Time-to-Degree Methodology

Section 1 of HB 1172 requires that information regarding undergraduate graduation rates shall be provided to the governing board of each Texas public higher education institution. Subsection b (1) directs that:

b) The report must: (1) state, for each undergraduate degree program, the average number of semester credit hours attempted and the average number of fall and spring semesters attended by a student completing the program.

Towards this end, the Texas Higher Education Coordinating Board (CB) has produced undergraduate graduation information for FY 2005.

Methodology

Every student who earned a baccalaureate degree at a public general academic institution in FY 2005 was traced back for ten years (FY 1996-FY 2005) to find when he/she was reported as a first-time student. Only those with a first-time indicator were included in the analysis. For each of these students, the number of semester credit hours attempted was recorded (fall, spring and summer semesters), as well as the number of fall and spring semesters attended. The graduates were classified into broad fields based on the CIP Codes of their majors. The number of graduates by field, the average number of undergraduate credit hours attempted, and the average number of fall and spring semesters attended were calculated for each institution's graduates. The statewide results are shown below. (Table 1) This methodology is identical to that used for FY 2004.

Table 1
Time-to-Degree in Eight Program Categories for
All Texas Public General Academic Institutions

General Program Areas	CIP Codes	Number of Graduates	Mean Semesters ¹	Mean Credits Attempted ²
Science & Math	03,11,26,27,40	5,031	10	149
Agriculture	1	1,478	10	151
Business	52	10,825	10	147
Engineering	14	2,638	10	152
Health	51	1,730	10	154
Liberal & Fine Arts and Architecture	04,05,09,10,16,22,23,24,25,29,30,38,50	13,212	10	149
Social Sciences and Service	12,19,31,42,43,44,45,54	11,188	10	147
Technology	15,41,46,47,48,49	712	11	165
Grand Mean		46,814	10	148

¹ Fall and spring semesters only.

² Semester credit hours attempted during fall, spring and summer semesters

Students who transferred into Texas public institutions from elsewhere, in addition to students who had received a baccalaureate in Texas public higher education institutions in the nine years prior to FY2005, were excluded from the analysis. Additionally, credits obtained by flexible entry students, or credits obtained prior to matriculation were excluded.

Statewide, 46,692 baccalaureate graduates were found who met the above criteria, compared with 68,029 total graduates (68.6%). They had an average of 148.5 semester credit hours attempted and 10 fall and spring semesters attended.

Attachment 2

H.B. No. 1172

AN ACT

Relating to policies and measures to promote timely graduation of students from public institutions of higher education.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Subchapter H, Chapter 51, Education Code, is amended by adding Section 51.4032 to read as follows:

Sec. 51.4032. REPORT OF EFFORTS CONCERNING TIMELY GRADUATION.

(a) Not later than November 1 of each year, the president of each general academic teaching institution, as defined by Section 61.003, shall provide to the governing board of the institution a report for the preceding academic year that examines the institution's efforts concerning timely graduation of its undergraduate students.

(b) The report must:

(1) state, for each undergraduate degree program, the average number of semester credit hours attempted and the average number of fall and spring semesters attended by a student completing the program;

(2) state the specific efforts implemented by the institution to ensure that undergraduate students graduate in a timely manner and do not attempt an excessive number of semester credit hours beyond the minimum number required to complete the students' degree programs, including the institution's efforts to provide academic counseling concerning timely graduation, including the development of an online student degree progress report which compares the courses taken and credit received by a student to the courses completed and needed for degree and graduation requirements for each academic term, and to implement tuition policies that encourage timely graduation; and

(3) include any other information required by the Texas Higher Education Coordinating Board.

(c) An institution's report must be in the form prescribed by coordinating board rule adopted in consultation with general academic teaching institutions.
