### 718 Texas A&M University at Galveston

---

#### INTRODUCTION & SPECIAL PURPOSE MISSION

Texas A&M University at Galveston is a premier academic institution for maritime leadership and ocean and coastal studies on the Gulf Coast. As a branch of Texas A&M University, Texas A&M University-Galveston was established by the Legislature in 1962 for the special purpose of providing higher education for undergraduate and graduate instruction in marine and maritime studies in science, engineering, and business and for research and public service related to the general field of marine resources.

We share the mission of land, sea and space grant universities defined by a tradition of affordability, accessibility, and applying solutions for the needs of the state and the nation. At the Galveston Campus, we support the economic strength of the State of Texas and the Nation by directly feeding the sea-grant mission through research, scholarship, public service, and dedication to student learning and success. Our size and proximity to the Gulf of Mexico allows us to create academic, research, and student opportunities to form a unique marine and maritime experience that only Texas A&M-Galveston can offer.

#### TEXAS A&M UNIVERSITY AT GALVESTON AND THE BLUE ECONOMY

The Galveston Campus is driving the blue economy with research, scholarship, education, and innovation by supporting Texas A&M University's sea-grant mission to improve the understanding, stewardship and sustainability of Texas's coasts and ocean resources. The blue economy is the economic, social, political, and ecological vitality of our oceans and surrounding ecosystems. The national blue economy has grown faster than the nation's economy as a whole.

It is nearly impossible for any Texan to go a single day without eating, wearing, or using products that come from or through the nation's coastal communities according to the National Oceanic and Atmospheric Administration.

As such, we are educating for the future with transformative and innovative academic programs that prepare our students to pursue careers in the marine and maritime fields and become leaders in their respective arenas of passion; we are innovating for the future with impactful research and discovery that explores the broad impacts of humans and the environment along our coast and in our oceans to safeguard our planet's most valuable and underexplored resource – our oceans – that contributed over \$6 million in research expenditures in the past year; and we are supporting the nation's \$373 billion blue economy through integration of research and scholarship in our specialized fields with a steadfast commitment to serve the greater good near and far.

Texas is the nation's largest contributor to the country's gross domestic product (GDP) among all coastal states and contributes substantially to the blue economy through marine transportation, marine construction, tourism and recreation, and research on its living resources both on the coast and on inland waterways. Texas A&M-Galveston is supporting that effort by driving the blue economy in the Gulf Coast region through translational research and experiential learning in specific programs to develop leaders in these areas.

We are state, national, and global leaders in research, innovation, training, and policy on successfully managing flood-prone landscapes and making that information freely available to the public. The Institute for a Disaster Resilient Texas was formally established on May 14, 2020, by the Texas A&M University System Board of Regents following the passage of House Bill 2345 by the 86th Texas Legislature in 2019. The Institute's mission is to facilitate the integration of analytical tools and state-level decisions related to disaster resiliency. Through collaborative efforts, the Institute aims to deliver critical research on disaster risk reduction, support state agencies with data analytics and decision-making tools, and generate evidence-based solutions that help Texas communities become more resilient over the long term. We worked to develop the Texas Coastal Atlas, which shows likely property damage to residential structures and associated flood depths for hurricane storm surge in the Houston-Galveston metro area, one of the state's most populous regions. Understanding, mitigating, and solving flood problems in advance of and after the next major storm will be the most effective protection of Texas' residents and its economy. The institute is a hub for hazard analysis, which then feeds policy and decision makers,

**718 Texas A&M University at Galveston**

---

risk communication and education.

The Gulf Center for Sea Turtle Research (GCSTR) has expanded Texas A&M University at Galveston's role in the conservation of protected resources such as threatened and endangered sea turtles. The Center creates knowledge and conserves these keystone species of special concern that impact local habitats important to the sustainability and biodiversity of Galveston Bay and the Upper Texas Coast. The GCSTR partners with the U.S. Fish & Wildlife Service, the National Park Service and Texas Parks and Wildlife to provide conservation and research services to the State of Texas and to the Nation. The Center has generated deep community ties through partnerships with the Houston Zoo for veterinary oversight and local Texas Master Naturalist chapters.

For example, a program led by Texas A&M University-Galveston researchers are studying the role of natural and human factors on the fate of fisheries in the Gulf of Mexico and seeking understanding of the structure and resilience of stocks of important economic fish species (red snapper, tuna, and sail fish) in support of the food security of our nation.

In addition to research initiatives, our students are provided transformational learning opportunities. Chief among those opportunities for students are through investments to our Maritime Academy and training ship which can accommodate additional students as well as strategic investments with global partners.

**TEXAS A&M MARITIME ACADEMY IS AN INTEGRAL PART OF TEXAS A&M UNIVERSITY AT GALVESTON**

Since its founding, the Texas A&M Maritime Academy remains one of only six state maritime academies in the United States and the only one located in the Gulf of Mexico. The mission of the Texas A&M Maritime Academy is to provide the U.S. with highly trained and qualified U.S. Coast Guard-licensed maritime professionals to support national security and waterborne commerce. The next closest maritime academy to the gulf is the New York Maritime Academy. Each year, more than 450 cadets are trained to become license officers in the United States Merchant Marine and make significant economic impacts to the Texas economy.

Most Texas A&M Maritime Academy graduates become merchant mariners and sail on vessels in the domestic fleet, which includes over 40,000 self-propelled vessels, tugs and barges that move goods and supplies throughout the nation both along the coast and inland waterways. Texas ranks third in the United States with nearly 60,000 domestic maritime industry jobs, contributing over \$14 billion annually to the Texas economy. Without continued investment in this industry through education, our state and our nation will become isolated in trade commerce.

Our Maritime Academy's Summer Sea Term (typically between 65-75 days at sea) provides experiential training vital to licensing and success of our cadet graduates. The Academy has an essential presence in the nation's economic, political, and naval strategy both through our cadets commissioned to naval or coast guard service, and by serving as the "fourth arm of defense" as merchant mariners. That presence on the high seas depends on the graduates of the six state maritime academies and the federal Merchant Marine Academy. Our Electronic Technology Officer program will be the first of its kind in the nation and will prepare our graduates to better serve and protect the critical maritime industry as it evolves toward more automation and remote operation.

These technical programs are supported by our Masters of Maritime Business Administration -- the number one program in the nation -- and undergraduate maritime business administration degree in providing uniquely qualified business majors who help lead the maritime industry and global logistics in the 21st century.

Beyond the critical need of training for the next generation of licensed maritime professionals, your support of our infrastructure request in the last session will go a long way in addressing the critical shortage of U.S. Merchant Mariners needed to crew commercial and government-owned sealift ships during a military crisis. Our graduates boost national security by supporting the U.S. military during times of war and national crisis, transporting supplies to U.S. troops, relief, and war zones. Others choose to

---

protect the nation as members of all branches of the military, including the U.S. Navy and U.S. Coast Guard. Additionally, our new vessel will now be an integral part of FEMA's emergency response capabilities along the Texas coastline, and throughout the Gulf of Mexico.

#### TEXAS A&M UNIVERSITY AT GALVESTON GRADUATES

Our location on the Gulf Coast provides us access to valuable industry partners who aid in the preparation of our students today for the jobs of tomorrow through internships and summer training programs. This experience and preparation extend to our undergraduate researchers, one-third of whom are provided one-on-one mentorship, including freshman students who traditionally are unable to access research activities until their junior or senior semesters. In a survey of Texas A&M-Galveston graduates over the last 10 years: a majority were impacted by their participation in extracurricular experiences at Texas A&M-Galveston; over 80% belonged to a student organization; 49% completed an internship; and 35% worked with a faculty member on research.

Our graduates support a variety of the growing industries within the blue economy and are satisfied with their degrees. A survey of all alumni who graduated in the past five years reinforces Texas A&M-Galveston's effectiveness at preparing graduates for successful careers. Almost all Texas A&M University-Galveston former students surveyed were either employed (87%) or attending graduate school (8%), with ~80% of working alumni employed in a related field.

#### CRITICAL SUPPORT FROM THE 87TH LEGISLATURE

We are appreciative of the critical investments made by the 87th Legislature to Texas A&M University-Galveston, and the Texas A&M Maritime Academy. In December of 2020, the federal government fully funded a new, National Security Multi-Mission Vessel for the Texas A&M Maritime Academy. This was critical for us as our previous training vessel was inadequate to meet our growing needs.

Equally important were upgrades to our pier and central plant to be able to accommodate our new vessels, both the temporary one we receive this year and the training ship Lone Star State, which we are on target to acquire in 2025. Both vessels are three times the size as our previous training vessel and can handle twelve times the number of cadets.

Simply put, without your support last session, we would be unable to accommodate either vessel, so again, thank you.

#### EXCEPTIONAL ITEM REQUEST- PROGRAMMING SUPPORT: THE GULF CENTER FOR SEA TURTLE RESEARCH TOTAL REQUEST: \$6M FOR THE 2024-25 BIENNIUM

We request \$6M over the biennium as operational support for The Gulf Center for Sea Turtle Research.

Programmatic support for this facility will enable existing operations to continue and allow it to expand its presence and impact. In addition, it would provide the necessary medical equipment and supplies, additional tanks to rehabilitate injured sea turtles, rescue vehicles, required training of staff and volunteers, and salary support for full-time facility personnel. Lastly, it will strengthen the Texas workforce of undergraduate, graduate, veterinary students, and the community in all aspects of marine ecology and conservation of the Gulf of Mexico, sea turtle biology, and other marine science programs.

#### TEXAS A&M SYSTEM FUNDING REQUESTS

Texas' future depends on a well-educated population and strong workforce. A robust higher education sector is the key to ensuring the long-term economic growth and resiliency of our state. However, to assure this growth, we must do more to address the issues of college affordability and accessibility. Increasingly, qualified students-

### 718 Texas A&M University at Galveston

---

-including top ten percent students--are not enrolling and graduating from college. At the Texas A&M University System, we are committed to addressing these issues, but we need the resources to help these young people access a four-year university degree and set up themselves and their families for a lifetime of success.

To keep higher education both accessible and affordable for students and meet these increasing needs, higher education in Texas needs additional state investment. With increased support from the state, the Texas A&M System will commit to continue to implement cost saving measures, seek efficiencies in how we provide our services, and keep tuition as low as possible for our students, while providing a high-quality education that will prepare them for the workforce. However, this depends on the support from the state as detailed below:

**Formulas - Funding for educating our students** comes almost entirely from two sources, General Revenue (GR) from the state and our students' tuition and fees, but these funding streams are inversely related. As the support from the state has declined, our tuition and fees have increased to allow us to fund teaching and support for students, preparing them for entry into the workforce. Consistent formula appropriations that fund student enrollment growth and inflation are needed to avoid adverse impacts on students' success. Our highest priority is additional funding in the formulas to cover student enrollment growth through the Fall 2022 semester in the base bill and additional funding for student enrollment increases in the Spring 2023 semester. Any additional funding provided through the formulas over and above covering the cost of enrollment growth will help cover inflation and offset pressure on tuition, keeping costs more affordable for our students.

**Performance Based Funding for Comprehensive Regional Universities** - The 87th Legislature recognized the importance of the state's 27 Comprehensive Regional Universities by passing SB1295, and using federal funding to support this legislation. For the upcoming biennium, we request \$80 million in General Revenue to provide two years of performance funding to continue student support programs at our Comprehensive Regional Universities. This amount would provide \$250,000 in base funding and \$1,000 per at-risk student per year. With this support, these institutions can help address the state's decline in direct enrollment from high school to college and close the gap in these institutions' graduation rates compared to the emerging research and research institutions. Increasing regionals' college enrollment and graduation rates will add more skilled employees to the workforce and improve regional economies.

**Higher Education Group Health Insurance** - Declining state support for our employees' health insurance over the last several biennia has required our institutions to cover these additional costs. We request funding to cover increases in covered enrollments and in health care costs. We also request restoration of the over 20 percent gap in funding for our employees compared to state employees in the ERS group plan.

**Student Mental Health** - Even prior to the pandemic we were experiencing an increased need for mental health services for our students, and the pandemic has only magnified this need. We are asking for financial support from the state to help meet this critical threat to our students' well-being.

**Hazlewood Legacy Program** - In FY 2021, TAMUS institutions waived \$44.2m in legacy exemptions and received \$5.9m in state reimbursement, 13.3% of the cost. The cost of educating these students is shifted to other students and the average cost of the Hazlewood waiver to other students across our system is to be an estimated to be \$270 per non-legacy student per year. Veteran friendly universities with proportionally higher legacy enrollments have an outsized burden when it comes to Hazlewood, including nine of our academic institutions that have a higher proportion of legacy students than the statewide average. We request an increase in state support for reimbursing universities for their legacy Hazlewood costs.

**Student Financial Aid** - Increased support for student financial aid is vitally important to help students enroll in higher education and graduate with lower debt. We request increases to TEXAS grants and other financial aid programs to serve more students and provide for a larger share of their tuition and fee costs, so students do not have to turn to loans to cover unmet needs. Financial aid is used by students to pay their tuition and fees and is not a substitute for state funding into the formulas.

### 718 Texas A&M University at Galveston

---

Capital Funding: CCAPS - We are very appreciative of the commitment the 87th Legislature made to higher education with the authorization for Capital Construction Assistance Projects (CCAPs) to address our critically needed classrooms and labs. Providing two years of GR debt service appropriations for the FY 2024-25 biennium is of utmost importance to keep the projects on track.

Our institutions continue to have capital needs to meet student enrollment growth and programmatic needs, to update older facilities, and address deferred maintenance. Each of our institutions has prepared a request for their next critical capital construction assistance project if those requests are to be considered. However, our top priority remains funding for our formulas to help us to keep costs lower and thus higher education more affordable for our students .

Texas A&M-Galveston's top capital priority is the Marine Sciences Hospital, Outreach, Research and Education (M-SHORE) facility. We can provide additional detail upon request.

#### ORGANIZATIONAL CHANGES

Captain Allan Post has been named Executive Director and Deputy Superintendent of the Texas A&M Maritime Academy.

#### BACKGROUND CHECKS

Texas A&M at Galveston's statutory authority to conduct background checks on employees of the university comes from Texas Government Code Chapter 411 Subchapter (f) and Texas Education Code Section 51.215. It is our policy and practice to conduct such checks on all employees being considered for positions at Texas A&M-Galveston.

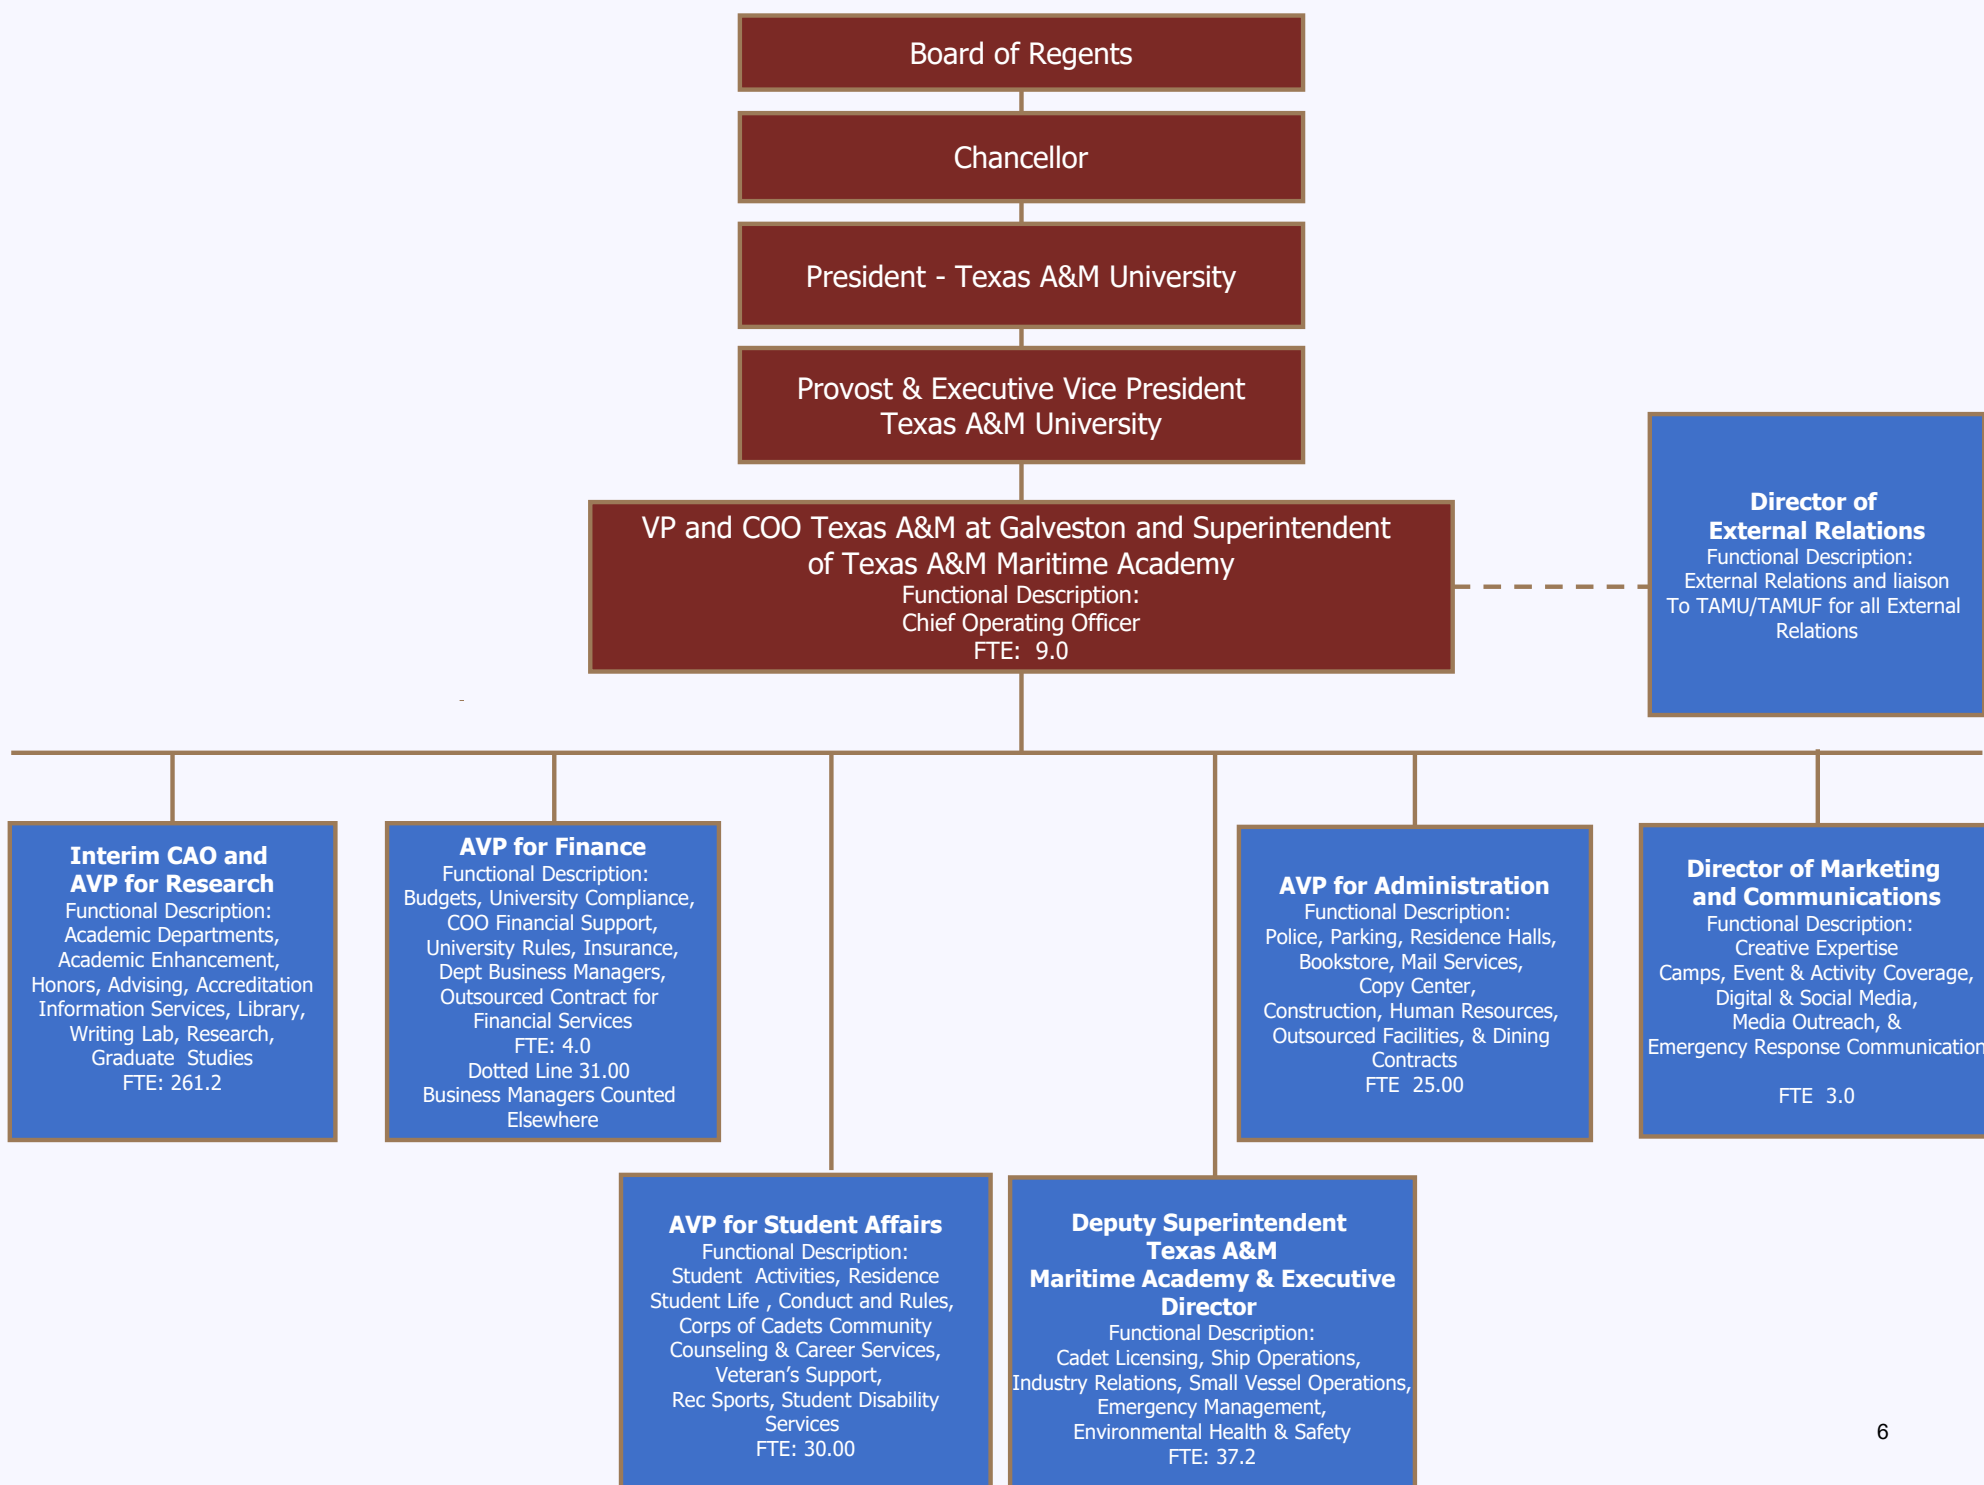

#### SUMMARY

Texas A&M University at Galveston is a unique, special purpose institution that offers a comprehensive and integrated approach to transformative education, innovation and discovery, and impact in the fields of marine studies and maritime affairs. Our graduates, staff and faculty are a vital resource for a state with 3,359 miles of coastline, the vast natural resources of the Gulf of Mexico, the second-largest petrochemical complex in the world, and home to six of the top ten ports for inbound and outbound tonnage in the United States.

The demand is now greater than ever for Texas A&M University- Galveston to prepare students to become leading professionals in these critical areas. Our graduates consistently enter into well-paying careers that utilize their highly sought-after skills which employers throughout the maritime economy have come to expect. Our requests for the 88th Legislative Session will be an integral part of the continued success of our students, through our programs, research, and community outreach.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium. The Teaching Experience Supplement formula provides an additional weight of 10 percent to lower and upper division semester credit hours taught by tenured and tenure-track faculty.

(1) - Formula funded strategies are not requested in 2024-25 because amounts are not determined by institutions.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The mission of The Coastal Zone Laboratory (CZL), which is associated with the laboratory of Oceanographic and Environmental Research, is to facilitate technical know-how to faculty. It assists those in the Marine Science departments through laboratory instrumentation support, training, and advising. This helps foster scientific research in in the Coastal Zone.

The goals of the CZL are three-fold:

1. Provide scientific expertise of faculty and students to respond to problems that are specific to the Texas Coastal Zone.
2. Educate and train students in addressing environmental problems.
3. Report vital health, economic data and expertise on coastal problems to Texas Regulatory agencies.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The mission of the Texas Institute of Oceanography (TIO) is to provide focus for research of the Gulf of Mexico coast, to manage and coordinate the academic marine research programs of the state of Texas, to assure scientists of Texas universities suitable multi-user facilities, to manage federal programs, and to provide the research and technological base for the development of marine based businesses in the state of Texas and Gulf of Mexico. This line item also includes our Seafood Safety Lab, whose mission is to test and assure oyster consumers in the State of Texas that oysters from the Gulf are safe to eat.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The mission of the instructional enhancement non-formula item is to support Texas A&M University at Galveston's (TAMUG) base funding for core academic and student support operations. This funding enables Texas A&M at Galveston to seek levels of programs and academic excellence beyond that which is provided by our basic formula funding. Texas A&M at Galveston uses these funds to support faculty salaries for teaching and advising.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

Additional information for this strategy is available in Schedule 9, Non-Formula Support Information.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Texas Comprehensive Research Fund provides funding to promote increased research capacity at eligible general academic teaching institutions including those other than The University of Texas at Austin, Texas A&M University, or any institution designated as an emerging research university under the Higher Education Coordinating Board's (THECB) accountability system.

Funding is to be expended for the support and maintenance of educational and general activities, including research and student services, that promote increased research capacity.

A legislatively determined amount of funding is allocated based on the average amount of restricted research funds expended by each institution per year for the three preceding state fiscal years as reported by the THECB.

<b>FULL-TIME EQUIVALENT POSITIONS (FTE):</b>		9.00	9.00

**DESCRIPTION / JUSTIFICATION:**

Programmatic support for the Gulf Center for Sea Turtle Research facility will enable existing operations to continue and allow it to expand its presence and impact. In addition, it would provide the necessary medical equipment and supplies, additional tanks to rehabilitate injured sea turtles, rescue vehicles, required training of staff and volunteers, and salary support for full-time facility personnel. Lastly, it will strengthen the Texas workforce of undergraduate, graduate, veterinary students, and the community in all aspects of marine ecology and conservation of the Gulf of Mexico, sea turtle biology, and other marine science programs.

**EXTERNAL/INTERNAL FACTORS:**

Major accomplishments to date and expected over the next two years: The Gulf Center for Sea Turtle Research (GCSTR) has expanded Texas A&M University at Galveston's role in the conservation of protected resources such as threatened and endangered sea turtles. The Center creates knowledge and conserves these keystone species of special concern that impact local habitats important to the sustainability and biodiversity of Galveston Bay and the Upper Texas Coast. It partners with the U.S. Fish & Wildlife Service, the National Park Service and Texas Parks and Wildlife to provide conservation and research services to Texas and to the nation. The Center has generated deep community ties through partnerships with the Houston Zoo for veterinary oversight and local Texas Master Naturalist chapters.

Year established and funding source prior to receiving special item funding: 2019 with small grants

Formula funding: None

Agency code: **718**                      Agency name: **Texas A&M University at Galveston**

<b>CODE</b>	<b>DESCRIPTION</b>	<b>Excp 2024</b>	<b>Excp 2025</b>
-------------	--------------------	------------------	------------------

Non-general revenue sources of funding: Small grants

Consequences of not funding: Texas A&M at Galveston (TAMUG) will lose the potential visibility, student recruitment and retention that programmatic support for this facility could bring to the campus. TAMUG would lose the opportunity to achieve a critical mass, size and influence of the Research, Educational Outreach & Hospital Facility, and the ability to increase the level of research training and community influence that would be required for the Center to establish Texas' position as a national/global leader in the marine "Blue" economy. The Gulf Center for Sea Turtle Research will not be able to financially sustain its current research, conservation, and training programs of responding to nesting, stranded turtles, or rehabilitating sea turtles. Lack of financial stability brought in from tourism would jeopardize the Gulf Center for Sea Turtle Research program, and there is no other entity in the entire region that can conduct this work.

**PCLS TRACKING KEY:**

**B. Assessment of Attainment of HUB Procurement Goals**

**Attainment:**

Agency 718 exceeded statewide Professional Services goals in FY20 and FY21.

**Applicability:**

Generally, Heavy Construction is not a procurement category applicable to this agency's operations. All other categories applicable.

**Factors Affecting Attainment:**

Some impacts noted by limited in-person engagements during COVID-19 pandemic. Texas A&M at Galveston is an island campus with academic and research focus devoted to marine and maritime industries; purchases of which in support of academic and research initiatives pose challenges to identifying HUB suppliers.

**C. Good-Faith Efforts to Increase HUB Participation**

**Outreach Efforts and Mentor-Protégé Programs:**

- 1) Sponsored 4 mentor protégé relationships
- 2) Represented at HUB discussion groups & Texas HUB coordinators meetings
- 3) At beginning of FY20 attended & hosted forums for HUB vendors
- 4) Use of CMBL/HUB directories for solicitation of bids
- 5) Require HUB subcontracting plan for contracts over \$100K

**6.A. Historically Underutilized Business Supporting Schedule**  
88th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

Date: **10/17/2022**  
Time: **12:59:30PM**

---

Agency Code: **718**      Agency: **Texas A&M University at Galveston**

**HUB Program Staffing:**

Dedicated staff - 2 FTE

**Current and Future Good-Faith Efforts:**

- 1) Vendor outreach, education & training
- 2) HUB catalog is in the University's central e-commerce marketplace
- 3) Current and future strong HUB subcontracting by University's building & maintenance contracts
- 4) Will attend and host HUB vendor forums as recovery from COVID limitations

---

**Coastal Zone Laboratory**

**(1) Year Non-Formula Support Item First Funded:** 1973  
Year Non-Formula Support Item Established: 1973  
Original Appropriation: \$40,000

**(2) Mission:**

The mission of The Coastal Zone Laboratory (CZL), which is associated with the laboratory of Oceanographic and Environmental Research, is to facilitate technical know-how to faculty. It assists those in the Marine Science departments through laboratory instrumentation support, training, and advising. This helps foster scientific research in in the Coastal Zone.

The goals of the CZL are three-fold:

1. Provide scientific expertise of faculty and students to respond to problems that are specific to the Texas Coastal Zone.
2. Educate and train students in addressing environmental problems.
3. Report vital health, economic data and expertise on coastal problems to Texas Regulatory agencies.

**(3) (a) Major Accomplishments to Date:**

This funding has trained graduate and undergraduate students to conduct research in numerous projects relevant not only the State of Texas, but the nation. This also enables these students to pursue higher degrees and employment.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

The original mission of CZL was to manage and coordinate research, advisory and public service functions initiated by the faculty of Texas A&M University at Galveston. Due to continued reduction in funding over the years coupled with the changing needs of modern Texas, the focus of CZL is changing to research, teaching, and public service related to the contamination of the marine environment. The funds are now used in conjunction with other research funds to accomplish these new goals.

**(4) Funding Source Prior to Receiving Non-Formula Support Funding:**

None

**(5) Formula Funding:**

N/A

**(6) Category:**

Research Support

**(7) Transitional Funding:**

N

---

**718 Texas A&M University at Galveston**

---

**(8) Non-General Revenue Sources of Funding:**

None

**(9) Impact of Not Funding:**

Reductions have already resulted in loss of educational and training opportunities for many graduate and undergraduate students. This is the only laboratory specializing in the fate of trace metals and toxic contaminants in Texas waters, which effect consumable seafood. Funding is needed on a permanent basis as well as restoration to original funding levels, if possible.

**(10) Non-Formula Support Needed on Permanent Basis/Discontinuation:**

Permanent

**(11) Non-Formula Support Associated with Time Frame:**

N/A

**(12) Benchmarks:**

N/A

**(13) Performance Reviews:**

Measures are already established and used to determine efficient use of state funding through a number of published peer-review articles and a number of leveraged grants.

---

---

**718 Texas A&M University at Galveston**

---

**Institutional Enhancement**

<b>(1) Year Non-Formula Support Item First Funded:</b>	2000
Year Non-Formula Support Item Established:	2000
Original Appropriation:	\$1,000,376

**(2) Mission:**

The mission of the instructional enhancement non-formula item is to support Texas A&M University at Galveston's (TAMUG) base funding for core academic and student support operations. This funding enables Texas A&M at Galveston to seek levels of programs and academic excellence beyond that which is provided by our basic formula funding. Texas A&M at Galveston uses these funds to support faculty salaries for teaching and advising.

**(3) (a) Major Accomplishments to Date:**

Since receiving institutional enhancements funds in 2000, TAMUG enrollment has increased from 1,288 to approximately 2,200 TAMUG students, which includes TAMU enrolled engineers of approximately 500. TAMUG has experienced the largest increase in degrees awarded in the state from 2015 to 2020 at 13% and for economically disadvantaged students at 25%. The 6-year graduation rate has increased by 15% from 2015 to 2020 versus the state average of 2%.

A recent survey of TAMUG alumni showed the following: 1) 9 of every 10 graduates were employed within two years of graduation; 2) 76% are employed in a field related to their degree; 3) 84% said their education prepared them for continued personal and professional growth; 4) over half were hired into their first position at a salary of more than \$50,000/year.

TAMUG also continues to develop new degree programs in response to the demands of the industry. New programs include a Ph.D. in Marine and Coastal Management and Science, a Bachelors of Science in University Studies with concentrations in Maritime Communication and Public Policy, a Tourism and Coastal Community Development degree and a Computer Science degree. Our graduates will soon fill this direct need identified by the industry.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

We will seek out ways to expand our programs and new degree offerings in order to respond to the demands of the industry. We will also continue to expand academic partnerships with the TAMU campus in College Station, similar to the engineering student expansion on the Galveston campus. Additionally, we will seek out ways to expand our curriculum within the special purpose mission of the University through surveying industry partners, collaborating and creating partnerships with Texas A&M University, and reviewing programs for quality improvement.

**(4) Funding Source Prior to Receiving Non-Formula Support Funding:**

The Institutional Enhancement special item was the result of the consolidation of certain types of special items by the 76th Leg., plus the addition of an initial \$1M per year for academic enhancement purposes.

**(5) Formula Funding:**

N/A

---

**718 Texas A&M University at Galveston**

---

**(6) Category:**

Institutional Enhancement

**(7) Transitional Funding:**

N

**(8) Non-General Revenue Sources of Funding:**

None

**(9) Impact of Not Funding:**

Institutional Enhancement funding is especially important to small institutions such as Texas A&M at Galveston (TAMUG). This funding supports basic academic and student support needs of the university. Folding this funding into the formula would harm TAMUG as it would redistribute this funding at a smaller amount to the smaller institutions. Any reduction of this funding would require reduction in teaching salaries, increase in class size, possible elimination of some course offerings and academic support services, as well as the inability to expand our special purpose mission.

**(10) Non-Formula Support Needed on Permanent Basis/Discontinuation:**

This funding is needed on a permanent basis, as a reduction would greatly impact our ability to educate our students.

**(11) Non-Formula Support Associated with Time Frame:**

N/A

**(12) Benchmarks:**

N/A

**(13) Performance Reviews:**

Measures are already established and used to determine retention and graduation rates, program effectiveness, degrees awarded, alumni success and satisfaction as noted above.

---

---

**718 Texas A&M University at Galveston**

---

**Programming Support: Gulf Center for Sea Turtle Research**

**(1) Year Non-Formula Support Item First Funded:** 2024  
Year Non-Formula Support Item Established: 2024  
Original Appropriation: \$3,000,000

**(2) Mission:**

Programmatic support for the Gulf Center for Sea Turtle Research (GCSTR) will enable existing operations to continue and allow it to expand its presence and impact. In addition, it would provide the necessary medical equipment and supplies, additional tanks to rehabilitate injured sea turtles, rescue vehicles, required training of staff and volunteers, and salary support for full-time facility personnel. Lastly, it will strengthen the Texas workforce of undergraduate, graduate, veterinary students, and the community in all aspects of marine ecology and conservation of the Gulf of Mexico, sea turtle biology, and other marine science programs.

**(3) (a) Major Accomplishments to Date:**

The Gulf Center for Sea Turtle Research has expanded Texas A&M University at Galveston's role in the conservation of protected resources such as threatened and endangered sea turtles. The Center creates knowledge and conserves these keystone species of special concern that impact local habitats important to the sustainability and biodiversity of Galveston Bay and the Upper Texas Coast. The GCSTR partners with the U.S. Fish & Wildlife Service, the National Park Service and Texas Parks and Wildlife to provide conservation and research services to the State of Texas and to the Nation. The Center has generated deep community ties through partnerships with the Houston Zoo for veterinary oversight and local Texas Master Naturalist chapters.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

TAMUG expects to build a world class facility in two years to rehabilitate sea turtles while training veterinary students via aquatic animal medicine rotations, train postdoctoral scientists and graduate students in answering conservation-based research questions, and train undergraduate students in marine conservation, wildlife rehabilitation, and marine policy to prepare them for work in federal and state agencies or professional school.

The Center's research and conservation programs will elevate TAMUG's national and international prominence and attract funding for marine conservation. Further, TAMUG would see an increase in student recruitment and retention, along with increased faculty recruitment in this important area.

**(4) Funding Source Prior to Receiving Non-Formula Support Funding:**

Small grants

**(5) Formula Funding:**

N/A

**(6) Category:**

Research Support

---

**718 Texas A&M University at Galveston**

---

**(7) Transitional Funding:**

N

**(8) Non-General Revenue Sources of Funding:**

Currently, TAMUG writes and receives nominal grant funding.

**(9) Impact of Not Funding:**

Texas A&M at Galveston will lose the potential visibility, student recruitment and retention that funding for programmatic support could bring to the campus. TAMUG would lose to opportunity to achieve a critical mass, size and influence of the Research, Educational Outreach & Rehabilitation Facility, and the ability to increase the level of research training and community influence that would be required for the Center to establish Texas' position as a national and global leader in the marine "Blue" economy.

The Gulf Center for Sea Turtle Research will not be able to financially sustain its current research, conservation, and training programs of responding to nesting, stranded turtles, or rehabilitating sea turtles. Lack of financial stability brought in from tourism would jeopardize the Gulf Center for Sea Turtle Research program, and there is no other entity in the entire region that can conduct this work.

**(10) Non-Formula Support Needed on Permanent Basis/Discontinuu**

Permanent

**(11) Non-Formula Support Associated with Time Frame:**

N/A

**(12) Benchmarks:**

N/A

**(13) Performance Reviews:**

Annual rescue and rehabilitation goals resulting in additional research capability and support of undergraduate and graduate educational programs.

---

---

**718 Texas A&M University at Galveston**

---

**Texas Institute of Oceanography**

**(1) Year Non-Formula Support Item First Funded:** 1989  
Year Non-Formula Support Item Established: 1989  
Original Appropriation: \$1,300,000

**(2) Mission:**

The mission of the Texas Institute of Oceanography (TIO) is to provide focus for research of the Gulf of Mexico coast, to manage and coordinate the academic marine research programs of the state of Texas, to assure scientists of Texas universities suitable multi-user facilities, to manage federal programs, and to provide the research and technological base for the development of marine based businesses in the state of Texas and Gulf of Mexico. This line item also includes our Seafood Safety Lab, whose mission is to test and assure oyster consumers in the State of Texas that oysters from the Gulf are safe to eat.

**(3) (a) Major Accomplishments to Date:**

TIO has maintained a leverage ratio of external funding over 11:1, generating over \$40 million. TIO submitted more than 720 proposals to federal, state and other support agencies to support its mission. TIO has generated important positive impacts for the scientific understanding of the coast of Texas, supporting efforts in topics such as biodiversity, pollution and coastal zone management, helping not only scientists, but also resource administrators and regulators in their efforts to manage the Gulf of Mexico and the Texas Coast. TIO funding has been invaluable in the rapid response to natural and man-made events, such as hurricanes and oil spills. TIO also supports research in the maritime business sector, including development in maritime cybersecurity and optimization of port operations. Lastly, TIO supports the high level training of more than 100 graduate and undergraduate students, in addition to postdoctoral research scientists and visiting scientists conducting studies and increasing the scientific understanding of the area.

Our Seafood Safety Lab monitors the levels of *Vibrio vulnificus* and *Vibrio parahaemolyticus* in Galveston Bay oysters. This data is provided to the Texas Department of State Health services, so that they may temporarily restrict oyster harvesting from areas of the Bay that may have high bacterial counts, in order to reduce potential *Vibrio* infections in oyster consumers.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

TIO is an important key for the growth plan of the University during upcoming years, providing funds to attract world-class researchers that will increase marine investigation in Texas and continue working towards the mission of the Institute. In the coming years, the University plans to hire at least 15 new faculty members in this new area of research. This will provide support to approximately 50 students and young researchers, and provide leverage to new multi-million research grants and seafood safety testing opportunities.

**(4) Funding Source Prior to Receiving Non-Formula Support Funding:**

None

**(5) Formula Funding:**

N/A

---

**718 Texas A&M University at Galveston**

---

**(6) Category:**

Research Support

**(7) Transitional Funding:**

N

**(8) Non-General Revenue Sources of Funding:**

Local oystermen pay fees to support the oyster testing done in the Seafood Safety Lab and these funds are collected in fund 5022 and should continue to support this testing.

**(9) Impact of Not Funding:**

For over 20 years, TIO has been a key element in the research of the coast of Texas. The impact of TIO funding has been known to go well beyond allocated funds, which helps to generate extramural funding several times the value of its annual budget, thus multiplying its impacts. In previous years, cuts in funding have limited our research capabilities. Not funding this initiative means that Texas A&M University at Galveston would be unable to continue meeting the legislative-mandated maritime and marine research mission as stated during its creation. Furthermore, not funding will create loss of opportunities for faculty, research staff, and undergraduate and graduate students to contribute to the study of the coast of Texas and its consequence for not providing the best possible information to resource administrators, business leaders, and policymakers in their decisions. TIO has also demonstrated this importance during disaster evaluation and recovery; lack of funding will decrease the rapid response capabilities to assess the impact after natural of human disasters, affecting the availability of data for responders and managers. A decrease in funding for oyster results in fewer oyster samples tested, ultimately putting our oyster consumers at risk.

**(10) Non-Formula Support Needed on Permanent Basis/Discontinuu**

This funding is needed on a permanent basis so the University can continue to generate the positive results that has positioned it as the most important marine-focused University on the Gulf of Mexico, a source of pride to Texans.

**(11) Non-Formula Support Associated with Time Frame:**

N/A

**(12) Benchmarks:**

N/A

**(13) Performance Reviews:**

Performance is measured in number of proposals submitted, number of proposals granted, and the number of undergraduate, graduate and postdoctoral students conducting studies made available through this funding.

---
