Board Approval of Accountability Measures

The accountability system includes some data for all institutions with a Texas presence

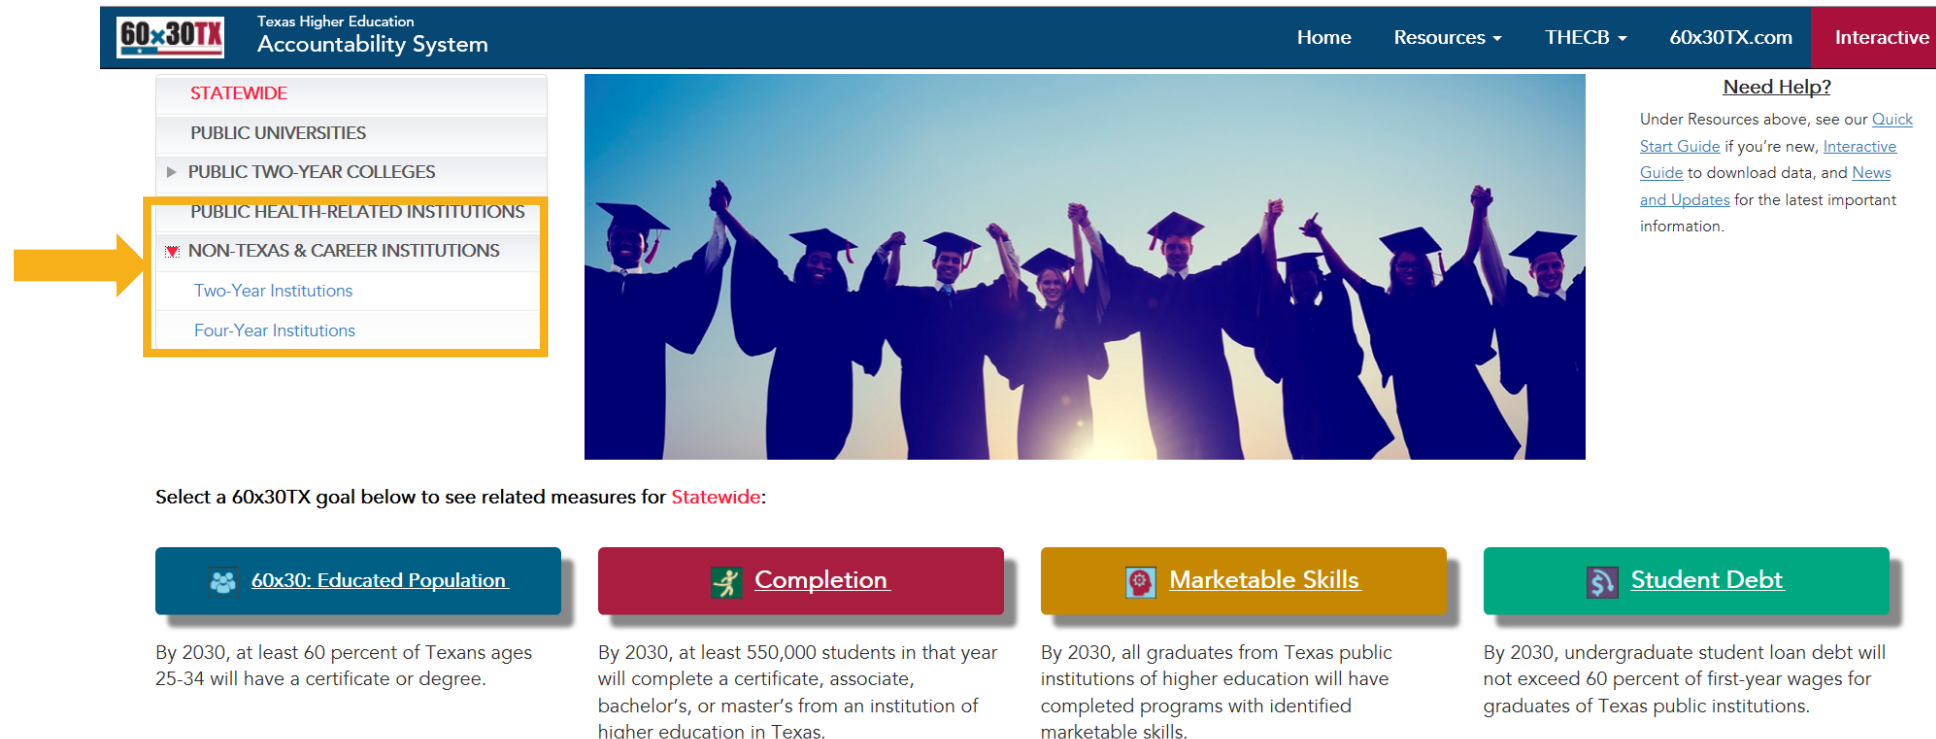

- The system is primarily for public institutions
- Career (for-profit) and non-Texas institutions that offer degrees were included in the system in 2011
- Texas is one of only 9 states that collects private, for-profit institutional information
- State Authorization Reciprocity Agreement (SARA) establishes state-level reciprocity for online program authority; this removed reporting requirements for some out-of-state institutions

Institutions have been actively engaged in the measure revision process *Fall 2016 through December 2017*

The proposed career school measures and data are available on the redesigned accountability website at:

www.txhigheredaccountability.org

The screenshot displays the Texas Higher Education Accountability System website. The navigation bar at the top includes the 60x30TX logo, the text "Texas Higher Education Accountability System", and links for Home, Resources, THECB, 60x30TX.com, and Interactive. A sidebar menu on the left lists categories: STATEWIDE, PUBLIC UNIVERSITIES, PUBLIC TWO-YEAR COLLEGES, PUBLIC HEALTH-RELATED INSTITUTIONS, and NON-TEXAS & CAREER INSTITUTIONS. The NON-TEXAS & CAREER INSTITUTIONS category is highlighted with a yellow box and an arrow, showing sub-options for Two-Year Institutions and Four-Year Institutions. The main content area features a large image of graduates and a "Need Help?" section with links to Quick Start Guide, Interactive Guide, and News and Updates. Below the image, a prompt asks users to select a 60x30TX goal, with four options: Educated Population, Completion, Marketable Skills, and Student Debt, each with a brief description of the goal.

Update on 60x30TX

Key Insights

- There are positive indicators for all goals and targets in 2017.
- The 60x30 goal and the completion goal showed strong improvement--at rates needed to reach 2030 goals.
- Completions for male and economically disadvantaged students grew modestly but are falling behind needed progress.
- Direct enrollment from high school increased slightly after a two-year decline and requires additional attention.
- Marketable skills and student debt goals remain steady, although excess semester credit hour reductions need to pick up the pace.
