Texas. While different departments are focused on various sections of the student life cycle, the reporting tools enable all areas to be continually refined and improved throughout the year. Each semester program review reports are created for college stakeholders to continually monitor performance and to identify potential areas of improvement.

2 - Dual Enrollment	
(1) Year Non-Formula Support Item First Funded:	2020
Year Non-Formula Support Item Established:	2020
Original Appropriation:	\$550,000

(2) Mission:

Increase the rate of student success by partnering with approximately 1,250 school districts across Texas with the incorporation of the Career and Technical Education sequenced pathways mandated by the 83rd Legislature's House Bill 5. Specifically, TSTC is focused on increasing the supply of highly trained technicians for in-demand technology fields in the State of Texas.

(3) (a) Major Accomplishments to Date:

Partnered with approximately 14 school districts in delivery of dual credit in the Rio Grande Valley region.

Created compressed sequences, which shortened the road to TSTC graduation and entry into the Texas workforce, ensuring qualification to meet workforce demands.

Expanded reach of service through direct, smooth and seamless online dual credit offerings which addressed CTE/Career Cluster occupations and the need in high demand occupations. This provided access to these pathways electronically, regardless of available faculty or staff on the ISD campus.

For technical pathways requiring face-to-face format for hands-on training (e.g., Welding and Automotive), delivery was made by credentialed and qualified ISD faculty.

Created crosswalk for technical pathways between the The Public Education Information Management System standards (PEIMS), allowing the districts to meet standards regardless of available, qualified faculty or staff.

Where feasible, facilitated student travel to local TSTC campus to access technically qualified staff.

Participated with the Advanced Technical Credit (ATC) Leadership Committee, a committee of high school community/technical college representatives, in setting the criteria for ATC dual credit across the state, with input from TEA and THECB.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Increase school district partnerships, statewide (depending on funding).

Create statewide centers of excellence, providing scaling capability to meet statewide needs. Expand number of HB 5 mandated CTE pathways offered.

Expand number of students graduating on a distinguished level (through completed foundation plan endorsements).

82 Legislative Appropriations Request

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

General Revenue Dedicated - Statutory Tuition at a Discounted Rate

(5) Formula Funding: None

(6) Category:

Instructional Support

(7) Transitional Funding: N

(8) Non-General Revenue Sources of Funding:

Designated Tuition at a discounted rate

(9) Impact of Not Funding:

Significant reduction to dual credit offerings and increased costs to high school students for tuition revenue to be charged.

(10) Non-Formula Support Needed on Permanent Basis/Discontinu

Non-formula support will be needed on a permanent basis if the THECB formula funding recommendation for dual credit at TSTC is not approved.

(11) Non-Formula Support Associated with Time Frame:

This item is not associated with a particular time frame.

(12) Benchmarks:

TSTC is an active participant in the THECB 60x30 strategic plan, which provides an excellent external benchmark of high school students enrolling in college and, subsequently, obtaining a degree.

(13) Performance Reviews:

Dual credit enrollment is continually reviewed throughout the fiscal year with the use of a Dual Credit Vitality tool. This reporting tool reviews the outcomes of dual credit students from each partnering high school institution. It reviews potential performance with actual, as well as measuring trends of student success and financial viability.

3 - Industrial Technologies Performance Learning Center

(1) Year Non-Formula Support Item First Funded:	2022
Year Non-Formula Support Item Established:	2022
Original Appropriation:	\$3,295,576

(2) Mission:

As Texas emerges from the recession ushered in by the COVID-19 pandemic and the related shut-down, Texas employers will increasingly generate long-term demand for technicians in skilled and heavy industrial trades. However, over recent decades, the supply of skilled labor has historically been insufficient to meet the needs of Texas employers. New social distancing protocols are now exacerbating this supply issue by significantly constraining the facility capacity for these high demand programs. TSTC in Harlingen seeks to add or recapture lost instructional capacity by constructing 131,200 square feet of flexible, industrial technology and skilled trade training facilities. This space will be able to meet immediate demand in the areas of building construction technology, diesel, and welding, but will be flexible to accommodate changes in the labor market to meet the needs of employers for decades to come.

(3) (a) Major Accomplishments to Date:

TSTC is the State of Texas' leading provider of two-year technical education in industries critical to the State's long-term sustainable growth, and TSTC is an essential partner to industry as Texas faces the threat of a long-emerging trade and industrial skills gap. As the State rebounds from the COVID-19 induced recession, the College will serve at the front lines of the economic recovery. With this in mind, the College is steering all resources of the 10-campus, statewide institution towards building and maintaining a globally competitive workforce for Texas business and industry.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The addition of multidisciplinary teaching space will accommodate a versatile training modality suitable for traditional and performance-based education. This space will increase capacity to meet immediate workforce needs in high-demand technical industries, but will be flexible to accommodate changes in the labor market to meet the needs of employers for decades to come.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding: None

(6) Category:

Instructional Support

(7) Transitional Funding:

Ν

(8) Non-General Revenue Sources of Funding:

Funding from local community and industry to be sought to assist with start up operational cost and instructional equipment.

(9) Impact of Not Funding:

Reduced capacity for reducing Texas' technical skills shortage.

(10) Non-Formula Support Needed on Permanent Basis/Discontinu

TRB Debt Service

(11) Non-Formula Support Associated with Time Frame:

20 year TRB Debt Service

(12) Benchmarks:

Texas State Technical College (TSTC) is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award Associate Degrees and Certificates of Completion. Contact the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Texas State Technical College.

Equal opportunity shall be afforded within TSTC to all employees and applicants for admission or employment regardless of race, color, gender, religion, national origin, age, genetic information, disability or veteran status. TSTC will make reasonable accommodations for persons with disabilities. TSTC's policy is that, in all aspects of its operations, each person with a disability shall be considered for admission or access to, or treatment or employment in, its programs and activities in accordance with Part 84 of Title 45, the regulation implementing Section 504 of the Rehabilitation Act of 1973.
